National Geospatial-Intelligence Agency

INSTRUCTION

NUMBER 3020.26

26 May 2021

Administrative Update 1, 15 March 2023

NOC

SUBJECT: Continuity of Operations Program

References: See Enclosure 1.

1. PURPOSE. This Instruction:

a. Establishes policy and assigns responsibilities for the planning, management, execution, exercise, and maintenance of NGA's Continuity of Operations (COOP) Program functions in accordance with (IAW) References (a) through (am).

b. Governs all activities involved with planning and preparation for the survival, continuity, recovery, and reconstitution of NGA's mission essential function (MEF).

c. Supports National, DoD, Intelligence Community (IC), and NGA continuity goals and objectives to ensure the resilience of NGA's mission.

d. Rescinds NGA Instruction 3020.26, "Continuity of Operations Program," 17 May 2018.

2. APPLICABILITY. This Instruction applies to all NGA civilian employees, military service members, other Government agency personnel assigned to NGA, and contractors hereinafter referred to as *personnel*.

3. DEFINITIONS. See Glossary.

4. POLICY. It is NGA policy to:

a. Assure the resilience of its people, processes, technology, and facilities that support its MEF: task, collect, process, exploit, analyze, and disseminate timely, relevant, and accurate geospatial intelligence, consisting of imagery, imagery intelligence, and geospatial information for use by the Armed Forces, Departments or Agencies of the US Government, and foreign partners. ~~(Reference (ai))~~

b. Govern and employ a risk-based, enterprise-wide approach for survival, continuity, recovery, and reconstitution of NGA's essential functions (EFs), functions (Fs), essential support activities (ESAs), support activities (SAs), information systems (including contractor/vendor-operated systems and systems in the acquisition cycle/development phase) infrastructure, and mission-essential tasks following a natural or manmade disruption.

UNCLASSIFIED

c. Maintain the capability to rapidly, methodically, and effectively respond and resume, recover, and reconstitute NGA's business processes, information technology (IT) systems, and human resources following an undesirable event (UDE) (natural or manmade) and to support this requirement through the establishment of thorough continuity plans, procedures, and technical measures.

5. RESPONSIBILITIES. See Enclosure 2.

6. EFFECTIVE DATE. This Instruction is effective on the date of signature.

ENCLOSURE 2RESPONSIBILITIES

1. Director, NGA (D/NGA).

a. Ensures planning, programming, and budgeting for continuity capabilities (including mission and IT system resilience) are adequate to support NGA's COOP Program and continuation of NGA's MEF under all conditions IAW References (a), (c), (g), (o), (p), and (r).

b. Approves NGA's MEF IAW References (e), (o), and (s).

c. Designates an Agency Continuity Coordinator (ACC), who has the authority and responsibility for oversight of NGA's continuity activities IAW References (a), (o), (s), and (ak).

d. Approves NGA's order of succession IAW References (d) and (s).

e. Delegates NGA authorities IAW References (d) and (s).

f. Serves or delegates appointment of a Mission Assurance (MA) Officer with necessary security clearance and authority for addressing security, protection, and risk-management (RM) issues. (Reference (p))

g. Works with the Chief Financial Executive (CFE) and ~~Directorate Component Heads and Agency Element Leads~~ to recommend realignment of funds to support contingency requirements in support of resilience planning and response, recovery, and reconstitution operations IAW References (d) and (ai).

h. In coordination with the ~~Director, Security and Installations (D/SI);~~ Chief, NGA Operations Center ~~Mission Assurance MA (C/NOC MA);~~ ~~Directorate Component Heads and Agency Element Leads;~~ and ~~Directorate and Agency Element Component~~ Business Continuity (BC) Lead Planners, help identify alternate facilities and work spaces based on requirements. Planning should consider scenarios that include relocation from any facility at which the ~~Directorate Component Heads and Agency Element Leads~~ work or provide support.

i. Oversees the COOP Program Budget Line Item.

2. Deputy Director, NGA (DD/NGA).

a. Works with the CFE and ~~Directorate Component Heads and Agency Element Leads~~ to recommend realignment of funds to support contingency requirements in support of resilience planning and response, recovery, and reconstitution operations IAW References (d) and (ai).

b. In coordination with the D/SI, C/NOC MA, ~~Directorate Component Heads and Agency Element Leads~~, and ~~Directorate and Agency Element Component~~ BC Lead Planners, help identify alternate facilities and work spaces based on requirements. Planning should consider

scenarios that include relocation from any facility at which the ~~Directorate Component Heads and Agency Element Leads~~ work or provide support.

3. Chief of Staff (CoS).

- a. Recommends NGA's order of succession to the D/NGA IAW References (d) and (s).
- b. Recommends NGA's delegations of authority to the D/NGA IAW References (d) and (s).
- c. Advises the D/NGA on making continuity decisions, specifically on response, recovery, and reconstitution to support facility, security, and personnel functions IAW Reference (ai).
- d. Works with the CFE and ~~Directorate Component Heads and Agency Element Leads~~ to recommend realignment of funds to support contingency requirements in support of resilience planning and response, recovery, and reconstitution operations IAW References (d) and (ai).
- e. In coordination with the D/SI, C/NOC MA, ~~Directorate Component Heads and Agency Element Leads~~, and ~~Directorate and Agency Element Component~~ BC Lead Planners, helps identify alternate facilities and work spaces based on requirements. Planning should consider scenarios that include relocation from any facility at which the ~~Directorate Component Heads and Agency Element Leads~~ work or provide support.

4. MA Officer.

- a. Addresses security, protection, and ~~risk-management~~ RM issues IAW Reference (p).
- b. Develops/participates in a risk forum that addresses internal risks that affect the accomplishment of the Agency's MEF IAW References (p).
- c. Integrates MA with existing DoD ~~risk-management-RM~~ efforts IAW References (p).
- d. Elevates strategic risk issues to the appropriate MA Coordination Board Forums within the IC and DoD.
- e. Integrates MA-related responsibilities assigned in the DoD Cyber Strategy IAW Reference (p).
- f. Provides strategic direction for decisions made at the Joint Technical Working Group, the Joint Risk Working Group, and the NGA ~~Mission Assurance MA Risk Management~~ RM Committee.

5. Associate Director for Operations (ADO).

- a. Recommends NGA's MEF(s) to the D/NGA IAW References (e), (o), and (s).

b. Advises the D/NGA in making continuity decisions, specifically on response, recovery, and reconstitution to support the status of mission and operations and the impacts to NGA's MEF IAW Reference (ai).

c. Works with the CFE and ~~Directorate Component Heads and Agency Element Leads~~ to recommend realignment of funds to support contingency requirements in support of resilience planning and response, recovery, and reconstitution operations IAW References (d) and (ai).

d. In coordination with the D/SI, C/NOC MA, ~~Directorate Component Heads and Agency Element Leads~~, and ~~Directorate and Agency Element Component BC Lead Planners~~, help identify alternate facilities and work spaces based on requirements. Planning should consider scenarios that include relocation from any facility at which the ~~Directorate Component Heads and Agency Element Leads~~ work or provide support.

