The following attachments were added:

Revised ACRS QASP 02202026

Addendum to 52.212-1, Instructions to Offerors - Commercial Products and Commercial Services

Miscellaneous text in this section has been modified to:

The Government intends to issue a Firm Fixed Price Indefinite Delivery Indefinite Quantity (FFP IDIQ) multiple award contract (MAC) with up to six (6) awards as a result of this solicitation in accordance with FAR Part 12, Acquisition of Commercial Items and FAR Subpart 15 Contracting by Negotiations. Award will be made to the offeror(s) whose proposal is most advantageous to the Government under the selection criteria set forth in this solicitation. The Government intends to evaluate proposals and award up to six (6) contracts without discussions with offerors. Therefore, the offeror's initial proposal should contain the offeror's best terms from a non-price and price standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government reserves the right to award a FFP IDIQ MAC to other than the six (6) offeror(s) with the lowest price proposal or to other than the offeror(s) with the highest technically rated non-price proposal.

QUESTIONS:

Offerors may submit questions regarding clarification of solicitation requirements directly to the Contract Specialist and Contracting Officer at jill.h.joscelyn.civ@us.navy.mil. It is requested that all questions be received no later than **12:00pm EST on 02 March 2026**, as time may not permit responses to questions received after that date to be prepared and issued prior to the receipt of proposals. For this reason, the Government reserves the right to not answer any questions received after the due date.

INSTRUCTIONS FOR SUBMISSION OF PROPOSALS:

(1) Proposals shall be submitted to Jill Joscelyn electronically no later than the due date of the solicitation closing via email to jill.h.joscelyn.civ@us.navy.mil. Offerors shall comply with the detailed instructions for the format and content of the proposals contained herein; proposals that do not comply may be considered unacceptable and may render the proposal ineligible for award.

Offerors are strongly encouraged to confirm their proposal was received PRIOR to the closing date and time. It is the responsibility of the offerors to ensure that the Contracting Office has received their entire proposal, with all attachments, PRIOR to the solicitation closing date and time. Only the documents received prior to the solicitation closing date and time will be evaluated.

Offerors should include the following information in the Subject Line of their electronic submission:

Proposal - N0018926R0002 - (Name of Offeror) - Email (#) of (#)

(2) All submissions and attachments shall be in Microsoft Office Word or an Adobe PDF. Submissions are page limited to the maximum number of pages as defined below. Only the price supporting information may be submitted utilizing Microsoft Office Excel. Submissions are page limited to the maximum number of pages as defined below. These page limitations are inclusive of the executive summary and any charts, diagrams, and/or other graphics. Graphics (including tables) in the proposal may use Times New Roman font with 8-point size type or larger. Each "page" is defined as one sheet, 8 1/2 "x 11", with at least one inch margins on all sides, using Times New Roman font with a point size of 12 or greater. Lines shall, at a minimum, be selected as single-spaced in Microsoft Word with Microsoft Word Normal character spacing. Pages shall be consecutively numbered. The offeror is permitted to submit no more than a total of **five (5) page** for each of the following, which will not be included in the page count: a cover sheet, list of tables, list of figures, list of acronyms, compliance matrix, and table of contents.

GENERAL

Offerors shall respond to all requirements of the solicitation document. Offerors are cautioned not to alter the solicitation. Hand-carried proposals are not authorized and will not be accepted. Each page of each copy shall be affixed with the following legend:

Source Selection Information

See FAR 2.101 and FAR 3.104

PROPOSAL FORMAT:

The proposal should contain the following items in addition to other information required by this solicitation:

The cover page should indicate the following:

- Title of the proposal
- Volume Number (I or II)
- Proposal Category (Factor/Sub-factor)
- Request for Proposal Number
- Name and Address of Offeror, CAGE Code, SAM Unique Entity ID, and applicable Tax I.D. Number (TIN)
- Point of Contact name, telephone number, and email address
- Proposal valid for 180 days after solicitation closing

Offerors are required to submit their proposals in three (3) separate volumes as follows:

-

Volume I: Non-Price Proposal

-

Factor I - Facility Security Clearance

Factor II - Technical Approach

- Subfactor I- Performance and Management Approach
- Subfactor II- Staffing Approach

Factor III - Past Performance

Factor IV - Small Business Participation Plan

Volume II: Factor V - Price Proposal

Volume III: Factor VI - Subcontracting Plan

Table of Contents: The table of contents should provide sufficient detail as to allow the important elements to be easily located.

(3) Requirements for Style: Each offeror shall submit a proposal that clearly and concisely describes and defines the contractor's response to the requirements contained in the RFP. Unnecessary elaboration or other presentations beyond that sufficient to present a complete and effective proposal are not desired and may be construed as an indication of the offeror's lack of understanding of cost consciousness. The proposal shall contain all the pertinent information in sufficient detail in the one area of the proposal where it contributes most critically to the discussion of the same information. When necessary, the offeror shall refer to the initial discussion and identify its location within the submitted proposal.

