

Real-Time Fuel Visibility support

9 March 2026

POP: 01 April 26- 30 June 26

PART 1

GENERAL INFORMATION

1. **GENERAL:** This requirement provides a temporary equipment capability supporting real-time fuel visibility for Brigade Combat Team, 3rd Infantry Division during the National Training Center (NTC) rotation. The capability includes contractor-provided fuel monitoring sensors, associated communications hardware, and a software-enabled monitoring interface. Contractor technical assistance provided under this requirement is incidental to the deployment and operation of the equipment capability.

1.1 **Description of Services/Introduction:** The contractor shall provide non-intrusive fuel monitoring sensors, associated communications hardware, and access to a monitoring interface that enables near real-time visibility of fuel levels across designated Government fuel assets supporting Brigade Combat Team during the NTC rotation.

The contractor shall perform deployment, configuration, and removal of the equipment capability and provide limited technical assistance required to ensure functionality during the training event.

1.2 **Background:** Fort Irwin & the National Training Center is a world class training center for America's Military, known for its excellent desert training, vast recreational opportunities, and history. The mission of the NTC is to provide tough, realistic, joint and combined arms training in multi-national venues across the full spectrum of conflict set in a contemporary operating environment to assist Commanders in developing trained, competent leaders and Soldiers by presenting them with current problem sets to improve the force and prepare for success in the Global War on Terrorism and future joint battlefields.

Large-scale training exercises at the National Training Center (NTC) require dispersed sustainment operations across extended distances under simulated contested conditions. Brigade-level fuel distribution and accountability are critical to maintaining operational tempo and sustaining combat power. Current fuel reporting processes rely heavily on manual reporting methods, which can create delays in fuel visibility across the formation.

Temporary installation of non-intrusive fuel level monitoring sensors will provide near real-time visibility of fuel levels on designated bulk fuel platforms, enabling improved sustainment awareness and more effective decision-making by sustainment leaders during the rotation.

1.3 **Objectives:** the objective of this contract is to provide a temporary fuel monitoring capability that enables near real-time visibility of fuel levels on designated bulk fuel assets during the NTC rotation.

1.4 **Scope:** The contractor shall provide fuel monitoring sensors, communications hardware, and associated monitoring capability for installation on up to sixty (60) designated bulk fuel assets.

The contractor shall perform deployment and removal of the equipment capability, along with limited technical assistance necessary to maintain system functionality during the training rotation for the following systems:

- M978 HEMTT Fuel Tankers
- MFS-TRM systems
- Other similar bulk fuel systems identified by the Government

The capability shall provide near real-time fuel level visibility through a commercially hosted monitoring platform accessible via a web-based interface.

The capability under this contract:

- Shall not permanently modify Government equipment
- Shall not connect directly to Army network infrastructure
- Shall not transfer operational control to the contractor
- Shall remain temporary and limited to the NTC training rotation

All equipment provided under this requirement remains contractor-owned and will be removed at the conclusion of the training event.

1.6 General Information

1.6.1 Quality Control Plan (QCP): The Contractor shall develop, implement, and maintain a QCP and program to ensure all work described in this contract is performed at or above the standard defined in the Performance Requirements Summary (PRS). The QCP is developed by the contractor for its internal use to ensure that it performs and delivers high-quality service. The contractor's QCP is the means by which the contractor ensures all work complies with the requirements of the contract. The QCP identifies and corrects potential and actual problem areas throughout the entire scope of the contract.

1.6.1.1 The contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services. The QCP shall be submitted within thirty (30) days of contract award. After acceptance of the QCP, the contractor shall receive the contracting officer's (KO) acceptance in writing of proposed changes to the QC procedures. The contractor shall submit QCP changes within five (5) days to the KO and Contracting Officer's Representative (COR) for review and approval prior to implementation.

1.6.1.2 The Quality Control Plan shall address as a minimum:

1.6.1.2.1 Inspection Program. Included shall be a quality control inspection program covering all general and specific tasks included in the contract scope of work. It shall specify tasks or areas to be inspected on a scheduled or unscheduled basis, the manner in which inspections are to be conducted, the titles of the individuals who will perform the inspections, and the percentage of the work that will be inspected on a recurring basis. In developing this inspection program, the Contractor shall identify the key activities and associated characteristics in each process that have a significant influence on specific services and provide for methods for evaluation of the selected characteristics.

1.6.1.2.2 Deficiency Identification. The QCP shall include a method of identifying deficiencies in the quality of services performed before the level of performance becomes unacceptable as defined in the PRS. This shall contain processes for corrective action without dependence upon Government direction.

1.6.1.2.3 Deficiency Correction. The program shall contain process control and process performance measurement procedures that shall include how the Contractor shall implement preventive corrective actions. The Contractor shall demonstrate that it has designed quality into the delivery of services thereby mitigating the risk(s) associated with delivery of deficient or nonconforming services.

1.6.1.2.4 Documentation and Enforcement. The QCP shall include a method of documenting and enforcing quality control operations of both prime contractor and subcontractor work; including inspection and testing.

