Training Simulation Software / Training Management Tool (TSS/TMT)

Provides the capability to conduct multi-echelon Combined Arms Maneuver Training in support of Multi-Domain Operations. TSS generates a complex operational environment, delivered at the point of need. TMT is an intuitive tool that allows Soldiers to plan, prepare, execute, and assess training objectives.

Features:

- Modular Open System Approach. Soldier Centric
- Distributed Event Streaming Platform
- Web Services & Data Serialization
- Game and browser 3D Rendering
- Augmented and Virtual Reality
- CGF Behavior Service
- Micro services Architecture
- Continuous Integration / Continuous Deployment (CI/CD)

ACQUISITION STRATEGY

- Competitive
- Contract Type: Other Transaction Authority (OTA)

CURRENT CONTRACT/ORIGINAL DEVELOPER/OEM (IF RECOMPETE)

- Cole Engineering Services, Incorporated (CESI)
- Other Transaction Authority (OTA)

PERIOD OF PERFORMANCE

- Anticipated 1-Year Base, 4-Year Options

FUNDING

- Mission – RDTE, OMA
- Estimated Value: \$250M

Soldier Virtual Trainer (SVT)

SVT will provide individual Weapon Skills Development (WSD) and enables Joint Fires training (JFT). The SVT is enabled by the Synthetic Training Environment (STE) and is a virtual immersive trainer that combines and integrates several individual Soldier training capabilities. The WSD provides immersive capability to meet individual/crew weapons training. The JFT provides certification and qualification of Joint Fires Observers (JFO).

SVT aims to establish a vendor marketplace/catalog to streamline procurement of training solutions for Army units.

ACQUISITION STRATEGY

- Competitive
- Contract Type: Other Transaction Authority (OTA) or FAR based

Games For Training (GFT)

Games for Training (GFT) prepares Soldiers and Leaders for executing Unified Land Operations by delivering robust training and mission rehearsal capabilities. GFT provides an adaptable training environment supporting Company and below courseware on a suite of 53 networked computers. GFT has fielded 113 suites to 74 sites, satisfying Active, National Guard, and Army Reserves' educational requirements in the Operational, Institutional, and Self-Development Training Domains with a low-overhead, flexible, persistent training capability on geo-specific and geo-typical terrain that is relevant with all military platforms and weapon systems.

This contract will address COTS software Procurement, Fielding, and Sustainment.

- Modular Open System Approach. Soldier Centric
- Semi-immersive training environment
- Game and browser 3D Rendering

Persistent Cyber Training Environment (PCTE) Cyber Innovation Challenge (CIC) #5

Objective

- Decrease **Time** to Produce and Present Training
- Increase Training **Quality**

Driving Requirements

- Leverage emerging technologies to assist in human-centric tasks
- Streamline routine tasks, reduce processing time, and increase productivity
- Enhance current capabilities and provide new insights about platform performance

Vision

- Highly advanced PCTE platform that enhances the user experience while minimizing the need for direct human involvement
- Leverage advanced technologies to create a seamless experience.
- More efficient, user-friendly platform that enhances productivity, while reducing the workload on human operators.

ACQUISITION STRATEGY

- Enhance and address PCTE training platform needs through a continued multi- vendor best-of-breed integrated capability
- Requests for Solutions for individual AI/ML efforts

CURRENT CONTRACT/OEM (IF RECOMPETE)

- Current contract does not exist. Future contract will be an OTA.
- RFS 1 (Help Desk) and RFS 2 (Traffic Generation) currently in down-select
- Anticipated ACC: ACC-Rock Island

PERIOD OF PERFORMANCE

- Anticipated PoP begins in 2Q/3Q FY26
- Potential follow-on production OTA for future capability releases

FUNDING

- Research, Development, Test & Evaluation (RDT&E)
- Total Value: NTE \$100M

Live Training Ranges, and Combat Training Centers (LTRaC)

Multiple Award Contract (MAC) 2

The work to be performed under Live Fire Targets Production Line Management will consist of:

- Logistics & Depot Support: Establish a depot for spare parts (Basic Army Target Lifters (BATL), Trackless Moving Targets (TMT), cameras, radios) to efficiently fulfill orders from ranges.
- Configuration Management: Maintain "Golden Targets" baselines, the Basic Army Target Lifters Technical Data Package (TDP), firmware, manuals, and New Equipment Training (NET) materials.
- Integration & Data Management: Provide cybersecurity & range integration support and develop a centralized database to track Basic Army Target Lifters data and range configurations.