(4) Proposal Page Limitations

Volume I - Non-Price Proposal - The following page limitations are established:

Factor and Sub-Factor Titles	Page Limit*	Required Format
Factor I - Facility Clearance	No limit	Microsoft Word
Factor II - Technical Approach	65 pages	Microsoft Word
Factor III - Past Performance	20 Pages	Microsoft Word
Factor IV - Small Business Participation Plan	15 Pages	Microsoft Word

Volume III Factor VI - Small Business Subcontracting Plan (Not an Evaluation Factor)	No limit	Microsoft Word

*The Facility Security Clearance is not page-limited; however, the Facility Security Clearance is to be strictly limited to a copy of the verification.

Volume II - Price Proposal is not page limited; however, the Price Proposal is to be strictly limited to cost information and completed solicitation documents as described in the General Section at the beginning of this text.

Title	Limit*
Factor V - Price	No limit

Pages submitted in excess of the page limitations described above will not be evaluated. The Government may exercise discretion in determining which specific pages are considered to be in excess of the page limitations.

* Page limits represent the maximum pages the Government will evaluate and are not construed as de facto standards for the amount of material expected in the proposal.

PROPOSAL CONTENT:

-

Volume I: Non-Price Proposal

-

This volume shall address the non-price factors and sub-factors and include all information required for proposal evaluation. This volume shall also address technical, small business participation, and past performance factors and shall include all information required for proposal evaluation. This volume of the proposal shall exclude any reference to the price aspects of the proposal.

-

Factor I - Facility Security Clearance

The offeror shall provide verification that it possesses an active Facility Security Clearance at the **SECRET** classification level at the time of proposal submission as identified in the PWS. The verification shall be provided via the Defense Counterintelligence and Security Agency's (DCSA) National Industrial Security System (NISS) and obtained no earlier than 30 days prior to the issuance of the solicitation. The Verification request shall include the following: Cage Code, Facility Name, Physical Location, Facility Clearance Status/Level, Status Date/Issue Date, Safeguarding Level, Authorized Access to FCL Limitation, Facility Security Officer, Facility Security Officer Phone Number, DCSA Field Office, and DCSA Officer Phone Number. The verification shall be submitted via download or screenshot from <https://ncaiss.dss.mil/>.

For Factor I - Facility Security Clearance, the rating table identified below entitled "Technical Acceptable/Unacceptable Ratings" will be utilized.

Factor II - Technical Approach

Factor II Technical Approach is comprised of the below sub-factors:

-

Sub-Factor I - Performance and Management Approach

-

The offeror shall provide a performance and management approach that will successfully accomplish the requirements of the solicitation, including the PWS. The Offeror shall demonstrate an understanding of and capability to meet all of the requirements, specifically the ones detailed below:

- a) Describe an approach to demonstrate successfully performing the work as identified within PWS section III.
- b) Describe a strategic approach to managing personnel assigned tasks for completion, and ensure deliverables are assigned and delivered within the acceptable quality level per PWS section III.
- c) Describe an approach that ensures credentials and qualifications remain current for all contractor personnel engaged in the effort per PWS section XVI.
- d) Provide an implementation plan that identifies risks and mitigation strategies, considering areas such as realistic timeframe for security clearances.

Sub-Factor II - Staffing Approach

-

The offeror shall provide a staffing approach that will successfully accomplish the requirements of the solicitation, including the PWS. The Offeror shall demonstrate an understanding of and capability to meet all of the requirements, specifically the ones detailed below:

- a) Describe an approach to address and demonstrate the ability to meet the qualifications identified in Section XVI of the PWS.

- b) Describe a general staffing approach for utilization of the offeror's personnel resources that demonstrates an understanding of the skill sets required to successfully accomplish the tasks of the PWS.
- c) Describe an approach to staff recruitment, training, and retention that demonstrates the offeror's plan to minimize staff turnover. The offeror is encouraged to provide historical data to substantiate past retention statistics/low employee turnover rates.
- d) Describe an approach to mitigate risks associated with its staffing approach and any risks associated with implementation of its approach to staffing.

NOTE: The above bullets provide guidance for what should be addressed in the approach and are not considered to be subfactors nor should this be considered an all-inclusive list.

NOTE: Offerors simply providing general statements or paraphrasing/parroting the PWS in whole or in any part may result in a rating of unacceptable.

*****The Technical Approach is limited to 65 pages*****

Factor IV - Past Performance

To demonstrate its past performance, the Offeror shall identify up to three (3) of its most relevant contracts performed within five (5) years of the solicitation issuance date. Those contracts must also reflect one (1) year of completed performance by the closing date of the solicitation. Offerors shall provide a detailed explanation demonstrating the relevance of the contracts to the requirements of the solicitation.