6. Associate Director for Capabilities (ADC).

a. Advises the D/NGA on making continuity decisions, specifically with contingency contracting/budget requirements and long-term programmatic resilience planning IAW Reference (ai).

b. Works with the CFE and ~~Directorate Component Heads and Agency Element Leads~~ to recommend realignment of funds to support contingency requirements in support of resilience planning and response, recovery, and reconstitution operations IAW References (d) and (ai).

c. In coordination with the D/SI, C/NOC MA, ~~Directorate Component Heads and Agency Element Leads~~, and ~~Directorate and Agency Element Component BC Lead Planners~~, help identify alternate facilities and work spaces based on requirements. Planning should consider scenarios that include relocation from any facility at which the ~~Directorate Component Heads and Agency Element Leads~~ work or provide support.

~~7. Associate Director for Support.~~

~~a. Oversees the COOP Program Budget Line Item.~~

~~b. Works with the CFE and Directorate Component Heads and Agency Element Leads to recommend realignment of funds to support contingency requirements in support of resilience planning and response, recovery, and reconstitution operations IAW References (d) and (ai).~~

~~c. In coordination with the D/SI, C/NOC MA, Directorate Component Heads and Agency Element Leads, and Directorate and Agency Element Component BC Lead Planners, help identify alternate facilities and work spaces based on requirements. Planning should consider scenarios that include relocation from any facility at which the Directorate Component Heads and Agency Element Leads work or provide support.~~

~~8. Associate Director for Enterprise.~~

~~a. Works with the CFE and Directorate Heads and Agency Element Leads to recommend realignment of funds to support contingency requirements in support of resilience planning and response, recovery, and reconstitution operations IAW References (d) and (ai).~~

~~b. In coordination with the D/SI, C/NOC MA, Directorate Heads and Agency Element Leads, and Directorate and Agency Element BC Lead Planners, helps identify alternate facilities and work spaces based on requirements. Planning should consider scenarios that include relocation from any facility at which the Directorate Heads and Agency Element Leads work or provide support.~~

9 7. ACC.

a. Oversees the establishment and development of an integrated and synchronized COOP Program for NGA that is consistent with applicable laws and regulations IAW References (a) through (w).

b. Ensures effectiveness and survivability of NGA's continuity capabilities IAW References (a) through (w), ~~(ag)~~, and (ai).

c. Leads NGA's planning and execution of ~~business continuity~~BC/disaster recovery (BC/DR) exercise programs. (Reference (aa))

d. Leads NGA's mission response, recovery, and reconstitution efforts during a contingency/continuity event. These actions include recommending ordering the activation of the NGA COOP Plan, ~~Directorate and Agency Element Component Business Continuity BC~~ Plans (BCPs), Information System Contingency Plans (ISCPs), and Disaster Recovery Plans (DRPs) IAW References (o), ~~(ag)~~, and (ai).

e. Oversees all policies concerning utilization of alternate sites for ~~undesirable events~~ UDEs BC to include physical space decisions, and senior level coordination with NGA components and other Federal agencies.

f. Identifies and ensures potential strategic risks are identified and addressed resulting from MA National Level Exercises, Emergency Management and Force Protection Exercises and real-world negative events affecting facilities or personnel, to include power outages, unscheduled network outages, and other facilities failures.

g. Integrates and synchronizes MA functional area planning and execution across NGA; this should include integrating MA-related responsibilities assigned IAW Reference (am).

h. Identifies, prioritizes, and remediates mission risk and resilience efforts across NGA.

i. Collaborates with Director, Chief Information Officer and IT Services (D/CIO-T) and ~~Director, Security and Installations (D/SI)~~ on any alternate facilities or workspaces that have requirements for IT hardware, networks, and software to continue operations, should normal operating facilities become unavailable.

~~10~~ 8. Director, NOC (D/NOC).

a. Represents NGA concerning continuity affairs and policy at external senior-level Federal, DoD, IC COOP, and BC/DR forums.

b. Submits continuity planning, programming, budgeting, and execution (PPBE) requirements to the appropriate parties for review, decision, validation, and action IAW References (a), (d), (g), (o), (p), and (r).

c. Executes Essential Records Program management responsibilities with regard to the Agency's Continuity Program IAW Reference (ae).

d. Advises the Executive Committee (EXCOM) and ~~Directorate Component Heads and Agency Element Leads~~ in making continuity decisions.

e. Coordinates authorized outages with D/CIO-T during authorization and implementation phases to minimize mission impacts.

~~11~~ 9. C/NOC MA.

a. Serves as NGA's Continuity Manager and office of primary responsibility (~~OPR~~) for MA policy, programs, and plans IAW Reference (r).

b. Coordinates NGA efforts to ensure the continued function and resilience of capabilities and assets by refining, integrating, and synchronizing ~~risk management RM~~ and continuity planning that directly relates to mission execution IAW References (d) and (p).

c. Establishes, develops, maintains, and executes an integrated and synchronized COOP program that is consistent with applicable laws and regulations IAW References (a) through (w).

d. Provides strategic planning assistance, guidance, and PPBE review and validation in support of the NGA COOP Program IAW References (a), (d), (g), (o), (p), and (r).

e. In coordination with the D/SI, EXCOM, ~~Directorate Component Heads and Agency Element Leads~~, and ~~Directorate and Agency Element Component~~ BC Lead Planners, helps identify alternate facilities and work spaces based on requirements. Planning should consider scenarios that include relocation from any facility at which the ~~Directorate Component Heads and Agency Element Leads~~ work or provide support.

f. Develops COOP policy and provides guidance and support to ~~Directorate Component Heads and Agency Element Leads~~ regarding the development of BCPs IAW References (r) and (ab).

g. Coordinates ISCPs with the Chief, IT Continuity and Recovery Branch.

h. Maintains and updates the NGA COOP plan IAW References (a), (d), (g), and (s).

i. Provides and maintains the corporate repository for EF, F, ESA, SA, BC, and ISCPs within the NGA continuity planning tool (CPT).

j. Provides and maintains the corporate repository for MA ~~risk management~~ RM and risk registry information within the NGA Risk and Opportunity Management System (NROM) IAW References (b), (d), and (p).

k. Provides and maintains the corporate repository for exercise and scenario product information within the enhanced master scenario events list system.

l. Reviews BCPs for completeness and currency.

m. Collaborates with ~~Directorate Component~~ Heads ~~and Agency Element Leads~~, and their respective BC Lead Planners, to ensure essential records are identified and available at planned alternate facilities IAW Reference (ae).

n. Collaborates with Chief, IT Continuity and Recovery Branch on recovery time capability (RTC) and ensures systems support mission requirements or document risk acceptance or mitigation if RTC is not properly aligned with enabled missions. Documents risk acceptance or mitigation in NROM System.

o. Collaborates with Chief Information Security Officer (CISO) regarding cybersecurity risk acceptance and mitigation.

p. Collaborates with appropriate offices within CIO-T, Information System Administrators (Information System Owners (ISOs), Intelligence Surveillance and Reconnaissance, ISCPs), and functional system users to ensure:

(1) Accurate recovery time objective (RTO) and RTC alignment for NGA information systems;

(2) ISCPs are linked to the NGA mission(s) (i.e., EF/F/ESA/SAs) they enable in the NGA CPT;

(3) ISCPs support mission requirements or document risk acceptance if RTO is not properly aligned with mission.

q. Plans and conducts annual test, training, and exercise (TT&E) of the NGA COOP Program and continuity plans IAW References (c), (d), (g), (o), (p), (r), (s), and (aa).

r. Develops and submits updates to the NGA MEF to the ADO, as required IAW Reference (e).

s. Monitors NGA compliance with National, IC, DoD, and NGA COOP Program policy and maintains the NGA continuity readiness metrics program IAW Reference (s).

t. Coordinates with the CFE to provide input for annual Office of Management and Budget (OMB), Congressional Budget Justification Book (CBBJ), and Office of the Director of National Intelligence (ODNI) performance metrics IAW References (a), (d), (g), (p), and (r).

