

NASA Armstrong maintains and flies a Gulfstream V (GV) aircraft where we hold the responsibility of maintaining airworthiness and proper maintenance. The GV requires testing of fuel quantity which requires the use of an appropriate test kit. Per the aircraft maintenance manuals this requires the need of part number 1159GSE50575-255 to check the appropriate systems are functioning correctly.

This part shall be delivered to the following address **15 days after award**:

**NASA Armstrong Flight Research Center
Lilly Drive Bldg. 4876 Warehouse #6
Edwards, CA 93524**