1.6.1.2.5 Trend Analysis. The QCP shall include a method of performing trend analysis and assessments through the use of metrics.

1.6.1.2.6 Surveillance Methods. The QCP shall contain specific surveillance techniques for all contract services. The surveillance methods shall be comprehensive and adaptable to the reporting system of the plan.

1.6.2 Operations Security (OPSEC) SOP/Plan Requirements: The Contractor shall implement and maintain an OPSEC program for preventing the disclosure of critical information or sensitive information which could jeopardize the Government's ability to execute its mission or to adequately protect its personnel and/or equipment. The Contractor shall develop an OPSEC Standing Operating Procedure (SOP)/plan within 90 calendar days of contract award to the Contracting Officer Representative (COR) or Contracting Officer (KO) to be reviewed and approved by the Government OPSEC Officer on the supporting installation. The SOP must contain a training plan that includes an initial OPSEC brief, continuous awareness, and annual OPSEC training. Awareness/training includes, but not limited to information disclosure via letters, conversations, photographs, resumes, electronic mail (e-mail), Social media/networking sites, dissemination of information and documents disposal. OPSEC Program shall fully comply with the provisions of AR 530-1, Operations Security.

1.6.2 Quality Assurance (QA): The government shall evaluate the contractor's performance under this contract in accordance with (IAW) the Quality Assurance Surveillance Plan. This plan is primarily focused on what the Government must do to ensure that the contractor has performed IAW the performance standards and contract quality requirements are met. Contract quality requirements" means the technical requirements in the contract relating to the quality of the product or service and those contract clauses prescribing inspection, and other quality controls incumbent on the contractor, to ensure the product or service conforms to the contractual requirements. It defines how the performance standards will be applied, the frequency of surveillance, the performance threshold, and deductions, if applicable.

1.6.3 Recognized Holidays: The contractor is not required to perform services on any Federal holiday.

New Year's Day	Labor Day
Martin Luther King Jr.'s Birthday	Columbus Day
President's Day	Veteran's Day
Memorial Day	Thanksgiving Day
Independence Day	Christmas Day
Juneteenth	

1.6.4 Hours of Operation: The contractor shall coordinate installation and support activities with the Government during operational training timelines.

1.6.5 Place of Performance: The work to be performed under this contract will be performed at Ft. Irwin, CA and the National Training Center (NTC).

1.6.6 Type of Contract: The government will award a Firm-Fixed Price Contract in support of qualified requirements.

1.6.7 Access and General Protection Policy and Procedures:

1.6.7.1 FPCON: In addition to the changes otherwise authorized by the changes of clause of contract, should the US Government Force Protection Condition (FPCON) at any individual installation change, the Government may require changes in contractor security matters or process in accordance with DoDI 2000.16. During FPCONs Charlie and Delta, only contract services that have been deemed "mission essential" by the Government will continue. Contract services will resume when the FPCON is reduced to Bravo or lower.

1.6.7.1.1 HPCON: The contractor shall be responsible for adhering to the installation's Health Protection Condition (HPCON) guidance regarding the COVID-19 precautionary measures.

1.6.7.2 Physical Security: The contractor shall be responsible for safeguarding all government equipment, information, and property provided for contractor use. At the close of each work period, government facilities, equipment, and materials shall be secured IAW Army Regulation (AR) 190-13, "The Army Physical Security Program.

1.6.7.3 Escorts: The Contractor and all associated sub-contractor employees performing services under this contract shall be escorted at all times by host nation security personnel or by an individual designated by the Contracting Officer Representative (COR) while accessing U.S. facilities or activities.

1.6.7.4 Personnel Security Clearance Requirements:

1.6.7.4.1 The contractor shall follow DOD Federal Acquisition Regulation Supplement (DFARS) clause 252.223-7004, Drug-free Work Force. The contractor shall conduct drug tests, ensuring all top secret cleared contractor employees are tested at least once per year, each year of the contract, as well as when there is a reasonable suspicion that an employee uses illegal drugs. The drug testing shall be at the contractor's expense. Positive drug test results shall be made available to both the KO and COR within 24 hours of known test results. Records of drug testing shall be made available to the COR.

1.6.7.5 Background Checks: The Contractor shall ensure contractor employees and subcontractor employees performing services under this contract have passed a security check conducted by the State Police Department of their U.S. residence. Security checks that have been completed as part of a personnel security clearance background investigation, or a previous background check that was a condition of employment, meet this requirement. Documentation of these checks will be made available to the KO or COR upon request. The Government retains the right to exclude any employee from performance of duties under this contract if a background security check reveals an employee is a security risk. The exclusion of an employee for security reasons will not relieve the Contractor from performance of services required under this contract. If the Government determines additional background checks are required, at a minimum, and upon request from the Government, the Contractor shall provide to the KO or COR, the following information on any contractor or subcontractor employee performing services under this contract:

- Full birth name
- Married name (if applicable)
- SSN or local equivalent (ID card number)
- Date of birth
- Place of birth (city, country)

1.6.7.5.1 Background Check Notification Requirements: If a background check on any employee or subcontractor employee performing services under this contract, whether the check was conducted as a condition of employment or as part of the contract with the Government, reveals any information from any source (including host country law enforcement) of criminal activity by Contractor employees, subcontractors, or subcontractor employees, the Contractor shall **immediately** notify the KO and COR of that information. The Contractor shall make notification of:

(1) Traffic violations, other than parking, will be reported to the KO or COR only if the contract is for drivers for the Government;

(2) Any suspicious activity by Contractor employees, subcontractors, or subcontractor employees the Contractor believes may pose a risk to U.S. or host nation national security or imminent risk of deadly bodily harm to any person; and

(3) Any actions taken against Contractor employees, subcontractors, or subcontractor employees pursuant to this requirement.