Not-to-Exceed Ceiling Amount for all Orders awarded under the Live Training Ranges and Combat Training Centers Multiple Award Contract 2: \$344,119,306
Multiple Award Contract Ordering Period: 27 November 2024 - 26 November 2032

Live Fire Targets Product Line Management FY 25 - 26 Delivery Orders

Task Order 3 Future Army System of Integrated Targets / Basic Army Target Lifters Production Line Management

- Manage the Gov's BATL and RF Tech Data Package
- Technical Manuals and NET Docs and help desk
- Obsolescence management of the BATL systems and Thermal cams.
- ~ \$4M / FY (~\$20M total) – 1 year base award and 4 option years

Delivery Order Basic Army Target Lifters Radio Frequency Technical Data Package Production

- Government provided Technical Data Package for Radio Frequency solution
- Produce and install the RF systems for all wireless ranges planned under Multiple Award Contract 1
- ~ \$To Be Determined / FY

Delivery Order Battlefield Effect Simulators

- Battlefield Effect Simulator Production
- FY26 – FY 30 ~ 300 units
- ~ \$2M - \$3M/FY

FY 27- FY 30 Future Delivery Orders

Delivery Order Future Army System of Integrated Targets IT Equipment Continuous Technical Refresh

- 200 Targetry Range Automated Control Recording II & 10 Targetry Range Automated Control Recording II Suite ranges / year
- \$ 3M / Year
- Award every other year starting in FY27 \$13M

Delivery Order Location of Miss and Hit

- 2 Ranges at Fort Jackson
- ~ \$1.5M/ FY

Delivery Order Digital Range Target Systems Tier 1 Continuous Technical Refresh

- Update all Integrated Player Units Recorders
- 2 Ranges
- ~ \$1.4M/FY

Threat Systems Operations, Maintenance Integration Support (TSOMIS III)

Objective

- TSOMIS III provides support to Army Assured Positioning, Navigation, and Timing (APNT) missions and support to the TSMO threat fleet of capabilities across Army Test, Training and Combat Training Center events.

Driving Requirements

- APNT support
- Threat Operations fleet sustainment and support
- Army T&E threat readiness and operational availability
- Support to test and training events at Army and DoD ranges

Vision

- Deliver world-class readiness, operational availability, operations, maintenance, and sustainment support to TSMO threat fleet of systems.

ACQUISITION STRATEGY

- Enhance the Test and Training support operations, maintenance, and sustainment of the TSMO threat fleet.
- Provide O&M technical SMEs, operators, and planners in support of Army T&E and training events.

CURRENT CONTRACT/OEM (IF RECOMPETE)

- Recompete for legacy, new threat types, and services.
- Current OEM: Test LLC
- Current ACC: ACC-Redstone

Test Enterprise Network Modernization (TENM)

Objective

- Encompasses the requirements and acquisition approach for the networking efforts of the following projects:
 - Test Network Modernization (TNM)
 - ATEC Fiber Modernization (AFM)
 - Future Wireless Network (FWN)

Driving Requirements

- TNM applies enterprise solutions to replace, modernize, and protect existing ATEC test network equipment to meet evolving cybersecurity and increased bandwidth requirements.
- AFM provides 6 developmental test centers and 5 operational test locations with a revitalized fiber network infrastructure to complement the TNM project by providing greater data throughput, increased reliability and redundancy.
- FWN will complement the AFM project by leveraging existing and developmental wireless capabilities to the maximum extent possible to offer greater test coverage areas.

ACQUISITION STRATEGY

- Enterprise approach to modernize network infrastructure across ATEC Developmental Test Centers and Operational Test locations.
- Competition: Team is currently conducting Market Research. Industry days / One-on-ones will be provided.

CURRENT CONTRACT/OEM (IF RECOMPETE)

- This is a new Indefinite Delivery, Indefinite-Quantity (IDIQ) Government-wide Acquisition Contract (GWAC) through ACC-Orlando.

PERIOD OF PERFORMANCE

- Begins in FY26. 1 year base; 4 option years.

FUNDING

- Dollar value will vary based on site.
- Research, Development, Test & Evaluation.
- Total Value: =\$400M
