Hardware/Software Requirement

This is a non-personal services contract to provide Bloomberg terminals and licenses. The Government shall not exercise any supervision or control over the service providers performing the services herein. Such service providers shall be accountable solely to the Contractor who, in turn is responsible to the Government.

1. BACKGROUND

The Defense Intelligence Agency's (DIA) Office of Counterintelligence, Supply Chain Risk Management-Threat Analysis Center (SCRM-TAC), requires licenses with B-unit terminals to The Bloomberg Suite to strengthen national security in regards to the supply chain for analytic production and research. The use of Bloomberg enables SCRM-TAC to assess the capability and intent of foreign intelligence adversaries to compromise, exploit, or sabotage critical DoD supply chains, technologies, or programs.

2. OBJECTIVE

This effort entails the purchase of annual term-based licenses with B-unit terminals to the Bloomberg Suite to supplement DIA analysts in analytic production and research.

3. SCOPE

It is the overall objective for DIA to maximize the Bloomberg Suite via term-based licenses to supplement analytic production and research as related to SCRM-TAC's and DIA's overall mission.

4. SPECIFIC REQUIREMENT

The contractor shall provide Bloomberg (B-unit terminals) Anywhere terminals based on purchased licenses for Government use for personnel to have simultaneous access to all the services required. In addition to B-units, contractor shall provide continuous technical support for access to the subscribed services, maintenance, defective equipment, and version functionality upgrades. Product serial/SKU Numbers are TBD. Upon award, units and serial numbers will be provided for Security clearance. B-Unit Terminals should be included in the total cost of the licenses. Terminals should not incur any handling fees or restock fees.