- u. Supports ~~the~~ SI ~~Directorate~~ in administering the NGA mass notification system for ~~business-continuity~~ BC purposes IAW References (c), (d), and (o).
- v. Coordinates and collaborates with D/SI in the scheduling and conducting of external NGA MA assessments (e.g., Joint ~~Mission-Assurance~~ MA Assessments and Balanced Survivability Assessments).
- w. Provides continuity training to NGA leadership, continuity planners, and personnel IAW References (d), (e), and (g).
- x. Conducts business process analysis biennially and reviews EFs within the CPT IAW References (d) and (e).
- y. Coordinates training, annual access validation, and general use and life support (e.g., budgetary, communications, equipment, etc.) for all NGA alternate sites.
- z. Works with D/SI and other relevant stakeholders to ensure viability of the Computerized Emergency Notification System for MA activities (e.g. BC and Personnel Accountability (PA) purposes) IAW References (d), (o), (s), (x), and (y).
- aa. Collaborates with the Chief, ~~Information-Technology~~ IT Continuity and Recovery Branch on the status of the NGA IT Contingency Planning Program (ITCPP) to ensure compliance and accuracy of program metrics and measures.
- ab. Coordinates with Chief, IT Continuity and Recovery Branch; ISO; and the Chief, Cyber Security Office ~~Risk-Management~~ RM Division to identify which specific NGA EF, F, ESA, and SAs each information system supports. Evaluates each system's RTC capabilities against the EF, F, ESA, SA, and RTO requirements. Determines potential risks using gap analysis between mission requirement and program capability identifying and prioritizing risk, as well as providing appropriate risk mitigation measures and controls to address identified risk IAW References (h) through (m), and (u).
- ac. Serves as Agency Program Manager ~~(PM)~~ for the defense critical infrastructure program activities, including development and review of the NGA task critical asset list IAW Reference (t).

~~12~~ 10. Operations Center Director.

- a. Leads the NOC Core Leadership Team.
- b. Maintains a common operating picture of ~~business-continuity~~ BC readiness, manages the authorized outage process, and implements the ASG crisis response ~~IAW-Reference (ag)~~.
- c. Notifies the Casualty Affairs Program Office of incidents involving an employee's death, serious injury/illness, or unexplained absence IAW Reference (x).

d. Maintains NGA's operating status information and collaborates with appropriate external organizations to advise them of NGA's operating status during changes in Continuity of Government Condition (COGCON) Level or as directed or appropriate IAW References (g) and (x).

e. Collects and reports ~~personnel accountability~~ PA information, in support of HD responsibilities, and as provided by ~~Directorate Component Heads and Agency Element Leads~~ during ~~business continuity~~ BC events. This information is reported to the D/NGA; DD/NGA; CoS; ADO; ADC; D/NOC; Director, Office of Corporate Communications (D/OCC); and external organizations as directed IAW References (d) and (y).

f. Collects information on NGA site emergency response carried out by the D/SI and the mission recovery efforts of the ~~Directorate Component Heads and Agency Element Leads~~. This information is reported to the D/NGA, DD/NGA, CoS, ADO, ADC, D/NOC, D/OCC, and external organizations as directed.

~~13-11~~. Intelligence Director serves on the NOC Core Leadership Team.

~~14-12~~. Source Operations Officer serves on the NOC Core Leadership Team.

~~15-13~~. IT Mission Watch Officer (ITMWO) serves on the NOC Core Leadership Team.

~~16-14~~. NOC Core Leadership Team provides EXCOM and ~~Directorate Component Heads and Agency Element Leads~~ with timely command, control, communications, and IT systems information including: COGCON, COOP, BCP, and DRP implementation, and NGA crisis response team(s) status/reporting IAW References ~~(ag)~~, (ai), and (ak).

~~17-15~~. CFE.

a. Works with EXCOM, ~~Directorate Component Heads and Agency Element Leads~~ to recommend realignment of funds to support contingency requirements in support of resilience planning and response, recovery, and reconstitution operations IAW References (d) and (ai).

b. Coordinates with C/NOC MA for input for annual OMB, CBJB, and ODNI performance metrics IAW References (a), (d), (g), (p), and (r).

c. Seeks additional contingency funding through supplemental or reprogramming processes that may be authorized by the DoD, ODNI, OMB, or Congressional oversight in response to approved PPBE contingency requirements IAW Reference (ad).

d. Develops and provides guidance and support to ~~Directorate Component Heads and Agency Element Leads~~ regarding the planning and programming of funds to support continuity activities.

~~18 16~~. General Counsel (GC).

a. Reviews contingency records for legal sufficiency as required, including external agreements (e.g., memorandum of agreement (MOA), memorandum of understanding (MOU), and proper use memorandum) IAW Reference (d).

b. Provides legal guidance in areas such as privacy and contracts (facilities and personnel) in conjunction with COOP, BCP, DRP, ISCP planning efforts, and contingency/continuity events IAW References (d), (s), and (y).

c. Collaborates with D/SI on the requirements of supported and supporting organizations through MOAs, MOUs, and other agreements as applicable to NGA core sites IAW Reference (d).

~~19~~ 17. D/HD.

a. Coordinates the telework program requirements and incorporates relevant COOP requirements during COOP Plan activation IAW Reference (z).

b. Manages the PA program, assigns a PA Liaison to the NOC, and provides reports to the NOC Director on the status of personnel as required or appropriate IAW References (d), (x), and (y).

c. Advises the CoS regarding the standup of the Emergency Family Assistance Center in the event of a mass casualty incident IAW References ~~s (ag) and (ai).~~

~~20~~ 18. D/OCC.

a. Informs the workforce of NGA's operating status.

b. Communicates with Congress, DoD, ODNI, and other federal, state, and local government public affairs staffs as appropriate IAW Reference (ac).

c. Informs the media and public of changes to NGA's operating status, as appropriate, and prepares responses to inquiries from Congress, other Federal departments and agencies, and national and local media IAW Reference (ac).

~~21~~ 19. Director, Office of Contract Services (D/OCS).

a. Ensures expeditious acquisition of the resources necessary for response, recovery, and reconstitution operations from an ~~undesirable event (UDE)~~, for up to 30 days, or until normal operations have resumed IAW References (d) and (ai).

b. Ensures resilience requirements are explicitly stated and included in all applicable contracts for survival, continuity, recovery, and reconstitution of the NGA MEF, EFs, Fs, ESAs, SAs, and IT systems IAW References (d), (s), and (u).

c. Collaborates with D/CIO-T to ensure IT resilience requirements for primary and backup infrastructure systems and services are explicitly stated in all IT contracts for survival,

continuity, recovery, and reconstitution of the MEF, EFs, Fs, ESAs, and SAs IAW References (d), (s), (u), and (aj).