1.6.7.5.2 Remedies. In addition to other remedies available to the Government, the Contractor's failure to comply with the requirements of this paragraph may result in requiring the Contractor to remove a Contractor employee or employees from the performance of the contract.

1.6.7.5.3 Subcontracts. The Contractor shall include the substance of this paragraph and the preceding paragraph in all subcontracts.

1.6.7.6 Uncleared Contractor Common Access Card (CAC) Credentialing and Access Procedures

1.6.7.6.1 Federal Installation/Facility Access: Contractor and all associated sub-contractor employees shall comply with applicable installation, facility and area commander installation/facility access and local security policies and procedures (provided by government representative). The employee performing services under this contract shall also provide all information required for background checks to meet installation access requirements to be accomplished by installation Provost Marshal Office, Director of Emergency Services, Security Office or the host nation equivalent.

1.6.7.6.2. Contractor Non CAC Eligible Requirements for DOD Facility and Installation Access: Contractor and all associated sub-contractors employees shall comply with adjudication standards and procedures using the National Crime Information Center Interstate Identification Index (NCIC-III) and Terrorist Screening Database (TSDB) (Army Directive 2014-05/AR 190-13), applicable installation, facility and area commander installation/facility access and local security policies and procedures (provided by government representative), or, at OCONUS locations, in accordance with status of forces agreements and other theater regulations.

1.6.7.7 Access to Government Information Systems: All Contractor employees and subcontractor employees performing services under this contract who have access to a government information system must be registered in the ATCTS (Army Training Certification Tracking System) at commencement of services and must successfully complete the DoD Information Assurance Awareness training prior to access to the information system and **then annually thereafter**.

1.6.7.8 Key Control:

1.6.7.9 Lock Combinations:

1.6.8 Post Award Conference/Contract Periodic Progress Meetings: The Contractor shall attend the post award conference convened by the contracting activity or contract administration office IAW Federal Acquisition Regulation (FAR) Subpart 42.5. The KO, COR, with other Government personnel, as appropriate, may meet periodically with the Contractor to review the Contractor's performance. At these meetings the KO will apprise the contractor of how the government views the Contractor's performance and the Contractor will apprise the Government of problems, if any, being experienced. Appropriate action shall be taken to resolve outstanding issues. These meetings shall be at no additional cost to the government.

1.6.9 Contracting Officer Representative (COR): The COR will be identified by separate letter. The COR monitors all technical aspects of the contract and assists in contract administration. The COR is authorized to perform the following functions: ensure the Contractor performs the technical requirements of the contract; perform inspections necessary in connection with contract performance; maintain written and oral communications with the Contractor concerning technical aspects of the contract; issue written interpretations of technical requirements, including Government drawings, designs, specifications; monitor Contractor's performance and notifies both the KO and Contractor of any deficiencies; coordinate availability of government furnished property; and provide site entry of Contractor personnel. A letter of designation issued to the COR, a copy of which is sent to the Contractor, states the responsibilities and limitations of the COR, especially with regard to changes in cost or price, estimates, or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting order.

1.6.10 Key Personnel: The following contractor personnel are considered key personnel by the government: Point of Contact (POC) and Alternate POC (APOC). The Contractor shall provide a Point of Contact (POC) at each location covered in this contract that shall be responsible for the competent performance of the work required under the specifications of this contract. The name and contact information of the POC and an alternate, who shall act for the contractor when the POC is absent, shall be designated in writing to the Contracting Officer (KO) and COR. The name and contact information for the POC for each location shall be provided to the KO and COR. The POC or alternate shall have full authority to act for the contractor on all contract matters relating to daily operation of this contract. Contractor shall furnish the COR a list of telephone numbers where the Contractor or his authorized representative may be contacted, between the hours of 0730 and 1530 Monday thru Friday except Federal holidays. The list shall be provided NLT 2 days prior to the start of the contract and as changes occur. The POC and Alternate POC shall be able to read, write, speak and understand English. The Contractor shall provide a contract manager who shall be responsible for the performance of the work. The name of this person and an alternate, who shall act for the Contractor when the manager is absent, shall be designated in writing to the Contracting Officer prior to start of contract performance. The Contract Manager and alternate shall have full authority to act for the contractor on all contract matters relating to daily operation of this contract.