For purposes of this solicitation, a contract is defined as a single contract or a single task order placed under an ID/IQ contract, a Blanket Purchase Agreement (BPA), or a Federal Supply Schedule. If an offeror submits the IDIQ contract, FSS contract, or BPA itself as a reference, then the offeror must identify: a) the total number of orders actually awarded to the offeror during the ordering period in the past five (5) years from the solicitation closing date; and b) the total dollar amount of those orders. The total dollar amount shall be the sum of the orders actually awarded, not the contract maximum or ceiling. Orders is defined as either delivery orders (DOs), task orders (TOs), technical direction letters (TDLs), and/or technical area tasks (TATs) placed under an ID/IQ or BPA or Federal Supply Schedule contract. Orders must also meet the recency requirements stated above: each order must have been performed within five (5) years of the solicitation closing date. If an offeror submits an IDIQ contract, FSS contract, or BPA itself as a reference, the ordering period must be at least one (1) year in length and any ordering period prior to the five-years before the solicitation date will not be considered. If an IDIQ contract, FSS contract, or BPA itself is submitted as a reference, the offeror shall state the specific experience claimed from the orders (i.e. the offeror shall identify what work was actually completed on the orders and the relevance to this solicitation, as opposed to generically stating that orders were merely awarded). A Past Performance example that does not provide the level of detail required may not be evaluated. If the offeror includes delivery orders/task orders as past performance, the offeror shall state specifically what work was performed by the offeror under the delivery order/task order and the dates during which work was performed

~~For purposes of this solicitation, a contract is defined as a single contract or a single task order placed under an ID/IQ contract, a Blanket Purchase Agreement (BPA), or a Federal Supply Schedule. Offerors shall not submit the IDIQ contract, FSS contract, or BPA itself as a reference. Offerors may submit a combination of no more than three (3) delivery orders (DOs), task orders (TOs), technical direction letters (TDLs), and/or technical area tasks (TATs) placed under an ID/IQ or BPA as one of the three examples of past performance. Such a combination must also meet the requirements stated above: each individual example in the combination must have been performed within five (5) years of the solicitation issuance date and demonstrate at least one (1) year of completed performance by the closing date of the solicitation. If a combination of DOs, TOs, TDLs and or TATs are used as a past performance example, the Offeror shall state the specific experience claimed, period of performance, and dollar value of each. A Past Performance example that does not provide the level of detail required may not be evaluated. No more than one combination of DOs, TOs, TDLs and~~

or TATs is permitted in the past performance submittal. **One (1) year of completed performance is defined as twelve (12) consecutive months of performance. References with less than twelve (12) consecutive months of service will not be considered.**

If a proposed subcontractor's past performance is provided as part of the three (3) of its most relevant contracts or efforts, the percentage and type of work to be done by the subcontractor on the solicitation requirement must be stated. The Offeror's submittal shall also detail clearly the aspects of the work in the solicitation that the subcontractor is proposed to perform. A Past Performance example which does not detail clearly the aspects of the work in the solicitation that the subcontractor is proposed to perform may not be evaluated.

If the prime Offeror or intended subcontractor/partner submits a past performance example in which it served as a subcontractor, the prime/sub/partner shall detail clearly the work that it performed and the magnitude (dollar value) of that subcontracted work only. A Past Performance example that does not differentiate between the overall contract effort and the subcontractor effort may not be evaluated.

The past performance of subcontractors who will be performing major or critical aspects of the solicitation will be considered as highly as a prime contractor's past performance.

Failure of Offerors to provide the required information and level of specificity may result in the contract reference not being evaluated.

With respect to joint ventures, the procuring activity will consider work done individually by each member of the joint venture as well as any work done by the joint venture itself previously. Joint venture references must meet the temporal requirements described in addendum FAR 52.212-1 (within five years and a year of completed performance). Additionally, if a joint venture member submits a past performance reference, the joint venture member shall detail clearly the work that it performed in that effort and the magnitude (dollar value) of that work. A reference that does not differentiate between the overall contract effort and the joint venture member's effort for that reference may not be evaluated. The past performance of a joint venture member who will be performing major or critical aspects of the solicitation will be considered as highly as the joint venture's past performance.

The references provided will be evaluated in the aggregate in order to allow Offerors who may not have the entire scope and magnitude of the requirement, under one individual contract, to still be considered relevant if past performance with the full scope of the requirement can be demonstrated within the allotted number of references as described above.

The Offeror shall complete a "Past Performance Information Form" for each reference submitted. The form is an attachment to the solicitation.

In addition to the information requested above, Offerors shall contact their past performance references and request that each reference complete the Past Performance Report Form attached to the solicitation and e-mail the completed survey form directly to **Jill Joscelyn at jill.h.joscelyn.civ@us.navy.mil and Joseph Frech at joseph.l.frech.civ@us.navy.mil by the DUE DATE OF THIS SOLICITATION.** The Government reserves the right to consider past performance report forms received after the due date of the solicitation and to contact references for verification or additional information.

