*****The Technical Approach is limited to 65 pages*****

Factor IV - Past Performance

To demonstrate its past performance, the Offeror shall identify up to three (3) of its most relevant contracts performed within five (5) years of the solicitation issuance date. Those contracts must also reflect one (1) year of completed performance by the closing date of the solicitation. Offerors shall provide a detailed explanation demonstrating the relevance of the contracts to the requirements of the solicitation.

For purposes of this solicitation, a contract is defined as a single contract or a single task order placed under an ID/IQ contract, a Blanket Purchase Agreement (BPA), or a Federal Supply Schedule. **Offerors shall not submit the IDIQ contract, FSS contract, or BPA itself as a reference.** Offerors may submit a combination of no more than three (3) delivery orders (DOs), task orders (TOs), technical direction letters (TDLs), and/or technical area tasks (TATs) placed under an ID/IQ or BPA as one of the three examples of past performance. Such a combination must also meet the requirements stated above: each individual example in the combination must have been performed within five (5) years of the solicitation issuance date and demonstrate at least one (1) year of completed performance by the closing date of the solicitation. If a combination of DOs, TOs, TDLs and or TATs are used as a past performance example, the Offeror shall state the specific experience claimed, period of performance, and dollar value of each. A Past Performance example that does not provide the level of detail required may not be evaluated. No more than one combination of DOs, TOs, TDLs and or TATs is permitted in the past performance submittal. **One (1) year of completed performance is defined as twelve (12) consecutive months of performance. References with less than twelve (12) consecutive months of service will not be considered.**

If a proposed subcontractor's past performance is provided as part of the three (3) of its most relevant contracts or efforts, the percentage and type of work to be done by the subcontractor on the solicitation requirement must be stated. The Offeror's submittal shall also detail clearly the aspects of the work in the solicitation that the subcontractor is proposed to perform. A Past Performance example which does not detail clearly the aspects of the work in the solicitation that the subcontractor is proposed to perform may not be evaluated.

If the prime Offeror or intended subcontractor/partner submits a past performance example in which it served as a subcontractor, the prime/sub/partner shall detail clearly the work that it performed and the magnitude (dollar value) of that

subcontracted work only. A Past Performance example that does not differentiate between the overall contract effort and the subcontractor effort may not be evaluated.

The past performance of subcontractors who will be performing major or critical aspects of the solicitation will be considered as highly as a prime contractor's past performance.

Failure of Offerors to provide the required information and level of specificity may result in the contract reference not being evaluated.

With respect to joint ventures, the procuring activity will consider work done individually by each member of the joint venture as well as any work done by the joint venture itself previously. Joint venture references must meet the temporal requirements described in addendum FAR 52.212-1 (within five years and a year of completed performance). Additionally, if a joint venture member submits a past performance reference, the joint venture member shall detail clearly the work that it performed in that effort and the magnitude (dollar value) of that work. A reference that does not differentiate between the overall contract effort and the joint venture member's effort for that reference may not be evaluated. The past performance of a joint venture member who will be performing major or critical aspects of the solicitation will be considered as highly as the joint venture's past performance.

The references provided will be evaluated in the aggregate in order to allow Offerors who may not have the entire scope and magnitude of the requirement, under one individual contract, to still be considered relevant if past performance with the full scope of the requirement can be demonstrated within the allotted number of references as described above.

The Offeror shall complete a "Past Performance Information Form" for each reference submitted. The form is an attachment to the solicitation.

In addition to the information requested above, Offerors shall contact their past performance references and request that each reference complete the Past Performance Report Form attached to the solicitation and e-mail the completed survey form directly to **Jill Joscelyn at jill.h.joscelyn.civ@us.navy.mil and Joseph Frech at joseph.l.frech.civ@us.navy.mil by the DUE DATE OF THIS SOLICITATION.** The Government reserves the right to consider past performance report forms received after the due date of the solicitation and to contact references for verification or additional information.

*****The Past Performance submission is limited to 20 pages*****

Offerors (large and small businesses) **SHALL** provide a Small Business Participation Plan. Small Business Participation Plans shall address the following:

The travel and material/ODC amounts are provided in the solicitation as Not to Exceed (NTE) Cost Reimbursement CLINs and shall be used in the evaluation of the price proposal. Offerors shall insert the Government estimated travel and material/ODC plug numbers in their proposed price.
 - In addition, any applicable G&A and or overhead rate applicable in accordance with FAR Part 31 in their accounting system. Only G&A and or overhead indirect cost are allowable if an offerors accounting system automatically applies it, no profit or fee is allowed.
 - The offeror's failure to identify that additional indirect cost elements to be included shall result in those costs being deemed as mutually agreed upon as unallowable during the performance of the task order.
 - No profit or fee may be applied to the travel amount.

Note: If no G&A and / or overhead are proposed, it will be determined that the offeror does not intend on applying any applicable indirect costs to any travel required.

Offerors are responsible for submitting sufficient information to enable the Government to fully evaluate their price proposal. Alternate proposals are not authorized. Objections to any of the terms and conditions of the RFP will constitute a deficiency, which will make the offer unacceptable.