Qualifications for all key personnel are listed below:

Supervision of Contractor Employees: The Government will not exercise any supervision or control over Contractor or subcontractor employees while performing work under the contract. Such employees shall be accountable solely to the Contractor, not the Government. The Contractor, in turn, shall be accountable to the Government for Contractor or subcontractor employees.

1.6.11 Special Qualifications or Certifications:

1.6.11.1 IA/IT Training Certification: All Contractor employees and subcontractor employees supporting IA/IT functions must be certified upon contract award as directed in DoD 8570.01-M, DFARS 252.239.7001, and AR 25-2. Baseline certification as stipulated in DoD 8570.01-M must be completed upon contract award.

1.6.12 Identification of Contractor Employees: Contractor employees shall identify themselves as Contractor personnel and shall avoid representing themselves as Government employees. This identification includes meeting attendance, answering Government telephones, email communications, and working in other situations where Contractor status is not obvious. Contractor personnel identification shall be easily identifiable through the display of badges, name tags, lanyards, etc.

1.6.12.1 Badging of Contractor Employees: If required by the Government, contract personnel and all associated subcontractors employees accessing U.S. facilities or activities, shall present a valid picture ID provided by the Government while accessing Government owned or contracted facilities and shall adhere to facility security policies and restrictions. If applicable, Government issued access badges will not be worn outside designated facility where visible to the general public. Contractor personnel shall return all U.S. Government issued identification to appropriate U.S. Government authorities within five (5) days of the end of their contractual duties.

1.6.12.2 Uniform: The Contractor shall provide a standard uniform for all Contractor and subcontractor employees performing services under this contract, and ensure they wear the uniform during appointed duty hours. The uniform may consist of the same type and color shirt and slacks for all workers. Company logo is optional.

1.6.13 Contractor Travel:

1.6.14 Other Direct Costs (ODC):

1.6.15 Data Rights: The Government has unlimited rights to all documents/material produced under this contract. All documents and materials, to include the source codes of any software, produced under this

contract shall be Government owned and are the property of the Government with all rights and privileges of ownership/copyright belonging exclusively to the Government. These documents and materials may not be used or sold by the Contractor without written permission from the Contracting Officer. All materials supplied to the Government shall be the sole property of the Government and may not be used for any other purpose. This right does not abrogate any other Government rights.

1.6.16. Non-Disclosure Requirements: Performance under this contract may require the Contractor to access data and information proprietary to a Government agency, another Government Contractor, or of such nature that its dissemination or use other than as specified in this work statement would be adverse to the interests of the Government or others. Neither the Contractor, nor Contractor personnel, shall divulge, nor release data or information developed, or obtained under performance of this work statement, except to authorize Government personnel or upon written approval of the KO. The Contractor shall not use, disclose, or reproduce proprietary data, which bears a restrictive legend, other than as specified in this PWS. All documentation showing individual names or other personal information shall apply, and shall be controlled and protected under the provisions of the Privacy Act of 1974, Public Law 93-579, 5 United States Code (U.S.C.) Section 552a.

1.6.16.1 Non-Disclosure Statements: The Contractor shall provide signed non-disclosure agreements to the Government prior to commencement of work under the contract. Disclosure of information by Contractor personnel may result in Contractor personnel removal from performance of duties under this contract.

1.6.16.2 Advertisement and Social Media: The Contractor shall NOT post information to public website or social media locations, personal or professional, that in any way disclose names, locations, hotel data, participants, discussions, pictures, etc. before, during or after the contract period of performance without the express consent of the Government. The use of propaganda violates DOD Commercial Use of Imagery Guidelines stated at (<http://www.defenseimagery.mil/products/DODImagery/commercialuse.html>). The Contractor shall not cite any information (e.g., contract information, pictures, locations, etc.) obtained through this contract on any marketing tools to include its company website.

1.6.16.3 INFORMATION ASSURANCE: At no time will the Contractor or associated sub-contractor employees transmit government documents or information over using methods that do not meet the security requirements specified in the National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations" such as personal electronic mail accounts, public digital data storage sites (cloud storage), social media platforms or instant messaging. Approved government sites such as U.S. Army Aviation and Missile Research Development and Engineering Center (ARMDEC) Safe Exchange at <https://safe.amrdec.army.mil/SAFE/About.aspx>, or All Partners Access Network (APAN) at <https://community.apan.org/>, or other transmission means determined by the government must be used.

1.6.17 Organizational Conflict of Interest (OCI) Contractor and subcontractor personnel performing work under this contract may receive, have access to, or participate in the development of proprietary or source selection information (e.g., cost or pricing information, budget information or analyses, specifications or work statements, etc.) or perform evaluation services which may create a current or subsequent Organizational Conflict of Interests (OCI) as defined in FAR Subpart 9.5. The Contractor shall notify the KO immediately whenever it becomes aware that such access or participation may result in any actual or potential OCI and shall promptly submit a plan to the KO to avoid or mitigate any such OCI. The Contractor's mitigation plan will be determined to be acceptable solely at the discretion of the KO and in the event the KO unilaterally determines that any such OCI cannot be satisfactorily avoided or mitigated, the KO may affect other remedies as he or she deems necessary, including prohibiting the Contractor from participation in subsequent contracted requirements which may be affected by the OCI.

