INSTRUCTION

NUMBER 8120.1
1 September 2020

CIO-T

SUBJECT: Electronic Waste Management

References: See Enclosure 1.

1. PURPOSE. This Instruction:

a. Establishes policy, assigns responsibilities, delegates authorities, and provides procedures for Electronic Waste (E-Waste) management.

b. Rescinds NGA Directive 8120, "Electronic Waste (E-Waste) Management Program," 12 May 2017.

2. APPLICABILITY. This Instruction applies to all NGA civilian employees, military service members, other Government agency personnel assigned to NGA, and contractors, hereinafter referred to as *personnel*.

3. DEFINITIONS. See Glossary.

4. POLICY. It is NGA policy to:

a. Decommission, sanitize, dispose of, and destroy E-Waste in accordance with (IAW) References (a), (b), (e), (k), (m), (n), (s), and (u).

b. Provide training and guidance for personnel involved in the sanitization and disposal of E-Waste IAW References (k), (l), and (s).

c. Reuse E-Waste to the maximum extent possible.

5. RESPONSIBILITIES. See Enclosure 2.

6. PROCEDURES. See Enclosure 3.

UNCLASSIFIED

7. EFFECTIVE DATE. This Instruction is effective on the date of signature.

CHATELAIN. Digitally signed by

ENCLOSURE 2

RESPONSIBILITIES

1. Director, NGA.

a. Establishes and implements an E-Waste program IAW Reference (k).

b. Delegates authority to execute and manage the E-Waste program to the Chief Information Officer (CIO) IAW Reference (k).

2. CIO.

a. Executes and manages the E-Waste program.

b. Assigns the responsibility to implement and manage the E-Waste program to the E-Waste Mission Manager (EMM) IAW References (k) and (o).

3. Chief Information Security Officer (CISO).

a. Enforces security controls for media sanitization IAW References (f), (k), and (p).

b. Collaborates with EMM to include E-Waste management and disposal procedures in the NGA information technology (IT) risk management framework IAW References (h) and (k).

4. EMM.

a. Implements and manages the E-Waste program.

b. Collaborates with Director, Security and Installations (D/SI), to develop and manage processes and procedures to support E-Waste decommissioning, sanitization, disposal, and destruction IAW Reference (k).

c. Develops training materials, conducts E-Waste training, and ensures compliance with E-Waste policy IAW Reference (k).

d. Manages storage areas for IT equipment receipt and sanitization that are allocated by D/SI IAW Reference (s).

e. Ensures that E-Waste sanitization and disposal are conducted IAW References (g), (k), (s), and (u).

f. Develops, collects, and monitors E-Waste disposal metrics describing what, when, and how E-Waste is sanitized, and the final disposition of the E-Waste IAW Reference (k).

g. Reviews and approves/disapproves E-Waste plans, and informs Program Managers (PMs) or Information System Owners (ISOs) in writing IAW References (d) and (m).

h. Collaborates with the CISO to include E-Waste management and disposal procedures in the NGA IT risk management framework IAW References (j) and (k).

i. Protects and secures E-Waste during the disposal phase of the System Development Life Cycle (SDLC) to maximize reuse IAW References (a), (i), (q), and (r).

5. D/SI.

a. Manages E-Waste disposal IAW Reference (s).

b. Prepares and maintains destruction certificates for all IT equipment destroyed IAW Reference (s).

c. Collaborates with the EMM to develop and manage processes and procedures to support E-Waste decommissioning, sanitization, disposal, and destruction IAW Reference (k).

d. Ensures E-Waste destruction is processed IAW Reference (s).

6. PMs and ISOs.

a. Plan, program, budget, and execute funding for E-Waste decommissioning, sanitization, disposal, and destruction IAW References (a), (k), and (p).

b. Ensure that E-Waste decommissioning, sanitization, disposal, and destruction are integrated into the SDLC IAW Reference (t).

c. Develop E-Waste plans and submit plans to EMM IAW References (d) and (m).

d. Oversee and manage media sanitization and disposal actions IAW References (f), (q), (s), and (u).

ENCLOSURE 3

PROCEDURES

1. Personnel who identify excess or unwanted IT equipment should contact the appropriate PM or ISO and request the IT equipment's removal. The PM or ISO will inform the requestor of any required additional actions.
2. If the PM or ISO is unknown, personnel should submit an excess equipment service request through the IT Service Manager tool, Service+. The service request will then be routed to the appropriate PM or ISO based on the barcode of the equipment. If the equipment does not have a barcode, the service request will be processed as found equipment.
3. Detailed sanitization and disposition procedures for PMs and ISOs can be found in NGAM 4160.1, "Accountability and Management of Property, Plant, Equipment, and Other Accountable Property," and NGA Work Instruction, "Sanitization and Disposal." (References (s) and (u))

GLOSSARY

Asset	A major application, general support system, high impact program, physical plant, mission critical system, personnel, equipment, or a logically related group of systems. (Reference (c))
Decommission	Remove an information system from service. (Definition created by NGA for NGA purposes only.)
Destroy, destroyed, or destruction	A method of sanitization that renders Target Data recovery infeasible using state-of-the-art laboratory techniques and results in the subsequent inability to use the media for storage of data. (Reference (c))
Disposal	A release outcome following the decision that media does not contain sensitive data. This occurs either because the media never contained sensitive data or because sanitization techniques were applied and the media no longer contains sensitive data. (Reference (k))
Electronic Waste (E-Waste)	Obsolete or discarded electronic media, memory, or equipment near or at the end of its useful life that is no longer usable or required by an information system. (Reference (k))
Information System (IS)	A discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. (Reference (c))
Information System Owner (ISO)	Official responsible for the overall procurement, development, integration, modification, or operation and maintenance of an information system. (Reference (c))
Media	Physical devices or writing surfaces including, but not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts (but not including display media) onto which information is recorded, stored, or printed within an information system. (Reference (c))
Program Manager	Official responsible for the overall procurement, development, integration, modification, or operation and maintenance of an information system. (Reference (c))
Risk Management Framework (RMF)	A structured approach used to oversee and manage risk for an enterprise. (Reference (k))

Sanitize	Process to remove information from media such that data recovery is not possible. It includes removing all classified labels, markings, and activity logs. (Reference (u))
System Development Life Cycle	The scope of activities associated with a system, encompassing the system's initiation, development and acquisition, implementation, operation and maintenance, and ultimately its disposal that instigates another system initiation. (Reference (c))
Total Asset Management (TAM)	A group of federated systems to produce an enterprise-level asset management capability and supporting processes associated with asset management. (Reference (s))
