

**Justification for Other than Full and Open
Competition United States Department of
Agriculture
Federal Acquisition Regulation (FAR) Part 6.3**

1. Identification of the agency and the contracting authority

Requesting Activity:

USDA APHIS VS NBAF
1200 Kretschmer Drive
Manhattan KS 66502

Contracting Agency:

USDA APHIS MRPBS AAMD
Marquette Ave
Suite 410
Minneapolis
MN 55401

2. The nature and/or description of the action being approved

This is a sole source justification to create a subscription service contract for American National Standards Institute (ANSI), with the purpose of ISO Standards Library access, and the purchasing of electronic standards. Attached in Appendix A.

3. A description of the supplies of services required to meet the agency's needs (including the estimated value)

This contract encompasses the provision of a service block consisting of seventy-five (75) ISO standards, along with additional standards, including ANSI/ISEA, DS/ISO, NFS/ANSI, and SMACNA standards. The agreement also includes access to and use of the ISO Library standards, with the option to obtain electronic additions and purchase hard copy materials as needed.

Upon reaching the seventy-five (75) standard limit, additional ISO standards may be purchased separately. Such additional purchases shall be invoiced by ANSI and paid in accordance with the payment provisions of this Agreement.

4. The statutory authority permitting other than full and open competition

41 U.S.C. 3304(a)(1), as implemented by FAR 6.302-1, titled "Only one responsible source and no other supplies or services will satisfy agency requirements."

5. A statement demonstrating the unique qualifications of the proposed contractor or the nature of the action requiring the use of the authority

American National Standards Institute (ANSI) serves a global client base; they are uniquely positioned to provide expedited services for all NBAF requirements. NBAF will have direct access to current and updated ISO standards, as well as comprehensive customer support through ANSI.

Given these capabilities, no other organization is presently suitable to deliver the required service and support. By procuring services directly from ANSI, NBAF ensures reliable delivery of certified standards and timely updates necessary for maintaining ISO compliance.

6. A description of efforts made to ensure offers are solicited from as many potential sources as is practicable

No other provider offers a comprehensive service package that includes a block of seventy-five (75) ISO standards, along with the additional standards specified (ANSI/ISEA, DS/ISO, NFS/ANSI, and SMACNA). This agreement further provides the option for additional purchases, complimentary updates, and full access to the ISO Standards Library. Additionally, same-day service will be available to NBAF, ensuring timely and uninterrupted support.

7. A determination by Contracting officer that the anticipated cost to the government will be fair and reasonable

The USDA, APHIS, has procured similar services for many years, providing the agency with historical pricing data that will be utilized to assess price reasonableness. No contract will be carried out until the contractor's proposed price has been evaluated and determined to be fair and reasonable in accordance with applicable federal acquisition regulations.

8. A description of the market research conducted, and the results or statement of the reason Market research was not conducted

Market research was conducted, and no sources were found. Market research was conducted by the technical point of contact.

9. Any other facts supporting the use of other than full and open competition

This requisition covers the access, purchase, and ongoing updates to all ISO standards. At present, there are no third-party providers capable of delivering these services, making the selected provider the sole source of this requirement.

10. A listing of the sources, if any, that expressed a written interest in the acquisition

No suitable company has expressed interest in writing this project.

11. A statement of actions, if any, the agency may take to remove or overcome any barriers to competition if subsequent acquisitions are anticipated.

We do not foresee any competition for the time being.

Certifications & Approval

Supporting data which form the basis for and included in this justification are certified accurate and complete.
