

FS3i

IPF INC Notification Process

The overall classification of this presentation is: **UNCLASSIFIED**

Contents

- Updated INC Flow Chart
- Amended Process for Pri 1 (Critical) and Pri 2 (High) INC process
 - Creation of IPF Notification List
 - Frequency of INC updates and email notifications
 - Root Cause Analysis (RCA) and Lessons Learned (LL) Template

Notification & Updates after Pri 1 (Critical) and Pri 2 (High) INC logged

- When a Pri 1 or Pri 2 is logged (or a Pri 3 INC is raised in priority), immediate notification via high side email will be sent to key stakeholders in IPF
 - A list of stakeholders for each applicable system is listed on the FS3i SharePoint site (sample below for a subset of systems)
 - Responsibility falls to FS3i OPS Manager or delegate
 - FS3i PMO will identify any additional stakeholders

	Maritime DNC/ENC	Maritime TOD	Boundaries
PMO	Joe Minus	Joe Minus	Joe Minus
	Glen Neises	Glen Neises	Glen Neises
	John Grimes	John Grimes	John Grimes
	Len Pedowitz	Len Pedowitz	Len Pedowitz
	Major OB	Major OB	Captain Meoli
IPF GOV	Frank Chamberlain	Frank Chamberlain	Lloyd Weber
	Scott Reeves	Scott Reeves	#NGA SFGGB GOV
	Drusilla Morgan	Natalie Martin	
	Jenna Johnson	Kat Furry	
FGS-IOS	Tom Verna	Tom Verna	Tom Verna
	Scott Alcusky	Scott Alcusky	Scott Alcusky
	#NGA FGMOD Support	#NGA FGMOD Support	#NGA FGMOD Support
	Stacey Herring	Stacey Herring	Stacey Herring

- Email updates to the same distro list will continue to be sent out at minimum twice per day (AM update prior to the 0900 ET OPS Status meeting and PM update prior to 1800 ET)
 - Emails will also be sent out if there is a major update or change in status (at discretion of the FS3i OPS Manager or delegate)
- INCs will be updated in the “Notes” tab at minimum twice per day or as any major step is completed in the troubleshooting or resolution process
 - Stakeholders can receive these additional updates by clicking “follow” within the INC in Service+
- Updates will also be given at the 0900 Daily OPS Briefing

Root Cause Analysis/Lessons Learned Process and Template

- Once the INC is downgraded or closed, the FS3i OPS Team will hold an internal Root Cause Analysis (RCA) and Lessons Learned (LL) meeting
 - Root Cause Analysis – What happened and why?
 - Corrective Actions – What did we do to fix it?
 - Lessons Learned – How do we prevent it or resolve quicker in the future?
 - Opportunity for Improvement – Process/Documents updates?
 - Action Items – Who put the changes into place?
- RCA/LL Meeting will occur within 3 business days of INC downgrade or closure unless prevented by other events
- Notes will be sent to the same stakeholders originally notified of the INC
 - Action Items discussed in the RCA/LL will be assigned if needed
- The INC will also be added to a master list of Priority 1 and 2 INCs that will be created as part of this process
 - It will be found on the FS3i SharePoint site and will be separate from the full INC kept by the FS3i OPS Team
 - It will include INC number, brief description, date opened, date upgraded to Pri 1 or 2, date downgraded, date closed, and link to the RCA/LL Notes on SharePoint

Root Cause Analysis/Lessons Learned Template (Page 1 of 2)

STEPS	NOTES
ROOT CAUSE ANALYSIS	In this box, please describe the issue that occurred. If applicable, identify direct cause, but also latent causes as well. When was the issue noticed, by whom, and how long was it present on the IPF system in question?
CORRECTIVE ACTIONS	What did we do to resolve the issue? When was the issue resolved?

Root Cause Analysis/Lessons Learned Template (Page 2 of 2)

Lesson Learned	Opportunity For Improvement	Action Item and Assignee
Example 1: Not all critical drives on IPF systems are monitored by the OPS Team	Example 1: We can use our current tools, such as Grafana and Cloud Watch, to set up monitoring on drives that currently have little to no OPS Team insight	Example 1: - Action to Bill Denbrow to audit all drives and list ones not monitored - Action to Richie Tozier to add drive monitoring to Grafana and CloudWatch
Example 2: User profiles for FG MOD Maritime DNC get too big	Example 2: Document a process for cleaning up user profiles	Example 2: Action to Beverly Marsh to write the profile cleanup procedure and add it to the OPS repository on Confluence
