

United States Department of the Interior

INTERIOR BUSINESS CENTER

Washington, DC 20240

REQUEST FOR INFORMATION, CAPABILITIES, & SOURCES SOUGHT

Notice Number: DOIDFBO260033

Issue Date: March 11, 2026

Response Due Date: March 18, 2026

Issued by: This Request for Information (RFI) is being issued by the Department of the Interior (DOI), Interior Business Center (IBC) for the Air Force Wildland Fire Branch (AFWFB).

1. Purpose: This RFI is issued solely for information and planning purposes and shall not be construed as a solicitation, restrict the Government as to the ultimate acquisition approach, or serve as an obligation on the part of the Government. The RFI is for planning purposes only and is being used as a market research tool in accordance with FAR 10.002(b). This is NOT a solicitation. Proposals or quotes will not be accepted for this document. Responders are advised that the United States Government will not pay for any information or administrative costs incurred in response to this RFI. All costs associated with responding to this RFI will be solely at the interested responder's expense. Not responding to this RFI does not preclude participation in any future Request for Proposal, if any is issued. No evaluation letters and/or results will be issued to Responders responding to this RFI.

All potential sources with the capability to provide the requirements referenced in the attached draft Performance Work Statement (PWS) are invited to submit their contact information with their responses. IBC will create an interested parties list for this project. The Government is under no obligation to award a contract as a result of this announcement. No funds are available to pay for any information received from potential sources. Only electronic mail will be acceptable for submissions. No feedback or evaluations will be provided regarding any submission. The information resulting from this RFI will determine interest and capabilities available in the marketplace; and will assist in developing acquisition strategy.

2. Objective: The objective of this RFI is to identify potential vendors (large, small, and socioeconomic concerns) who have the experience and capabilities to successfully perform this work. The Government request any interested and capable source to provide a capability statement, feedback to the draft PWS, and to provide other helpful market research information. Vendors are also encouraged to provide information regarding plans to use joint venturing (JV) or partnering to meet the requirements areas contained herein. Details pertaining to the entire scope of work are contained in the attached Draft PWS.

A second objective is to engage industry to identify risks and opportunities, provide recommendations and other insights as it pertains to the acquisition and the work contemplated in the PWS and attachments.

3. Background: The primary mission of the Air Force's Wildland Fire Management Program is to conduct prescribed fire and mechanical fuel reduction for the purposes of ecosystem management and hazardous fuels reduction on all lands managed by the Air Force, on its installations located in all states and territories, in accordance with all Federal environmental laws and regulations, including the Sikes Act. As such, the AFWFB utilizes various vehicles and equipment on a daily basis that must be maintained and/or repaired when necessary. Thus, it is necessary to provide ongoing maintenance and repair services when required.

Ongoing maintenance and repair services include providing for the servicing, maintenance, and repair, including minor and major repairs (e.g. overhaul, modification, or refurbishing), of designated equipment, vehicles, and associated items currently being utilized at AFWFB Wildland Support Modules (WSMs).

4. Instructions and Response Guidelines:

A. Administrative Information: All respondents must provide a cover page that details the following information:

1. Business name, address, phone & email of individual for follow-up inquiries.
2. Indicate if you wish to be placed on the Interested Parties List.
3. UEI number or CAGE code
4. Your service NAICS classification(s)
5. Socio-economic designation
6. GSA Schedule Number (if available)

B. Capability Approach: Interested parties are requested to provide your capabilities detailing how you will be able to meet all the requirements outlined in the PWS based upon your experience performing under similar efforts.

1. Vendor's capability as it relates to the requirement as outlined in the draft PWS.
2. Description of recent and relevant experience. Experience must be of similar size and scope. Please provide examples or provide references of previously completed deliverables related to this requirement.
3. Provide Information relating to capabilities, novel ideas, industry best practices, industry capabilities to meet the needs of the Government's requirement as outlined in the draft PWS. Do not regurgitate the draft PWS objective and tasks, rather, outline company specific capabilities that match the work outlined in the draft PWS in order for the Government to make a fair capabilities determination.
4. Additionally, applicable information as it pertains to this announcement that could assist the Government in determining the contractor's capabilities as it relates to the requirement referenced herein.

IMPORTANT! The Government is considering multiple contract awards based on contractor location and ability to reasonably and responsively support the requirements at the geographically dispersed AFWFB WSMs. In your RFI response, list the AFWFB WSMs

locations and equipment types your company can potentially support. Please review the PWS attachments carefully when making your determination.

C. Statements and Questions for the Vendor: The Government seeks feedback and comments on the attached Draft PWS in general, with specific interest in written comments/feedback on the following considerations/sections:

1. Do you recommend a change in the deliverables?
2. What labor categories are relevant to these services?
3. What AFWFB WSMs locations and equipment types would be best suited to grouped under a single requirement?
4. Other recommendations and draft PWS comments the Government should consider.
5. The Government is contemplating Firm Fixed Price (FFP) and/or Labor Hour (LH) contract type. Please provide recommendations and information on industry best practices and standard contract types for the requirement.

Please provide responses to the questions within this RFI in MS Word as editable text. Supporting documents may be provided if they are in MS Word or Adobe PDF formats. There are no page limits.

E-mail: Send your responses directly to Scott Szczesniak at scott_szczesniak@ibc.doi.gov and Joelle Donovan at Joelle_donovan@ibc.doi.gov. Questions submitted by a method other than electronic mail will not be accepted or answered. Ensure that your e-mail response has “AFWFB Repair and Maintenance” in the subject line.