~~22~~ 20. D/Sl.

a. Serves as the cognizant security authority for all security programs and is the Senior NGA Official for the Antiterrorism; Emergency Management; Chemical Biological Radiological Nuclear, and Explosives Preparedness; Cybersecurity; Defense Security Enterprise (composed of personnel, physical, industrial, information, and operational security programs; special access programs security policy; critical program information protection policy; and security training) Insider Threat; and Law Enforcement (suspicious activity reporting) Programs. (Reference (x))

b. Ensures appropriate synchronization of Emergency Management responsibilities, plans, and procedures with COOP, BCP, DRP, and ISCP planning and execution requirements.

c. Ensures the D/NOC is informed and kept updated of NGA site emergency response efforts.

d. Conducts annual (at minimum) TT&E of primary and backup infrastructure systems and services (e.g., power and water) at NGA core sites IAW References (d) and (t).

e. Ensures appropriate synchronization of antiterrorism ~~risk management (RM)~~ with other protection program RM efforts under an MA RM framework IAW Reference (p) and (q).

f. In coordination with the C/NOC MA, EXCOM, ~~Directorate Component Heads and Agency Element Leads~~, and ~~Directorate and Agency Element Component~~ BC Lead Planners, help identify alternate facilities and work spaces based on requirements. Planning should consider scenarios that include relocation from any facility at which the ~~Directorate Component Heads and Agency Element Leads~~ work/provide support.

g. Ensures there is space available for a minimum of 30 days at all COOP sites to support staff augmentation and relocation plans.

h. Oversees and administers the alert notification system. Works with C/NOC MA and other relevant stakeholders to ensure viability of the Computerized Emergency Notification System for MA activities (e.g. BC and PA purposes) IAW References (d), (o), (s), (x), and (y).

i. Collaborates with GC on the requirements of supported and supporting organizations through MOAs, MOUs, and other agreements as applicable to NGA core sites IAW Reference (d).

j. Expedites budget and emergency evacuation documentation for emergency evacuations of NGA employees and their families IAW Reference (x).

k. Collaborates with ~~Directorate Component Heads and Agency Element Leads~~, D/CIO-T, and ACC on any alternate facilities or workspaces that have requirements for IT hardware,

networks, and software to continue operations, should normal operating facilities become unavailable.

I. Coordinates and collaborates with C/NOC MA in the scheduling and conducting of external NGA MA assessments (e.g., Joint ~~Mission Assurance~~ MA Assessments and Balanced Survivability Assessments).

~~23~~ 21. D/CIO-T.

a. Oversees the execution of the NGA ITCPP in support of the MEF, EFs, Fs, ESAs, and SAs through the development of ISCPs and amalgamated facility-based DRPs within the NGA CPT that support response, recovery, and reconstitution of consolidated IT data centers, information systems, transport methods, operating systems, applications, data, and virtual environments IAW References (d), (h) through (p), (r) through (u), and (ah).

b. Assigns the Senior IT Continuity Advisor to oversee the CIO-T Continuity and Recovery effort.

c. Assigns and trains ITMWOs to serve the NOC Core Leadership Team.

d. ~~Assigns and trains the Chief, Enterprise Service Center (ESC) to tTracks~~ and provides NGA systems status updates and coordinates authorized outages with ~~the~~ D/NOC during authorization and implementation phases to minimize mission impacts.

e. Maintains and reports the status of IT systems and network availability as it pertains to NGA's ability to continue its MEF.

f. Collaborates with D/OCS to ensure IT resilience requirements for primary and backup infrastructure systems and services are explicitly stated in all IT contracts for survival, continuity, recovery, and reconstitution of the MEF, EFs, Fs, ESAs, and SAs IAW References (d), (s), (u), and (aj).

g. Issues, maintains, accounts for, and provides training for crisis communications devices (CCDs) to key individuals and those performing emergency functions. This may include Government Emergency Telecommunications Service (GETS), Wireless Priority Service (WPS) capabilities, and Iridium satellite phones IAW References (c) and (aj).

h. Ensures that NGA personnel can access unclassified IT services during a continuity event and annually tests telework capabilities, including IT infrastructure, required to support telework options during a continuity event IAW References (d) and (aj).

i. Works with ~~Directorates and Agency Elements~~ Components to determine NGA CCD requirements and eligible users IAW Reference (c).

(1) Manages, processes, and performs necessary tasks to issue, collect, turn in, redistribute, or request CCDs.

(2) Maintains inventory rosters for all CCDs issued to NGA personnel.

(3) Supports NGA CCD tests to ensure the functionality and usability of each device.

(4) Provides funds for costs associated with the purchase of CCDs. GETS and WPS cards are provided at no cost to ~~Directorate Component Heads and Agency Element Leads~~; however, there may be additional costs to purchase phones from the NGA Personal IT Device Office.

j. Makes ~~risk management~~ RM and funding decisions to resource, plan, and prepare for the resilience, continuity, recovery, and reconstitution of NGA's IT data centers, systems, applications, data, and virtual environments when faced with UDEs IAW References (d), (s), and (u).

k. Leads the development of an enterprise-wide data backup, storage, and recovery strategy to ensure the integrity, confidentiality, and availability of critical information resources so IT systems that create, process, store, and transport classified or sensitive but unclassified information and data are protected and backed up ~~in accordance with IAW~~ IC and DoD policy IAW References (h) through (p), (r) through (u), and (aj).

l. Collaborates with ACC, ~~Directorate Component Heads and Agency Element Leads~~, and D/SI on any alternate facilities or workspaces that have requirements for IT hardware, networks, and software to continue operations, should normal operating facilities become unavailable.

m. Advises ~~Directorate Component Heads and Agency Element Leads~~ in making IT continuity decisions.

n. Ensures completeness of Enterprise Transition Activity Plans (ETAP) including required actions for take-down and restart of all systems with associated ISCPs.

o. Assists in coordinating site-level ETAPs for major data centers and field sites with significant NGA machine presence. (Reference (al))

~~24-22~~. CISO.

a. Collaborates with C/NOC MA regarding cybersecurity activities, including but not limited to risk acceptance and mitigation.

b. Responsible for cybersecurity controls, risk mitigation measures, and approving Systems Security Plans.

c. Coordinates with Chief, ~~Defensive Cyber Operations~~ Cyber Security Operations Cell (CSOC) and ~~Chief, Enterprise Service Center (C/ESC)~~ to ensure ~~defense~~ defensive cybersecurity operations are integrated into ~~continuity of operations~~ COOP planning.

~~25~~ 23. Chief, CSOC.

a. Coordinates with CISO and C/ESC to ensure defensive cybersecurity operations are integrated into ~~continuity-of-operations~~ COOP planning.

b. Ensure alternate sites include defensive cyber operations tools and capabilities for ensuring the defense of NGA equities during contingency operations.