1.6.18 Phase-in/Phase-Out (PIPO) Period:

1.6.19 General Training Requirements:

1.6.19.1 Anti-Terrorism (AT) Level I Training: The Contractor shall complete AT Level I Training within 30 calendar days after contract start date or effective date of incorporation of this requirement into the contract, whichever applies, or 30 calendar days after employment of new personnel, all Contractor employees, including subcontractor employees, who are employed under the contract shall complete AT Level I awareness training within 30 calendar days after contract start date or effective date of incorporation of this requirement into the contract, whichever applies. The contractor shall submit certificates of completion for each affected Contractor employee and subcontractor employee to the COR or KO within ten (10) calendar days after completion of training by all employees and subcontractor personnel. For Common Access Card (CAC) holders, AT Level I awareness training is available at <https://jkodirect.jten.mil>, course number "JS-US007-14". For non-CAC holders, AT Level I awareness training is available at <http://jko.jten.mil/courses/at11/launch.html> (this standalone version is intended for non-CAC users without a JKO account only). Training must have been completed within the last 12 months and **maintained yearly thereafter**. If training cannot be conducted on the website, the Contractor will coordinate with the local AT Officer at their assigned location for classroom training by a Level 2 trained AT Officer and a copy of either the training certificate or the training attendance roster signed by the AT Officer will be maintained by the Contractor. Verification of the training will be provided to the COR or KO within ten (10) calendar days after completion of the training.

1.6.19.2 OPSEC Awareness: If the Contractor, or a subcontractor, or employees of either disclose any information that disrupts or harms the Government's operations or activities, then the Government retains the right to exclude any employee from performance of duties under this contract. The exclusion of an employee for security reasons will not relieve the Contractor from performance of services required under this contract. By way of example, personnel shall not sketch or take photos of government facilities or activities, unless related to service to be provided. All government paper products and removable digital storage material that is received, generated, or stored during the contract will be destroyed completely when no longer needed to preclude recognition of information.

1.6.19.3 Information Assurance (IA) Training: Contractor employees, including subcontractors, requiring access to Government information systems shall complete the DOD IA Cyber Awareness Training. All employees working information technology (IT)/IA functions must comply with DOD and Army training requirements per DOD Directive (DODD) 8570.01, Information Assurance Training Certification and Workforce Management, DOD 8570.01-M, Information Assurance Workforce Improvement Program, and AR 25-2, Information Assurance, within 30 days of employment. Training is available at <https://ia.signal.army.mil/DODIAA/default.asp>.

1.6.19.4 Information Assurance (IA)/Information Technology (IT) Training: All Contractor employees and subcontractor employees requiring access to Government information systems must complete the DoD IA awareness training before issuance of network access and annually thereafter. All employees working IA/IT functions must comply with DoD and Army training requirements in Per DoD 8570.01, DOD 8570.01-M, and AR 25-2, within 30 days of employment. Training is available at <https://ia.signal.army.mil/DoDIAA/default.asp>.

1.6.19.5 Threat Awareness Reporting Program (TARP Training): Within 30 calendar days after contract start date or effective date of incorporation of this requirement into the contract, whichever applies, or 30 calendar days after employment of new personnel, all Contractor employees, including subcontractor employees, who are employed under the contract and require a security clearance, shall complete TARP training within 30 calendar days after contract start date or effective date of incorporation of this requirement into the contract, whichever applies. The Contractor shall submit certificates of completion for each affected Contractor employee and subcontractor employee to the COR within ten (10) calendar days after completion of training by all employees and subcontractor personnel. TARP training is available at the Army Learning Management System (ALMS) <https://www.lms.army.mil/>. Training must have been completed within the last 12 months and **maintained yearly thereafter**. If training cannot be conducted on the website, the Contractor will coordinate with the local Counter Intelligence (CI) Officer at their assigned location for classroom training and a copy of either the training certificate or the training

attendance roster signed by the CI Officer will be maintained by the Contractor. Verification of the training will be provided to the Contracting Officer (KO) or Contracting Officer Representative (COR) within ten (10) calendar days after completion of the training.

1.6.19.6 iWATCH Training: The Contractor will ensure that all Contractor employees and sub-contractor employees performing services under this contract have been briefed on the iWATCH Program, or equivalent for their supporting DoD Agency, within 30 days of employment under the contract. The Contractor will coordinate with the supporting DoD Agency AT Officer through the COR or KO for the briefing. This training will be updated as required by the supporting installation AT policies. A copy of the training attendance will be maintained by the Contractor and made available to the COR or KO upon request.

1.6.19.7 OPSEC Training: All Contractor employees and sub-Contractor employees performing services under this contract will complete Level I OPSEC training within 30 calendar days of employment under this contract. OPSEC Level I training is available at <https://jkodirect.jten.mil>, course number "EUC-ECJ6-110-N-LB". Training must have been completed within the last 12 months and maintained yearly thereafter. If training cannot be conducted on the website, the Contractor will coordinate with the local OPSEC Officer at their assigned location for classroom training by a Level 2 trained OPSEC Officer and a copy of either the training certificate or the training attendance roster signed by the OPSEC Officer will be maintained by the Contractor. Verification of the training will be provided to the COR or KO upon request.