*****The Past Performance submission is limited to 20 pages*****

Factor III - Small Business Participation Plan

Offerors (large and small businesses) **SHALL** provide a Small Business Participation Plan. Small Business Participation Plans shall address the following:

The extent to which small business concerns are specifically identified;

- The extent of commitment to use small business concerns (for example, enforceable commitments will be weighted more heavily than non-enforceable ones);
- Past performance of the offerors in complying with requirements of the clauses at FAR 52.219-8, Utilization of Small Business Concerns, and 52.219-9, Small Business Subcontracting Plan.
- The extent of participation of small business concerns in terms of the value of the total acquisition.

Volume II: Price Proposal

-

Factor V - Price Proposal

This volume shall include completed solicitation documents and additional supporting documentation described below:

- RFP Section "Schedule of Supplies/Services" completed by the Offeror. For the purpose of preparing a price proposal, the offeror shall assume that the period of performance consists of a **5-year ordering period, and FAR clause 52.217-8, Option to Extend Services up to six months, as established in the Schedule.**
- A completed and signed page 1 of the of the solicitation and a completed and signed page 1 of any amendments.
- Unless completed in System for Award Management (SAM), the offeror should complete Representations, Certifications and Other Statements of Offerors in the RFP.
- The price proposal shall include all supporting data to illustrate/explain the methodology on how labor prices were developed. This information shall include a breakdown of the labor categories, and labor rates anticipated and shall be submitted in Microsoft Excel format.
- For the purposes of Offeror's proposal, all rates should be proposed at the site indicated within the PWS.
- Travel may be required and will be identified on the individual task orders. **Local travel within a 50-mile radius of work location will not be reimbursed.** Travel outside of the 50-mile radius will be reimbursed in accordance with FAR 31.205-46(a)(2)(ii), using the mileage and per diem rates listed on Per Diem Rates/GSA. Any required travel shall be approved by the COR prior to the start of travel.
- Estimated Travel will be to government sites in accordance with the number of trips listed in Section IV(B) of the PWS including but not limited to CONUS: San Diego, CA; Norfolk, VA, Bremerton, WA; OCONUS: Japan; U.S. Naval Carriers.
- Materials/ODCs may be required and will be identified on the individual task orders. Materials/ODCs may included, but are not limited to, trucks, forklifts, shipping/postage costs, lap tops, etc.

- **All** Offerors are to propose the travel and material/ODC amounts provided below for all identified travel and materials/ODC CLINs, base and option periods. The travel and material/ODC amounts are provided in the solicitation as Not to Exceed (NTE) Cost Reimbursement CLINs and shall be used in the evaluation of the price proposal. Offerors shall insert the Government estimated travel and material/ODC plug numbers in their proposed price.
 - In addition, any applicable G&A and or overhead rate applicable in accordance with FAR Part 31 in their accounting system. Only G&A and or overhead indirect cost are allowable if an offerors accounting system automatically applies it, no profit or fee is allowed.
 - The offeror's failure to identify that additional indirect cost elements to be included shall result in those costs being deemed as mutually agreed upon as unallowable during the performance of the task order.
 - No profit or fee may be applied to the travel amount.

Note: If no G&A and / or overhead are proposed, it will be determined that the offeror does not intend on applying any applicable indirect costs to any travel required.

Offerors shall use the following Government-estimated travel **plug in** amounts in preparing their price proposal:

Period	Travel
5-Year Ordering Period	\$5,222,301.00
FAR 52.217-8	\$ 493,662.00

Period	Materials/ODCs
5-Year Ordering Period	\$2,114,393.00
FAR 52.217-8	\$ 179,794.00

The completion and submission of the above items will constitute a proposal and will indicate the Offeror's unconditional assent to the terms and conditions of this RFP and any attachments and/or exhibits hereto. All price and price supporting information shall be contained in the price proposal. No price or pricing information shall be included in any other volume including cover letters. Offerors are responsible for submitting sufficient information to enable the Government to fully evaluate their price proposal. Alternate proposals are not authorized. Objections to any of the terms and conditions of the RFP will constitute a deficiency, which will make the offer unacceptable.

The price section is not page-limited but is strictly limited to the requested information and supporting documentation only. No price information shall be contained in any other part of the proposal.

Volume VI:

Factor V - Small Business Subcontracting Plan (Other than Small Businesses ONLY; Not an Evaluation Factor)

Large business offerors **SHALL** submit a Subcontracting Plan in accordance with FAR 19.704, Subcontracting Plan Requirements. Offerors are permitted to submit a master subcontracting plan so long as it is created in accordance with FAR 19.701 and FAR 19.704(b). Subcontracting Plans are not required from small business offerors.