~~26~~ 24. Chief, IT Continuity and Recovery Branch.

a. Serves as the Senior IT Continuity Advisor to D/CIO-T.

b. Oversees the CIO-T Continuity and Recovery effort.

c. Serves as NGA's IT Continuity Manager and point of contact for CIO-T continuity policy, programs, and plans.

d. Serves as the NGA ITCPP point of contact for IT contingency policies, programs, and plans in support of the MEF, EFs, Fs, ESAs, and SAs through the development of ISCPs and amalgamated facility-based DRPs and restoration plans IAW References (d), (h) through (p), (r) through (u), and (ah).

e. Supports the response, recovery, and reconstitution of consolidated IT data centers, information systems, transport methods, operating systems, applications, data, and virtual environments.

f. Plans and conducts annual TT&E of CIO-T EFs, Fs, ESAs, SAs, and all NGA ISCPs, including IT infrastructure and support services and functions IAW References (d), (g), (o), (r), (u), and (aj).

g. Collaborates with Authorizing Officials (AOs) and Delegated Authorizing Officials (DAOs) to ensure ISCPs are approved for all systems before granting authorization to operate IAW References (h) through (m), (u), and (aj).

h. Coordinates with ISOs to meet annual ISCP TT&E requirements, submitting the appropriate exercise completion forms, and creating After Action Reports (AARs) and corrective action plans to address any identified planning deficiencies.

i. Establishes and develops DRPs in coordination with appropriate ~~Directorates and Agency Elements~~ Components to ensure the restoration of IT infrastructure and support services.

j. Provides compliance metrics of the NGA ITCPP in support of the MEF.

k. Coordinates with ISOs, Infrastructure Service Providers, and Application Service Providers to develop, implement, and maintain ISCPs for all IT systems IAW References (h) through (m).

l. Collaborates with C/NOC MA on the status of the NGA ITCPP to ensure compliance and accuracy of program metrics and measures.

m. Coordinates ISCPs with the C/NOC MA.

n. Collaborates with C/NOC MA on RTC assignment and ensures systems support mission requirements or document risk acceptance or mitigation if RTC is not properly aligned with enabled missions. Documents risk acceptance or mitigation in NROM System. Registration of IT risks and engaging advocacy and support for risk elimination, mitigation, or transfer.

o. Coordinates with ISOs; C/NOC MA; and Chief, Cyber Security Office ~~Risk Management~~ RM Division to identify which specific NGA EF, F, ESA, and SAs the information system support.

p. Coordinates with ISOs to conduct real-word training and testing of ISCPs.

~~27~~ 25. Chief, Cyber Security Office ~~Risk Management~~ RM Division.

a. Coordinates with ISOs; C/NOC MA; and the Chief, IT Continuity and Recovery Branch to identify which specific NGA EF, F, ESA, and SAs each information system supports.

b. Evaluates each system's RTC capabilities against the EF, F, ESA, SA, and RTO requirements. Determines potential risks using gap analysis between mission requirement and program capability identifying and prioritizing risk, as well as providing appropriate risk mitigation measures and controls to address identified risk IAW References (h) through (m), and (u).

c. Ensure ISCPs are approved for all systems before granting authorization to operate IAW References (h) through (m), (u), and (aj).

~~28-26. Chief, C/ESC:~~

~~a. Tracks and provides NGA systems status updates and coordinates authorized outages with the NOC to minimize mission impacts.~~

~~b. C~~coordinates with CISO and Chief, CSOC to ensure ~~defense~~ defensive cybersecurity operations are integrated into ~~continuity of operations~~ COOP planning.

~~29-27.~~ Infrastructure Service Providers coordinate with the Chief, IT Continuity and Recovery Branch; ISOs; and Application Service Providers to develop, implement, and maintain ISCPs for all IT systems IAW References (h) through (m).

~~30~~ 28. Application Service Providers coordinate with the Chief, IT Continuity and Recovery Branch; ISOs; and Infrastructure Service Providers to develop, implement, and maintain ISCPs for all IT systems IAW References (h) through (m).

~~31~~ 29. AOs and DAOs.

a. Ensure ISCPs are approved for all systems undergoing Assessment and Authorization before granting Authorization to Operate IAW References (h) through (m), (u), and (aj).

b. Ensure each system identifies and properly implements appropriate cybersecurity controls and risk mitigation measures to facilitate IT availability/resilience IAW References (h) through (m), (u), and (aj).

c. Ensure all information systems have an approved System Security Plan in place and are compliant with applicable architecture and resilience policy IAW References (h) through (m), (u), and (ak).

d. Collaborate with the Chief, ~~Information Technology~~ IT Continuity and Recovery Branch to ensure ISCPs are approved for all systems before granting authorization to operate IAW References (h) through (m), (u), and (aj).

~~32-30. Directorate Component Heads and Agency Element Leads.~~

a. Present prioritized decision options to the EXCOM to resource, plan, and prepare for the survival, continuity, recovery, and reconstitution of all ~~Directorate or Agency Element Component~~ EFs, Fs, ESAs, and SAs that enable NGA's MEF IAW Reference (d).

b. Participate in NGA's ~~risk management~~ RM efforts and incorporate resilience planning into organizational strategic and implementation planning to reduce mission risk.

c. Ensure implementation of this Instruction within the ~~Directorate or Agency Element Component~~ and incorporate continuity requirements into daily operations IAW References (d), (g), (r), and (t).

(1) Establish a program to manage the day-to-day operation of the ~~Directorate or Agency Element Component~~ COOP program including evaluating plans for risk; prioritizing recovery of EFs, Fs, ESAs, and SAs; and applying appropriate mitigation actions to ensure the continuation of the MEF(s).

(2) Identify and designate, in writing, ~~Directorate or Agency Element Component~~ BC Lead Planners.

(3) Provide BC Lead Planners with the authority to effectively direct day-to-day continuity planning and ~~risk management~~ RM efforts.

(4) Appoint, in writing, a Primary and Alternate Lead BC Planner at NCE and NCW at the ~~Directorate or Agency Element Component~~ level, annually, or when changes occur. The signed letter will be placed in the Senior Leader Battle Book, the CPT, and emailed to ~~Mission Assurance~~ MA Readiness and Preparedness Team.

(5) Ensure development and maintenance of BCPs that address a disruption of mission support operations at any of the NGA or mission partner facilities from which the ~~Directorate or Agency Element Component~~ provides support IAW References (d), (g), and (r).