PART 2
DEFINITIONS & ACRONYMS

2. DEFINITIONS AND ACRONYMS:

2.1. Definitions

2.1.1. Contractor. The total contractor organization or a separate entity of it; such as an affiliate, division, or plant that performs its own purchasing.

2.1.2. Contract Administrator. The official Government representative delegated authority by the Contracting Officer to administer a contract. This individual is normally a member of the appropriate Contracting/Procurement career field and advises on all technical contractual matters.

2.1.3. Contracting officer (KO). A person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings.

2.1.4. Contracting Officer's Representative (COR). An individual designated and authorized in writing by the contracting officer to perform specific technical or administrative functions.

2.1.5. Defective Service. A service output that does not meet the standard of performance associated with the Performance Work Statement.

2.1.6. Deliverable. Anything that can be physically delivered, but may include non-manufactured things such as meeting minutes or reports.

2.1.7. Key Personnel. Contractor personnel that are evaluated in a source selection process and that may be required to be used in the performance of a contract by the Key Personnel listed in the PWS. When key personnel are used as an evaluation factor in best value procurement, an offer can be rejected if it does not have a firm commitment from the persons that are listed in the proposal.

2.1.8. Performance Work Statement (PWS). A statement of work for performance-based acquisitions that describes the required results in clear, specific, and objective terms with measurable outcomes.

2.1.9. Physical Security. Protection of the perimeter area, government property, and assets that prevent the loss or damage of Government property.

2.1.10. Quality Assurance. The various functions, including inspection, performed by the government to determine whether a Contractor has fulfilled the contract obligations pertaining to quality and quantity.

2.1.11. Quality Assurance Surveillance Plan (QASP). A plan describing how the agency will survey, observe, test, sample, evaluate and document the Contractor's performance in meeting critical performance standards identified in the contract.

2.1.12. Quality Control (QC). Tasks performed by the Contractor to improve the quality of the organization's output.

2.1.13. Shall. An imperative command; has a duty to or is required to. Denotes that a regulation must be followed unless the contracting officer has obtained a deviation.

2.1.14. Subcontractor. Any supplier, distributor, vendor, or firm that furnishes supplies or services to or for a prime contractor or another subcontractor.

2.1.15. Work day. The number of hours per day the Contractor provides services in accordance with the contract.

2.1.16. Work Week. Monday through Friday, unless specified otherwise.

United States Code

PART 3
GOVERNMENT FURNISHED PROPERTY AND SERVICES

3.1 Government Furnished Property The Government will provide access to designated fuel assets for installation of contractor equipment.

3.2 Emergency and Rescue

3.2.1 The Government will furnish emergency medical and rescue services to prevent loss of life, limb, or undue suffering within the areas serviced by the applicable installation emergency services provider. The Government will seek reimbursement for medical services rendered, as appropriate.

3.2.2 The Government will provide installation fire services to include firefighting, fire prevention inspections and investigations; Installation security services; confined space rescue; and Hazardous Material (HAZMAT) first response.

3.3 Telecommunications/Utilities

3.3.1 The Government will provide reasonable access to Government-furnished telecommunications for official use related to this effort. Line service will include on-post service, and Defense Switched Network (DSN). The cost of unofficial telephone service (e.g., telephone service not incidental to performance of the contract) shall be reimbursed to the Government. The contractor shall ensure compliance with AR 25-1 Information Assurance as related to telecommunications use and access. The Government will not provide reimbursement for additional services or special connectivity relative to contractor unique equipment, software, or corporate requirements.

3.3.2 The Government will furnish appropriate amounts of heat, heating fuels, gas, electricity, sewage, and water utilities, as currently installed in GFF, for use under this contract. All facilities do not receive the same utility services. The contractor shall not change or modify any Government provided utility systems or components or install any CFE components or system without prior KO or designated representative written approval as coordinated through the DPW.

3.3.3 The Government will provide limited access to the existing Local Area Network (LAN) to include electronic mail (e-mail). The number of active LAN drops and e-mail accounts available will be determined by the Government. The contractor shall not use the LAN or e-mail for purposes other than official Government work required under this contract.

3.3.4 Radio frequency assignments and authorization will be controlled and furnished by the Government. The contractor will not operate any radio (e.g. *FMS/GMRS [Family Radio Service / General Mobile Radio Service] typically commercially available with frequencies in the 450-470 MHz band and less than 50 watts*) on the installation without proper authorization.

3.4 Government Owned Vehicles

3.4.1 The contractor shall abide by the Federal Management Regulation (FMR) § 102-34 restrictions and requirements governing the management, operation, and maintenance of Government Owned vehicles.

3.5 GFE Tools, Hand Tools, Equipment; Test, Measurement and Diagnostic Equipment (TDME) Calibration Services

3.5.1 The Government will provide special tools, hand tools and equipment that is not included in a general mechanic's tool set.

