REQUEST FOR INFORMATION

Human Resource Management (HRM) II

1.0 DESCRIPTION & PURPOSE

1.1 The National Geospatial-Intelligence Agency (NGA) in support of the Human Development (HD) Directorate is seeking information on how an interested contractor could provide contractor support for human resources management services.

1.2 The purpose of this Request for Information (RFI) is to identify potential sources that may be capable of performing the required services.

1.3 THIS IS A REQUEST FOR INFORMATION (RFI) ONLY issued by NGA to conduct market research and identify sources capable of fulfilling the requirements detailed in the attached Performance Work Statement (PWS). This RFI is issued solely for information and planning purposes – it does not constitute a Request for Proposal (RFP) or a promise to issue an RFP in the future. This RFI does not commit the Government to contract for any supply or service whatsoever. Further, NGA is not seeking proposals at this time and will not accept unsolicited proposals. Responders are advised that the U.S. Government will not pay for any information or administrative costs incurred in response to this RFI. All costs associated with responding to this RFI will be solely at the interested party's expense. Not responding to this RFI does not preclude participation in any future RFP, if any is issued.

1.4 This Request for Information (RFI) is a follow-up to the draft PWS initial notice posted in July 2025. The Government has incorporated industry feedback from that session to produce the attached Performance Work Statement (PWS). The Government is not seeking further recommendations on the PWS itself. The purpose of this RFI is to identify sources capable of performing the requirements as detailed in the attached PWS. Interested parties are required to complete all RFI document sections and provide a response to all of the questions in Attachment 2. The Government will evaluate responses to determine capabilities to support this requirement.

2.0 BACKGROUND

The National Geospatial-Intelligence Agency (NGA) has a mission-critical requirement for comprehensive Human Resources (HR) operational and consultative support for the Human Development Directorate (HD). This requirement, known as Human Resources Management (HRM) II, will provide services for NGA's total workforce of over 8,500 government employees, military personnel, and contractors.

The scope of this effort is to deliver HR services across the entire employee lifecycle, from recruitment to retirement. Contractor personnel will be required to utilize NGA's Human Resources Information System (HRIS) as the principal tool for executing these functions, processing all civilian personnel actions in strict accordance with Office of Personnel Management (OPM) guidelines.