(6) Direct ~~Directorate or Agency Element Component~~ level exercises at least once annually of BCPs for EFs, Fs, ESAs, and SAs deemed critical to supporting continuation of

the NGA MEF during a contingency to prepare for all-hazards continuity emergencies/disasters, identify deficiencies, and demonstrate viability of the COOP program and continuity plans IAW References (d), (g), (h), (o), and (r).

d. Conduct annual self-assessments of continuity readiness that include a review/validation of EFs, Fs, ESAs, SAs, and BCPs to ensure organizational changes are documented, continuity plans/data are current, and gaps between enabling IT recovery capabilities and EF/F RTO requirements are identified IAW References (c) and (d).

e. Ensure all CPT data is kept current with any major change updated within 30 days.

f. Implement PA using approved methods during continuity events. Ensure timely delivery of PA data and results, and report all incidents involving an employee's death, serious injury, illness, or unexplained absence to the NOC Watch immediately IAW Reference (y).

g. Implement continuity plans when directed or as necessary.

h. Provide CCD requirements and eligible users to CIO-T. Ensure GETS, WPS, and Iridium satellite phone tests are conducted at least quarterly by users to ensure each device is functional and usable IAW Reference (c).

i. Ensure mandatory BC/DR training is completed annually for all personnel IAW Reference (d).

j. Support the C/NOC MA with defense critical infrastructure program activities, including development and review of the NGA task critical asset list IAW Reference (t).

k. Review monthly continuity readiness metrics program reports within the CPT and ensure metrics comply with performance standards.

l. Work with HD to ensure that all positions and personnel who are essential to continuing NGA's MEF are appropriately identified; entered into NGA's PeopleSoft database; are aware that they have been identified as mission-critical, emergency, or emergency-essential personnel; and are required to be available for recall in the event of a contingency and/or COOP event IAW Reference (d).

m. Meet with primary and alternate appointed ~~Directorate or Agency Element Component~~ BC Lead Planner annually to discuss the over-all health of their Continuity Program to include a review of EFs, single points of failure, mission risks, essential records, identification of non-essential and essential personnel, workforce communications capabilities, and staff augmentation requirements.

n. Collaborate with C/NOC MA and their respective BC Lead Planners to ensure essential records are identified and available at planned alternate facilities IAW Reference (ae).

o. Works with EXCOM and the CFE to recommend realignment of funds to support contingency requirements in support of resilience planning and response, recovery, and reconstitution operations IAW Reference (d) and (ai).

p. Responsible for the cost to procure new Iridium satellite phones through the secure voice and video office.

q. In coordination with the C/NOC MA, D/SI, EXCOM, and ~~Directorate and Agency Element Component~~ BC Lead Planners, help identify alternate facilities and work spaces based on requirements. Planning should consider scenarios that include relocation from any facility at which the ~~Directorate Component Heads and Agency Element Leads~~ work/provide support.

~~33-31. Directorate and Agency Element Component~~ BC Lead Planners.

a. Support the development and management of the day-to-day operation of the ~~Directorate or Agency Element Component~~ continuity program, ensuring timely, effective, and efficient response, recovery, and reconstitution of ~~Directorate or Agency Element Component~~ EFs, Fs, ESAs, and SAs that enable the MEF following a disruption.

b. Lead and coordinate development of ~~Directorate and Agency Element Component~~ EF, F, ESA, and SA BCPs that enable the MEF following a disruption.

(1) Identify, document, and establish recovery priorities for all ~~Directorate or Agency Element Component~~ EFs, Fs, ESAs, and SAs performed at each NGA or mission partner facility within the NGA CPT.

(2) Develop and maintain BCPs that address continuity of ~~Directorate or Agency Element Component~~ EFs, Fs, ESAs, and SAs within the NGA CPT IAW References (d), (g), (h) through (p), (r) through (u), and (y).

(3) Ensure the appropriate identification and documentation of ISCPs within the BCPs that support the continuity of ~~Directorate or Agency Element Component~~ EFs, Fs, ESAs, and SAs within the NGA CPT IAW References (d), (g), and (h) through (p), and (r) through (u), and (y).

(4) Coordinate with the ISOs to ensure the system RTC supports associated BCP RTO; document risk acceptance or mitigation of the RTC is not properly aligned with enabled missions. Document risk acceptance or mitigation in the CPT.

(5) Address the four continuity plan operational phases (Readiness and Preparedness, Activation, Continuity Operations, and Reconstitution) for each BCP. Provide step-by-step direction that enables response to a disruption of ~~Directorate or Agency Element Component~~ EFs and Fs to ensure continuation of the MEF. If a business process is shared among two or more ~~Directorate Component Heads or Agency Element Leads~~, one ~~Directorate or Agency Element Component~~ assumes primary responsibility and creates the shared BC procedure(s), roles, and responsibilities IAW References (d) and (y).

(6) Ensure lists of key personnel, their responsibilities, and procedures for recovering ~~Directorate or Agency Element Component~~ EFs, Fs, ESAs, and SAs following a natural or man-made disruption are included in the continuity plans. The NGA COOP Plan, ~~Directorate~~

~~or Agency Element Component~~ BCPs, ISCPs, and other available plans may be referenced or included as needed (e.g., pandemic influenza and infectious disease, devolution, and crisis communications plans) IAW References (d) and (al).

(7) In coordination with D/SI, C/NOC MA, EXCOM, and ~~Directorate Component Heads and Agency Element Leads~~, help identify alternate facilities and work spaces based on requirements. Planning should consider scenarios that include relocation from any facility at which the ~~Directorate Component Heads and Agency Element Leads~~ work/provide support.

(8) Collaborates with C/NOC MA and their respective ~~Directorate Component Head or Agency Element Lead~~ to ensure essential records are identified and available at planned alternate facilities IAW Reference (ae).

(9) Coordinate with CIO-T to ensure all essential records are identified and available at planned alternate facilities.

(10) Establish, promulgate, and maintain orders of succession for key positions including an out-of-area successor to enable the sustainment of EFs, Fs, ESAs, and SAs that support the MEF for an extended period.

(11) Address and plan for the identification and movement of personnel during a prolonged continuity event. Develop, maintain, and include ~~Directorate or Agency Element Component~~ personnel deployment and relocation plans. Take into account alternate facilities workspaces for personnel; the timing of personnel movement, work schedules, skill sets required to support mission operations; and the IT systems and applications required to support personnel.

(12) When developing BCPs, support NGA ~~risk management~~ RM and business impact analysis efforts by considering D/SI site risk assessment findings, external audit assessment findings (e.g., Defense Threat Reduction Agency NGA Balanced Survivability Assessment), and specific risks to mission execution IAW References (d), (g), (o), and (r).

(13) Develop a communications plan to alert, inform, and instruct personnel in the event of a disaster/contingency situation.

c. Facilitate and coordinate TT&E activities. Update and maintain ~~Directorate and Agency Element Component~~ continuity plans at least annually or when key personnel, equipment, or procedures change. Ensure corrective actions are documented in exercise and actual event AARs. Ensure lessons learned and capability gaps are documented, assessed, and tracked to completion within Plan of Action and Milestones (POA&M) IAW References (c), (d), (o), (s), and (af).

(1) Ensure TT&E activities are coordinated with SI, the NOC, and other internal and external mission partners (as applicable) that ~~Directorate or Agency Element Component~~ EFs/Fs work with.