3.5.2 The Government will provide calibration and repair services for Government provided Test, Measurement and Diagnostic Equipment (TMDE) as prescribed by applicable AMC program.

3.5.3 Property, equipment, hand tools, tools, parts, furnished materials, and scrap metals resulting from or furnished under this contract shall remain the property of the Government. Unserviceable non-repairable equipment, hand tools, tools, parts, scrap metals and materials shall be disposed of by the contractor in accordance with Class Deviation of Defense Federal Acquisition Regulation Supplement (DFARS) 252.245-7004, Reporting, Reutilization, and Disposal. Contractors are required to complete inventory disposal schedules in the Government Furnished Property (GFP) Module of the Procurement Integrated Enterprise Environment, in lieu of the Defense Contract Management Agency (DCMA) Plant Clearance Automated Reutilization Screening System eTool software application.

3.6 Government Furnished Facilities and Real Property

3.7 Government Furnished Services

PART 4

CONTRACTOR FURNISHED FACILITIES AND EQUIPMENT

4.1 Contractor Furnished Facilities and Equipment – General

4.1.1 The contractor shall procure material, equipment, and supplies, which are incidental to the provision of services of this PWS. The contractor shall ensure on-site maintenance personnel are equipped with proper individual / hand tools for the effort to be completed (i.e. general mechanics tools). The Government will not provide individual tools to be used by maintenance personnel under this effort. Each employee mechanic must have their own tools. The Government has revoked its assumption of risk regarding individual tools used under this effort. At no time will the Government be responsible for the replacement of lost, damaged, or broken individual tools.

4.1.2 Except for those items and services specifically stated in Part 3 as Government-furnished, the contractor shall furnish everything needed to perform this contract according to all its terms and conditions as stated in specific sections of this PWS and as identified in the Purchasing/Invoicing Guide.

4.1.3 Contractor-furnished equipment or items, inoperable or unserviceable for any reason, must be removed from the U.S. Government's Installation within ten (10) business days after failure. The condition of contractor-furnished equipment shall not relieve the contractor of responsibility to provide services as required in this contract. The contractor shall immediately notify the KO and COR, in writing, of circumstances regarding delay of work due to equipment or material problems.

4.1.4 The contractor shall furnish additional telephone and peripheral equipment requirements not furnished by the U.S. Government, if required. All additional costs must be approved in writing by the KO prior to the items being placed in service.

4.1.5 All contractor furnished vehicles shall be maintained in a neat, presentable, and operational condition and shall meet Government safety inspection standards. The contractor's vehicles not meeting standards shall not be operated or stored on U.S. Government installations. The contractor shall provide a sign on the right and left side of contractor furnished vehicles with the contractor's company name and telephone number.

4.2 Materials and Equipment

4.2.1 The contractor shall use the equipment type and size suitable for the required operation and shall operate the equipment from existing Government-furnished electrical power sources. The contractor shall affix a highly visible, permanent contractor's nameplate on all contractor-owned equipment. The contractor shall ensure that if commingling of U.S. Government and contractor-furnished equipment occurs, each set of equipment is easily identifiable and can be separated for inspection and inventory as required.

4.2.2 The contractor shall maintain a sufficient quantity of on-hand materials and supplies to perform all work required under this Contract. Failure on the part of the contractor to provide sufficient quantities and quality of supplies and materials within the specifications of the Contract shall not be cause for reduction in any service or performance. The contractor shall maintain stocks to ensure continuous operation of critical systems as approved by the KO. Critical systems are those that are directly related to health care, safety, and mission accomplishment. The contractor shall provide a system for rapid procurement of items whose usage levels do not require maintenance of on-hand stocks. This system shall include a list of vendors for each such mission-critical repair item, information on availability, and expected delivery times.

PART 5 SPECIFIC TASKS

5. Specific Tasks:

5.1. Equipment Capability Tasks. The contractor shall provide the equipment capability, materials, and associated tasks necessary to support deployment and operation of the fuel monitoring system as defined in this PWS.

5.1.1. The contractor shall install non-intrusive fuel level monitoring sensors on designated Government fuel assets identified by the COR.

Installation shall:

- Not permanently modify Government equipment
- Be removeable without damage to the asset
- Be completed within timelines coordinated with the Government

5.1.2. Equipment Condition: Each item of equipment or property furnished under this contract shall be in safe operational condition and shall comply with the Federal Safety Standards, the American National Standards and State Safety Regulations applicable to this equipment or property. The equipment shall also have its' service logs and calibration test to indicate it has passed inspection. If the Contracting Officer or their representative determines that any item of equipment or property furnished is not suitable for performance under this contract, the Contracting Officer shall promptly inform the contractor in writing.

The equipment shall be able to operate in the high desert terrain of Ft. Irwin and be able to withstand wind gusts up to 70mph in locations throughout the training area. Each piece of equipment shall have a minimum of one (1) 5lb fire extinguisher.