It is the goal of this solicitation that prime contractors subcontract with small businesses to the maximum extent practicable. For other-than-small (large) prime contractors, the Small Business Subcontracting Plan goals shall be expressed in terms of whole dollars and percentages based on total planned subcontracting dollars. Of the total planned subcontracting dollars, the Small Business Subcontracting Plan shall include goals for Small Businesses, Small Disadvantaged Businesses, Woman-Owned Small Businesses, HubZone Small Businesses, Veteran Owned Small Businesses and Service-Disabled Veteran-Owned Small Business. The Government will consider prior achievement of small business subcontracting plan goals as well as the proposed dollar values and percentages related to this solicitation. **Small businesses are not required to submit a subcontracting plan but are required to submit a small business participation plan.**

The completion and submission of the above items will constitute a proposal and will indicate the Offeror's unconditional assent to the terms and conditions of this RFP and any attachments and/or exhibits hereto. All price and price supporting information shall be contained in the price proposal. No price or pricing information shall be included in any other volume including cover letters. Offerors are responsible for submitting sufficient information to enable the Government to fully evaluate their price proposal.

Addendum to Evaluation - Commercial Product and Commercial Services

Miscellaneous text in this section has been modified to:

Addendum FAR 52.212-2 - EVALUATION - COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES

-

The Government intends to issue a Firm Fixed Price Indefinite Delivery Indefinite Quantity (FFP IDIQ) multiple award contract (MAC) with up to six (6) awards as a result of this solicitation in accordance with FAR Part 12, Acquisition of Commercial Items, FAR Part 15 Contracting by Negotiations and FAR Part 16.5 Indefinite-Delivery Contracts. Award will be made to the offeror(s) whose proposal is most advantageous to the Government under the selection criteria set forth in this solicitation. The Government intends to evaluate proposals and award up to six (6) contracts without discussions with offerors. Therefore, the offeror's initial proposal should contain the offeror's best terms from a non-price and price standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary.

All proposals will be reviewed for timeliness. If the proposal is received after the solicitation closing date and does not meet the criteria for "late proposals" in the solicitation, the proposal will not be evaluated. Timely proposals will be reviewed for compliance to the solicitation. If the proposal is not compliant with the solicitation, it will not be evaluated and the offeror will be notified that the proposal is non-responsive and, therefore, will not be considered for award.

The Offeror's proposal shall be in the form prescribed by and shall contain a response to each of the areas identified in Addendum FAR 52.212-1, Instructions to Offerors, of the solicitation.

The selection of an Offeror for award will be based on the evaluation of Factor I, Facility Security Clearance, Factor II - Technical Approach and its subfactors: Sub-factor I - Performance and Management Approach, Sub-factor II - Staffing Approach, Factor III -Past Performance, Factor IV - Small Business Participation Plan and Volume II, Factor V - Price. The Offeror's non-price proposal is considered significantly more important than the Offeror's price proposal. Factors II, III and IV are in descending order of importance. Within Factor II, the two subfactors are weighted equally.

Offerors receiving a rating of "Unacceptable" for any factors or sub-factors are considered un-awardable and will not be further evaluated.

Offerors simply providing general statements or paraphrasing/parroting the PWS in whole or in any part may result in a rating of unacceptable. Offerors should be aware that a complete understanding as to technical, price, and all terms and conditions of the proposed contract must exist between the offeror and the Government at the conclusion of exchanges, if held. Material changes to proposals submitted in any final proposal revisions, if made, may not be subject to further discussions and may render the offer unacceptable to the Government. All offeror and team member /subcontractor information must be incorporated into one coherent proposal to be considered complete.

Although price is not the most important evaluation factor, it has the potential to become more significant during the evaluation process. The degree of importance of price will increase with the degree of equality of the proposals in relation to the other factors on which selection is to be based. The importance of price will also increase when a proposal's price is so significantly high as to diminish the value to the Government that might be gained under the other aspects of the proposal. If, at any stage of the evaluation, all Offerors are determined to have submitted equal, or virtually equal, non-price proposals, price could become the factor in determining which Offerors shall receive the award.

Evaluation of Factor I: Facility Security Clearance

Factor I will be evaluated and will receive a rating of Acceptable/ Unacceptable based on its submission of the verification of its Secret Facilities Clearance Level meeting the requirements as detailed in Addendum FAR 52.212-1, based on the rating Table below.

Table 1 - Technical Acceptable/Unacceptable Ratings Table

--	--

Technical Rating	Description
Acceptable	Proposal clearly meets the minimum requirements of the solicitation
Unacceptable	Proposal does not clearly meet the minimum requirements of the solicitation

NOTE: Offerors receiving a rating of "Unacceptable" for Factor I will no longer be considered for award and no further evaluation will be conducted.

Evaluation of Factor II: Technical Approach: Factor II is comprised of the below sub-factors which are equally weighted.

-

Sub-Factor I - Performance and Management Approach

-

The offeror's overall performance and management approach will be evaluated on its accuracy, comprehensiveness, feasibility and degree to which the offeror demonstrates an understanding of, and capability to successfully fulfill, the performance tasks requirements specified within Addendum FAR 52.212-1 for Sub-Factor I.

