MEMORANDUM FOR RECORD

FROM: 194 MSG/MSC

SUBJECT: Sole Source Acquisition for Security Camera Installation BLDG 855, JBLM WA.

1. This is a notice of a Sole Source Acquisition for the installation of security infrastructure using the Integrated Commercial Intrusion Detection System V (ICIDS) proprietary system, to include new security cameras, in building 855 located on Joint Base Lewis McChord to Evergreen Fire and Security. NAICS code 561621, Security Systems Services (except locksmith).
2. This is a sole source acquisition as it was found through previous acquisitions by the WA ANG and the JBLM Mission Installation Contracting office that Evergreen Fire and Alarm is the only authorized company to operate on the ICIDS security system used on all base facilities on JBLM. It was found that awarding to any other source would be a duplication of costs nor would any other commercial off the shelf system integrate with the ICIDS system. This previous attempt to identify other sources was conducted March of 2025, further research has obtained no new companies authorized within the local areas that is certified to work on the system.

RYAN DUGAN, MSgt, WA ANG
Contracting Officer
