

Purchase Requirements

For the purchase of Ge optical substrates without a specialized coating (**CLIN 0001**) and with a specialized coating (**CLIN 0002**). The contractor must be able to provide both items and meet all requirements for both **CLIN 0001** and **CLIN 0002**. The samples must be delivered by the end of the fiscal year (09/30/26) and the company must **have demonstrated experience applying for and receiving an export license.**

CLIN 0001:

Optical Substrate: Germanium

Optical Coating: None

Technical Specs:

- F-number $N = 3$
- $\Delta N = 0.5$
- Surface quality: 80–50

Substrate Dimensions: 50.8 mm diameter, 3 mm thick

Substrate Quantity: 3

CLIN 0002:

Optical Substrate: Germanium

Optical Coating: Anti-reflective (AR) + Diamond-like coating (DLC)

Technical Specs before coating:

- F-number $N = 3$
- $\Delta N = 0.5$
- Surface quality: 80–50

Technical Specs after coating:

- Average transmittance $> 89\%$ @ 8–12 μm

Substrate Dimensions: 50.8 mm diameter, 3 mm thick

Substrate Quantity: 12