5.1.3. The contractor shall provide familiarization training on the delivered equipment. Soldiers attending the familiarization training will be licensed operators of similar equipment, but not necessarily the same equipment.

5.1.4. Emergency Services: The contractor shall provide on-call technical assistance and replacement of malfunctioning equipment as required to maintain operational availability of the monitoring capability, including all weekends and holidays, at the Contractor's expense. The Contractor shall provide emergency services upon notification from the KO and have repaired or replaced the equipment within four (4) hours. All repairs, replacement, delivery and pick-up costs not due to Government negligence shall be at no additional cost to the Government. Repairs shall be on-site at the equipment's location. All replacement/backup units utilized in the event of primary failure shall be at no additional cost to the Government.

5.1.5. The Contractor shall provide prompt service repair and maintenance services and respond to all maintenance calls within four (4) hours and repair or replace the vehicle within 12 hours. All repairs or replacements for the leased equipment not completed within 12 hrs will not be charged to the U.S. Government. Delivery/pick-up costs are included in the price.

5.1.6 Removal of Equipment: The Contractor shall coordinate with the COR for removal of equipment at the end of the POP. The Contractor shall remove all contracted/leased equipment from the installation within 48 hours after the POP. Should equipment remain in place beyond 48 hours, the Government is not liable for usage, theft, loss, damage or replacement costs due to the Contractor's negligence to take possession of owned items. If for any reason the Contractor is unable to pick-up equipment, notify the KO in writing 24 hours prior to scheduled pick-up date.

5.1.7. Contractor's Representatives or Supervisors: Contractor shall have a company representative on call to respond to maintenance requests with full telephone coverage and authority to make decisions on behalf of the company on a 24 hour basis. The time for a required maintenance call starts when the Government calls the company representative. The Contractor shall have functioning voicemail. Lack of receiving capabilities by the Contractor does not relieve the Contractor of liability for the required service call timeframe to repair or replace equipment.

5.1.8 Data Transmission: sensors shall transmit fuel data to the contractor-hosted monitoring platform using commercial connectivity. The system shall operate independently and shall not require direct connection to Army network infrastructure.

5.1.9 Data Visibility: The contractor shall provide authorized Government personnel access to a web-based dashboard displaying near real-time fuel level data for designated assets.

5.2. Task Heading.

5.3. Service Contract Reporting (SCR):

Reporting inputs will be for the labor executed during the period of performance during each Government fiscal year (FY), which runs October 1 through September 30. While inputs may be reported any time during the FY, all data shall be reported no later than October 30 of each calendar year using <http://sam.gov>.

PART 6
APPLICABLE PUBLICATIONS

6. APPLICABLE PUBLICATIONS (CURRENT EDITIONS)

6.1. The Contractor must abide by all applicable regulations, publications, manuals, and local policies and procedures.

6.1.1 DOD Commercial Use of Imagery Guidelines

6.1.2 AR 190-13, The Army Physical Security Program

6.1.3 Army Directive 2014-05, Policy and Implementation Procedures for CAC Credentialing Access for Uncleared Contractors

6.1.4 DOD 5220.22-M, National Industrial Security Program Operating Manual

6.1.5 Defense Federal Acquisition Regulation Supplement (DFARS)

6.1.6 Joint Travel Regulation (JTR)

6.1.7 AR 735-5, Policies and Procedures for Property Accountability

6.1.8 DODD 8570.01, Information Assurance Training Certification and Workforce Management

6.1.9 DOD 8570.01-M, Information Assurance Workforce Improvement Program

6.1.10 AR 25-2, Information Assurance

6.1.11 DODI 2000.16 DoD Antiterrorism (AT) Program

6.1.14 58-1 Management, Acquisition, and Use of Motor Vehicles

6.1.15 DD254 Department of Defense Contract Security Classification Specification

6.1.16 AR 25-2 Information Assurance

PART 7
ATTACHMENT/TECHNICAL EXHIBIT LISTING

7. **Attachment/Technical Exhibit List:**

7.1 Attachments:

7.1.1 Attachment 1 – Performance Requirements Summary

7.1.2 Attachment 2 – Deliverables Schedule

ATTACHMENT 1

PERFORMANCE REQUIREMENTS SUMMARY

The contractor service requirements are summarized into performance objectives that relate directly to mission essential items. The performance threshold briefly describes the minimum acceptable levels of service required for each requirement. These thresholds are critical to mission success.

Performance Objective (The Service required—usually a shall statement)	Standard	Performance Threshold (This is the maximum error rate. It could possibly be “Zero deviation from standard”)
Sensor installation	Sensors are installed on designated fuel assets	100 %
System availability	Fuel data accessible to authorized users	>95% uptime
Equipment removal	Sensors removed after event	Within 48 hours

ATTACHMENT 2

DELIVERABLES SCHEDULE

Deliverable	Frequency	# Of Copies	Medium/Format	Submit To
Quality Control Plan	One time, with updates as required	1	PDF via e-mail	KO, COR
Installation completion report	Once	1	PDF via e-mail	KO, COR
Equipment removal report	Once	1	PDF via e-mail	KO, COR