(2) Ensure participation of leadership and staff to guarantee comprehensive and successful exercise of continuity plans.

d. Perform annual testing of alert, notification, and activation procedures for continuity and devolution personnel and quarterly testing of procedures for personnel who may lead continuity events IAW References (d) and (s).

e. Lead and document CCD testing to ensure each device is functional and usable. At least quarterly, or as a necessary readiness measure (before planned events and heightened states of readiness), conduct a GETS, WPS, and Iridium satellite phone test for users. Provide results to the ACC and report equipment inoperability issues to the ESC IAW Reference (c).

f. Support maintenance of the NGA continuity readiness metrics program. Conduct monthly reviews of ~~Directorate or Agency Element Component~~ BC/DR metrics and supporting documentation for currency and accuracy; provide required data to NOC MA via the CPT regarding metrics compliance and readiness.

g. Support NGA COOP program assessments as required (e.g., coordination, documentation, subject matter experts, etc.) IAW References (c) and (d).

h. Meet with ~~Directorate Component~~ Heads ~~and Agency Element Leads~~ annually to discuss the over-all health of their Continuity Program to include a review of EFs, single points of failure, mission risk, essential records, identification of non-essential and essential personnel, workforce communications capabilities, and staff augmentation requirements.

34 32. ISOs.

a. Support the ~~Directorate and Agency Element Component~~ BC Lead Planners and IT Program Management offices to ensure timely, effective, and efficient restoration of IT systems that enable NGA's MEF following a disruption. (Reference (d))

b. Coordinate with Chief, IT Continuity and Recovery Branch, Infrastructure Service Providers, and Application Service Providers to develop, implement, and maintain ISCPs for all IT systems IAW References (h) through (m).

(1) Ensure ISCPs are written to the appropriate System Security Categorization IAW References (h) through (m).

(2) Ensure lists of key personnel, responsibilities, and procedures for restoring IT systems following a natural or man-made disruption are included in ISCPs IAW References (d), (s), and (u).

(3) Coordinate with Chief, IT Continuity and Recovery Branch, C/NOC MA and the Chief, Cyber Security Office ~~Risk Management~~ RM Division to identify which specific NGA EF, F, ESA, and SAs the information system supports. Evaluate the system's RTC capabilities against the EF, F, ESA, SA, and RTO requirements. Determine potential risks using gap analysis between mission requirement and program capability identifying and prioritizing risk, as well as providing appropriate risk mitigation measures and controls to address identified risk IAW References (h) through (m), and (u).

(4) Document and maintain ISCPs in the CPT to provide enterprise-wide access and comply with continuity readiness metrics.

(5) Identify security protection requirements and ensure systems are designed to employ resilient failover and defense-in-depth for all cybersecurity capabilities and tools.

c. Facilitate and coordinate the TT&E and update/maintenance of ~~Directorate or Agency Element Component~~ ISCPs annually (at minimum), or as key personnel, equipment, or procedures change. Document corrective actions in exercise AARs. Ensure lessons learned and capability gaps are documented, assessed, and tracked to completion within POA&Ms. Modify ISCPs based upon corrective action plans and/or continuity best practices IAW References (c), (d), and (o).

d. Support and participate in NGA continuity TT&E and coordinate with the Chief, IT Continuity and Recovery Branch to conduct real-world training and testing of ISCPs. Report TT&E results and provide test and exercise validation forms to the Chief, IT Continuity and Recovery Branch for review and documentation IAW References (c), (d), (g), (o), and (s).

e. Support the development, maintenance, and execution of ~~Directorate and Agency Element Component~~ continuity plans.

f. Coordinate with Chief, IT Continuity and Recovery Branch to meet annual ISCP TT&E requirements, submitting the appropriate exercise completion forms, and creating AARs and corrective action plans to address any identified planning deficiencies.

g. Coordinate with ~~Directorate and Agency Element Component~~ BC Lead Planners to ensure the system RTC supports associated BCP RTO; document risk acceptance or mitigation of the RTC is not properly aligned with enabled missions. Document risk acceptance or mitigation in the CPT.

~~35~~ 33. Chiefs, NGA Support Teams.

a. Document and maintain continuity requirements with the supported and host organization using MOA, MOU, Service Level Agreement (SLA), or ~~US Treasury Fiscal Service (FS)~~ 7600A Interagency Agreement (IAA).

b. Submit MOA, MOU, SLA, or FS 7600A IAA documents to GC for review and tracking in the NGA corporate support agreements database.

c. Participate in supported and host organization and ~~Directorate or Agency Element Component~~ continuity program TT&E efforts.

d. If relocated due to a continuity event, report status and new contact information to the NOC Watch within four hours, or as soon as possible.

GLOSSARY

Activation	The implementation of a continuity plan, in whole or in part. (Reference (d))
After Action Reports (AAR)	A summary report that identifies key observations and how to correct deficiencies, sustain strengths, and focus on performance of specific mission essential tasks. Also called AAR. (References (aa) and (aj))
Agency Continuity Coordinator (ACC)	Senior official responsible to the Head of the DoD Component for management oversight of the Component Continuity Program; the single point of contact for coordination within the Component for continuity matters. (Reference (o))
Agency Element	Organizations within NGA that are not classified as Directorates (e.g., Career Services, Corporate Analysis and Program Evaluation, etc.). (Definition created by NGA for NGA purposes only)
Authorizing Official (AO)	A senior (federal) official or executive with the authority to formally assume responsibility for operating an information system at an acceptable level of risk to organizational operations (including mission, functions, image, or reputation), organizational assets, individuals, other organizations, and the Nation. (Reference (m))
Business Continuity Plan (BCP)	The documentation of a predetermined set of instructions or procedures that describe how an organization's mission/business process will be sustained during and after a significant disruption. (Reference (l))
Business Impact Analysis	A method of identifying the consequences of failing to perform a function or requirement. (Reference (d))
Business Process Analysis	A method of examining, identifying, and mapping the functional processes, workflows, activities, personnel expertise, systems, data, interdependencies and alternate locations inherent in the execution of a function or requirement. (Reference (d))
Continuity of Government Condition (COGCON)	The COGCON system establishes executive continuity program readiness levels, focusing on emergencies in or credible threats to the National Capital Region, or affecting the performance of National EFs NEFS . (Reference (d))
Continuity Planning Tool (CPT)	NGA's automated repository of all NGA BCPs and ISCPs. (Definition created by NGA for NGA purposes only.)

Delegated Authorizing Official (DAO)	Appointed by the AO to expedite authorization decisions for designated systems, and provide mission support. (Reference (h))
Devolution	The transfer of statutory authority and responsibility from an organization's primary operating staff and facilities to other staff and alternate locations to sustain essential functions EFs when necessary. (Reference (d))
Disaster Recovery Plan (DRP)	The document that defines the personnel, resources, actions, tasks, and data required to manage the business recovery process of an Application Service Provide (ASP) or Infrastructure Service Provider (ISP) , in the event of a business interruption. The plan is designed to assist in restoring business processes within stated disaster recovery goals. (Reference (a) Definition created by NGA for NGA purposes only.)
Emergency-Essential Personnel	Type 1 – Deployable-A civilian position in which the employee is identified by the NST Chief as deployable to provide information and continuing support for combat operations/crisis situations. If a person with military recall status is selected for this type of Emergency Essential position, they must receive a waiver of non-availability from military mobilization. Type 2 – Remain During Crisis – A civilian position in which the employee is identified by the NST Chief to remain in place after the evacuation of others during an emergency or crisis. (Definition created by NGA for NGA purposes only.)
Emergency Family Assistance Center	A multi-disciplinary organization that serves as a central point of information and support for families following a mass casualty event. (Definition created by NGA for NGA purposes only.)
Emergency Personnel	One who is expected to report or remain at work in a dismissal or closure situation unless otherwise directed by NGA management officials. (Definition created by NGA for NGA purposes only.)
Essential Function (EF)	A subset of government functions that are determined to be critical activities, in the event of a crisis, must be continuous or resumed quickly in order to ensure execution of NGA's Mission Essential Function. These functions are then used to identify supporting tasks and resources that must be included in the organization's continuity planning process. In Reference (d), the term "essential functions" refers to those functions an organization must continue in a continuity situation, whether the functions are MEFs, Primary MEFs, or ESAs designated, within the Continuity Planning Tool, could directly support Tasking, Collection, Production, Exploitation, Dissemination, or Command and Control activities, and have a