Sub-Factor II - Staffing Approach

The offeror's overall staffing approach will be evaluated on its accuracy, comprehensiveness, feasibility and degree to which the offeror demonstrates an understanding of, and capability to successfully fulfill, the personnel qualifications and staffing approach requirements specified within Addendum FAR 52.212-1 for Sub-Factor II.

NOTE: A rating of "Marginal" for any Factor or Sub factor means that the offeror's proposal is not awardable without a change or changes to the offeror's proposal. An offer which includes a "Marginal" rating is not eligible for award if award is made on initial offers. Offerors that receive a "Marginal" rating are considered to be susceptible to correction if the Source Selection Authority determines that an exchange is appropriate and said exchange is conducted.

NOTE: A rating of "Unacceptable" for any Factor or Sub factor means the offeror's proposal will not be further evaluated and is not awardable, is not susceptible to corrections, and will not be further evaluated.

The Technical factor evaluation will be based on each Offeror's response to the requirements of solicitation Addendum FAR 52.212-1, Instructions to Offerors. In the execution of the evaluations, both the Offeror's approach to meeting the Government's requirements as defined in the solicitation and the risk related to its proposed approach will be assessed.

The purpose of the technical factor is to assess the Offeror's proposed approach to satisfy the

Government's requirements. The evaluation of risk is related to the assessment of the Offeror's proposed technical approach. Risk assesses the degree to which an Offeror's proposed technical approach to the requirements of the solicitation may cause disruption of schedule, degradation of performance, the need for increased Government oversight, or the likelihood of unsuccessful task order performance.

The combined technical/risk rating will be utilized in the evaluation of Factor II. The combined technical/risk rating includes consideration of risk in conjunction with the strengths, weaknesses, significant weaknesses, and deficiencies in determining technical ratings. Combined technical/risk evaluations will utilize the combined technical/risk ratings listed in the Technical Ratings Tables below.

Combined Technical/Risk Ratings Table

Adjectival Rating	Description
Outstanding	Proposal indicates an exceptional approach and understanding of the requirements and contains multiple strengths, and risk of unsuccessful performance is low.
Good	Proposal indicates a thorough approach and understanding of the requirements and contains at least one strength, and risk of unsuccessful performance is low to moderate.
Acceptable	Proposal meets requirements and indicates an adequate approach and understanding of the requirements, and risk of unsuccessful performance is no worse than moderate.
Marginal	Proposal has not demonstrated an adequate approach and understanding of the requirements, and/or risk of unsuccessful performance is high.
Unacceptable	Proposal does not meet requirements of the solicitation, and thus, contains one or more deficiencies, and/or risk of unsuccessful performance is unacceptable. Proposal is un-awardable.

Technical Risk Description Table

Type of Risk	Description
Low	Proposal may contain weakness(es) which have little potential to cause disruption of schedule, increased cost, or degradation of performance. Normal contractor effort and normal Government monitoring will likely be able to overcome any difficulties.

Mo der ate	Proposal contains a significant weakness or combination of weaknesses which may potentially cause disruption of schedule, increased cost, or degradation of performance. Special contractor emphasis and close Government monitoring will likely be able to overcome difficulties.
Hi gh	Proposal contains a significant weakness or combination of weaknesses which is likely to cause significant disruption of schedule, increased cost, or degradation of performance. Is unlikely to overcome any difficulties, even with special contractor emphasis and close Government monitoring.
Un acc ept abl e	Proposal contains a material failure or a combination of significant weaknesses that increases the risk of unsuccessful performance to an unacceptable level.

Definitions:

-

Significant Strength - An aspect of an Offeror's proposal with appreciable merit or will exceed specified performance or capability requirements to the considerable advantage of the Government during contract performance.

Strength - An aspect of an Offeror's proposal that has merit or exceeds specified performance or capability requirements in a way that will be advantageous to the Government during task order performance.

Weakness - A flaw in the proposal that increases the risk of unsuccessful task order performance.

Significant Weakness - A flaw that appreciably increases the risk of unsuccessful task order performance.

Deficiency - A material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful task order performance to an unacceptable level.

Risk - (as it pertains to source selection) The potential for unsuccessful task order performance. The consideration of risk assesses the degree to which an Offeror's proposed approach to achieving the Non-Price technical factor may involve risk of disruption of schedule, increased cost or degradation of performance, the need for increased Government oversight, and the likelihood of unsuccessful task order performance.

Uncertainty - any aspect of non-cost/price factor proposal for which the intent of the offer is

unclear (e.g., more than one way to interpret the offer or inconsistencies in the proposal indicating that there may have been an error, omission, or mistake)

Factor III: Past Performance

The past performance evaluation factor assesses the degree of confidence the Government has in an offeror's ability to meet the contract's requirements based on the quality of a demonstrated record of recent and relevant performance. There are three aspects to the past performance evaluation: recency, relevancy, and quality. These are combined to establish a single performance confidence assessment rating for each offeror. Past Performance Recency: Recency is the first aspect of the past performance evaluation and is the time period during which past performance references

are considered relevant. Recency is critical to establishing the relevancy of past performance information. For purposes of this solicitation, recent past performance is performance that has taken place within five (5) years as of the closing date of this solicitation, and each reference must also reflect one year of completed performance by the closing date of the solicitation. Performance outside of this stated period will not be considered for evaluation purposes. Past Performance Relevancy: Regarding relevancy, each past performance reference under each offeror's Past Performance submission will be evaluated to determine its scope and magnitude relative to the instant requirement. The following definitions will apply to this evaluation:

- Scope: Experience in the areas defined in the PWS.

Magnitude: The measure of the similarity of the dollar value of actually performed work that exists between the PWS and the offeror's referenced contracts during the stated five-year period established by the solicitation. In addition, performance data will only be assessed for those references demonstrating at least one (1) year of completed performance prior to the closing date of this solicitation. If an offeror submits an IDIQ contract, FSS contract, or BPA itself as a reference, only the dollar value of orders actually awarded in the past five (5) years will be considered when assessing magnitude. The contract maximum or ceiling will not be considered in the magnitude assessment.

~~Magnitude: The measure of the similarity of the dollar value of actually performed work that exists between the PWS and the offeror's referenced contracts during the stated five-year period established by the solicitation. In addition, performance data will only be assessed for those references demonstrating at least one (1) year of completed performance prior to the closing date of this solicitation. If an offeror submits an IDIQ contract, FSS contract, or BPA itself as a reference, only the dollar value of orders actually awarded in the past five (5) years will be considered when assessing magnitude. The contract maximum or ceiling will not be considered in the magnitude assessment.~~

Each offeror's past performance references in terms of scope and magnitude will result in the assessed overall relevance of that offeror's past performance, and will result in a relevancy rating as outlined in Table 4 (Past Performance Relevancy Ratings Table), below. The relevancy rating assigned to each past performance reference will be considered in determining the weight to be given to that reference in the overall Past Performance Confidence Assessment. References determined to be "Not Relevant" will not be further considered. Similarly, the quality of performance under a past performance reference that has no relevance to the instant requirement will not be considered in the overall assessment of past performance confidence. In determining the rating for the past performance factor, past performance of greater relevancy will have more influence on the past performance confidence assessment than past performance of lesser relevance.

Past Performance Quality: The third aspect of the past performance evaluation is to establish the overall quality of the offeror's past performance. The Government will review all past performance information collected and determine the quality of the offeror's performance, including general trends and usefulness of the information, and will incorporate this into the performance confidence assessment. Past Performance Confidence Assessment: The overall assigned rating for Past Performance will be the Past Performance Confidence Assessment ratings in Table 3. The assignment of this rating will be based on the quality of the recent and relevant past performance and will consider the currency and relevance of the information, source of the information, context of the data, and general trends in contractor's performance.

The quality of performance under a past performance reference that has no relevance to the instant requirement will not be considered in the overall assessment of Past Performance Confidence. Evaluation will focus only on work already performed. Work yet-to-be performed and work prior the last five (5) years as of the closing date of this solicitation will not be considered. In addition, performance data will only be assessed for those references demonstrating at least one (1) year of completed performance prior to the closing date of this solicitation. In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available, the offeror may not be evaluated favorably or unfavorably on past performance. In this case, the offeror's past performance is unknown and assigned a performance confidence rating of "Neutral Confidence." Although an offeror that lacks recent, relevant past performance may not be rated favorably or unfavorably with regard to past performance, the Government may determine that a "Substantial Confidence" or "Satisfactory Confidence" past performance rating provides better value to the Government than a "Neutral Confidence" past performance rating.

In order to determine the quality of performance, the Government may utilize existing data sources, including the Past Performance Information Retrieval System (PPIRS), the Contractor Performance Assessment Reporting System (CPARS), the Federal Awardee Performance and Integrity Information System (FAPIS), the Electronic Subcontract Reporting System (eSRS), or other databases; communication with points of contact in the offeror's customer's organization, which could include private sector requirements and contracts personnel, Administrative Contracting Officers, Defense Contract Management Agency (DCMA) personnel, Procuring Contracting Officers, Contracting Officer's Representatives, and other Government activity requirements personnel. The Government may verify past performance information. The Government may contact some or all of the references provided, as appropriate, and may collect information through questionnaires, telephone interviews, and existing data sources. The Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources, including sources outside of the Government. This information will be used for the evaluation of past performance. This evaluation and rating is separate and distinct from the Contracting Officer's responsibility determination. The assessment of the offeror's past performance will be used as a means of evaluating the relative capability of the offeror and other competitors to successfully meet the requirements of the RFP.

NOTE: A rating of "Limited Confidence" for the past performance factor means that the offeror's proposal is not awardable without a change or changes to the offeror's proposal. A proposal that includes a "Limited Confidence" rating is considered to be susceptible to correction if the contracting officer determines that an exchange (pursuant to FAR 15.306) is appropriate and said exchange is conducted. A rating of "No Confidence" for the past performance factor means that the offeror's proposal is not awardable, is not susceptible to correction, and will not be further evaluated.