~~Recovery Time Objective (RTO) of 24 hours or less.~~ (Reference (ai d))

Essential Records	Information systems and applications, electronic and hardcopy documents, references, and records needed to support essential functions EFs during a continuity event. The two basic categories of essential records are emergency operating records and rights and interest records. Emergency operating records are essential to the continued functioning or reconstitution of an organization. Rights and interest records are critical to carrying out an organization's essential legal and financial functions and vital to the protection of the legal and financial rights of individuals who are directly affected by that organization's activities. The term "vital records" refers to a specific sub-set of essential records relating to birth, death, and marriage documents. (Reference (d))
Essential Support Activity (ESA)	Critical functions that an organization must continue during a continuity activation, but that do not meet the threshold for MEFs or Primary Mission Essential Functions MEFs (PMEFs). (Reference (d))
Executive Committee (EXCOM)	Consists of the Director, the Deputy Director, the Chief of Staff, the Associate Director for Operations, and the Associate Director for Capabilities, the Associate Director for Support and the Associate Director for Enterprise. (Definition created by NGA for NGA purposes only.)
Functions (F)	Activities necessary for execution of Agency operations; these activities include all operational, administrative, and support activities executed by Key Components. A subset of these functions are designated as essential due to the fact that they must be continuous or resumed quickly in the event of a disruption Supporting functions or capabilities necessary to ensure the continued performance of essential functions. (Reference (ai)(d))
Government Emergency Telecommunications Service (GETS)	Provides key personnel priority access and prioritized processing in the local and long distance segments of landline networks, greatly increasing the probability of call completion. (Definition created by NGA for NGA purposes only.)
Information System	A discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. (References (l) and (m))
Information System Contingency Plan (ISCP)	Management policy and procedures designed to maintain or restore business operations, including computer operations, possibly at an alternate location, in the event of emergencies, system failures, or disaster. (Reference (l))

Information Technology Contingency Planning Program (ITCPP)	An NGA program that supports the sustainment and recovery of MEFs, EFs, Fs, ESAs, and SAs through the development of ISCPs and amalgamated facility-based DRPs and restoration plans within the NGA CPT that support response, recovery, and reconstitution of consolidated IT data centers, information systems, transport methods, operating systems, applications, data, and virtual environments. (Definition created by NGA for NGA purposes only.)
Joint Risk Working Group	The Joint Risk Working Group facilitates the implementation and execution of Joint Risk Management Process between NGA, the National Reconnaissance Office/Information Management and Technology, and NSA in accordance with the Joint Systems Engineering Process Manual to provide management visibility into joint risks and issues and to support the management decision process. (Definition created by NGA for NGA purposes only.)
Mission Assurance (MA)	A process to protect or ensure the continued function and resilience of capabilities and assets, including personnel, equipment, facilities, networks, information and information systems, infrastructure, and supply chains, critical to the execution of DoD mission-essential functions MEFs in any operating environment or condition. (Reference (p))
Mission Assurance Officer	An Agency Senior Officer designated as the MA lead who has the necessary security clearance and authority for addressing security, protection, and risk-management issues relating to MA, MEF accomplishment, and resiliency. The functions of the MA Officer, by DoD Regulation, are assigned to the Agency Director unless the Agency Director delegates the responsibility. (Definition created by NGA for NGA purposes only.)
Mission-Critical Personnel	One who is expected to remain in contact with NGA at all times during dismissal or closure situations, emergencies or crises involving national security, and/or other disruptive events that cause interruption to normal business, and who may be required to work at regular or alternate worksite during such events. This includes employees who are essential to continuity operations. (Definition created by NGA for NGA purposes only.)
Mission Essential Function (MEF)	The essential functions EF directly related to accomplishing an organization's mission as set forth in statutory or executive charter. Generally, MEFs are unique to each organization. (Reference (d))
Plan of Action and Milestones (POA&M)	A document that identifies tasks needing to be accomplished. It details resources required to accomplish the elements of the plan, any milestones in meeting the tasks, and scheduled completion dates for the milestones. (Reference (k))

Reconstitution	The process by which surviving and/or replacement organization personnel resume normal operations. (Reference (d))
Recovery	The implementation of prioritized actions required to return an organization's processes and support functions to operational stability following a change to normal operations. (Reference (d))
Recovery Time Capability (RTC)	The demonstrated length of time in which a function or information system's components can be recovered, during an exercise or actual event, at the designated recovery and alternate location (physical or virtual). (Definition created by NGA for NGA purposes only.)
Recovery Time Objective (RTO)	A value describing the maximum amount of time that a resource requirement or critical asset can be unavailable before it has a failure impact on essential functions EFs. (Reference (e))
Resilience	The ability to prepare for and adapt to changing conditions and recover rapidly from operational disruptions. Resilience includes the ability to withstand and recover from deliberate attacks, accidents, or naturally occurring threats or incidents. (Reference (d))
Response	Operational and logistical disaster reaction needed to save and sustain lives, minimize suffering, and protect property in a timely and effective manner. (Definition created by NGA for NGA purposes only.)
Risk Management (RM)	The process of identifying, analyzing, assessing, and communicating risk and accepting, avoiding, transferring, or controlling it to an acceptable level considering associated costs and benefits of any actions taken. (Reference (d))
Risk Mitigation	Prioritizing, evaluating, and implementing the appropriate risk-reducing controls/countermeasures recommended from the risk management RM process. A subset of Risk Response. (Reference (k))
Support Activity (SA)	Activities that do not meet the criteria to be considered an EF, F, or ESA. Those functions designated that indirectly support Agency mission operations, or administrative activities and have a recovery time objective RTO of greater than 12 hours. (Definition created by NGA for NGA purposes only.)
System Security Plan	Formal document that provides an overview of the security requirements for an information system and describes the security controls in place or planned for meeting those requirements. (Reference (m))

Task Critical Asset	An asset that is of such extraordinary importance that its incapacitation or destruction would have a serious, debilitating effect on the ability of one or more DoD Components or Office of the Secretary of Defense Components to execute the capability or mission essential task it supports. Task critical assets are used to identify defense critical assets. (References (p) and (t))
Vulnerability	Weakness in an information system, system security procedures, internal controls, or implementation that could be exploited by a threat source. (Reference (k))
Wireless Priority Service (WPS)	Provides key personnel priority access and prioritized processing in all nationwide and several regional cellular networks, greatly increasing the probability of call completion. (Definition created by NGA for NGA purposes only.)