Rating	Description
Very Relevant	Present/past performance effort involved essentially the same scope and magnitude of effort this solicitation requires.
Relevant	Present/past performance effort involved similar scope and magnitude of effort this solicitation requires.
Somewhat Relevant	Present/past performance effort involved some of the scope and magnitude of effort this solicitation requires.
Not Relevant	Present/past performance effort involved little or none of the scope and magnitude of effort this solicitation requires.

Past Performance Confidence Assessment Ratings Table

Rating	Description
Substantial Confidence	Based on the Offeror's recent/relevant performance record, the Government has a high expectation that the Offeror will successfully perform the required effort.
Satisfactory Confidence	Based on the Offeror's recent/relevant performance record, the Government has a reasonable expectation that the Offeror will successfully perform the required effort.
Neutral Confidence	No recent/relevant performance record is available, or the Offeror's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The Offeror may not be evaluated favorably or unfavorably on the factor of past performance.
Limited Confidence	Based on the Offeror's recent/relevant performance record, the Government has a low expectation that the Offeror will successfully perform the required effort.
No Confidence	Based on the Offeror's recent/relevant performance record, the Government has no expectation that the Offeror will be able to successfully perform the required effort.

--	--	--

Note: A rating of "Limited Confidence" for the past performance factor means that the Offeror's proposal is not awardable without a change or changes to the Offeror's proposal. A proposal that includes a "Limited Confidence" rating is considered to be susceptible to correction if the contracting officer determines that an exchange is appropriate and said exchange is conducted. A rating of "No Confidence" for the past performance factor means that the Offeror's proposal is not awardable and is not susceptible to correction.

Factor IV - Small Business Participation Plan

The Contracting Officer will evaluate the Small Business Participation Plan as follows:

- The extent to which small business concerns are specifically identified;
- The extent of commitment to use small business concerns (for example, enforceable commitments will be weighted more heavily than non-enforceable ones);
- Past performance of the offerors in complying with requirements of the clauses at FAR 52.219-8, Utilization of Small Business Concerns, and 52.219-9, Small Business Subcontracting Plan.
- The extent of participation of small business concerns in terms of the value of the total acquisition.

The offeror's small business participation plan factor will be assigned a rating shown in the "Small Business Participation Plan Ratings Table" below.

Small Business Participation Plan Ratings Table

Adjectival Rating	Description
Outstanding	Proposal indicates an exceptional approach and understanding of the small business objectives.
Good	Proposal indicates a thorough approach and understanding of the small business objectives.
Acceptable	Proposal indicates an adequate approach and understanding of small business objectives.
Marginal	Proposal has not demonstrated an adequate approach and understanding of the small business objectives.
Unacceptable	Proposal does not meet small business objectives.

Evaluation of Factor V: Price

For the purpose of preparing a price proposal, the contractor shall assume that the basic period of performance will be one (1) 5-year ordering period and a six (6) month option period in accordance with FAR 52.217-8 option to extend. The Government will evaluate the price proposal for the 5-year ordering period and of FAR 52.217-8 option to extend.

The Offeror's proposed price will be evaluated on the basis of price reasonableness. The evaluation method is at the discretion of the Contracting Officer.

Options, to include FAR 52.217-8, will be evaluated pursuant to solicitation provision FAR 52.217-5, Evaluation of Options. The Government will evaluate proposals for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that a proposal is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

-

Evaluation of Travel

The dollar values provided in Addendum FAR 52.212-1, Section I, Volume II: Factor IV - Price Proposal, in regard to Travel have been predetermined by the acquiring command and shall be utilized for evaluation purposes in determining the total price for the contract(s).

Evaluation of ODC/Materials

The dollar values provided in Addendum FAR 52.212-1, Section I, Volume II: Factor IV - Price Proposal, in regard to ODC/Materials have been predetermined by the acquiring command and shall be utilized for evaluation purposes in determining the total price for the contract(s).

Offerors responding to this solicitation are advised that, prior to award, the government may request Offerors to submit information/data to support price reasonableness such as copies of paid invoices for the same or similar items, sales history for the same or similar items, price list with effective date and/or copies of catalog pages along with any applicable discounts. Failure to submit the requested information may result in disqualification of the submitted proposal.

A written notice of award or acceptance of a proposal e-mailed or otherwise furnished to the successful Offeror within the time for acceptance specified in the proposal shall result in a binding task order without further action by either party.

Small Business Subcontracting Plan (Other than Small Businesses ONLY; Not an Evaluation Factor)

The contracting officer will negotiate an acceptable small business subcontracting plan if the apparent successful offeror is a large business concern in accordance with FAR 19.702(a)(1). Failure to negotiate an acceptable subcontracting plan will make the offeror ineligible for the award.
