The Government will evaluate the Management Plan to determine the extent to which it demonstrates an overall likelihood of successful performance.

Offerors must submit the Technical Capability Statement. To be considered, this document must be completed, signed, and submitted in accordance with the requirements.

Risk, as it pertains to source selection, is the potential for unsuccessful contract performance. FAR Clauses Incorporated by Full Text

52.212-2 Evaluation-Commercial Products and Commercial Services. (Deviation)

(Feb 2026)

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation)

(a) Evaluation factors. The Government will award a contract resulting from this RFQ to the responsible vendor whose proposal, in full compliance with the RFQ, is deemed most advantageous to the Government, considering price and other factors. The following factors shall be used to evaluate offers:

Technical

Past Performance

Price

The Government intends to evaluate proposals and award based on initial proposals. Therefore, the Offeror's initial proposal should contain the Offeror's best terms from a cost/price standpoint. The Government intends to award a Firm Fixed Price (FFP), single-award contract covering a base year with two (2) option years.

In accordance with FAR 15.101-2, an award will be made to the responsible offeror who receives an acceptable rating in technical and past performance and provides the lowest evaluated price, representing the best value to the Government.

Offerors who fail to possess the required technical capability will not be considered for award and the other elements of their offer will not be evaluated.

The Government also reserves the right to not award a contract if a contract award is not in the best interest of the Government.

TECHNICAL CAPABILITY: The Government will evaluate the offeror's technical capability as either acceptable, or unacceptable, based on their submission of a Management Plan and completed Technical Capabilities Statement.

Technical Capability will be evaluated to determine an overall rating of "Acceptable" or "Unacceptable".

Adjectival Rating	Description
Acceptable	Proposal meets the requirements of the solicitation.
Unacceptable	Proposal does not meet the requirements of the solicitation.

-

PAST PERFORMANCE: The Government will assess the degree of confidence it has in each offeror's ability to perform the services described in the Statement of Work based on the offeror's demonstrated record of past performance.

That degree of confidence will be assessed based on the relevance of the offeror's past performance and the recency of that past performance.

Relevance is determined by those aspects of an Offerors history of contract (or subcontract) performance that would provide the most context and give the greatest ability to measure whether the Offeror will successfully satisfy the current requirement.

Recency is generally expressed as a time period during which past performance references are considered relevant, and is critical to establishing the relevancy of past performance information. Per Addendum to FAR 52.212-1, Offerors shall provide Past Performance references from the past five (5) years from the closing date of the solicitation.

In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.202 (c)). Therefore, the offeror shall be determined to have unknown past performance.

Adjectival Rating	Description
Acceptable	Based on the offeror's performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort, or the offeror's performance record is unknown (see note above).
Unacceptable	Based on the offeror's performance record, the Government does not have a reasonable expectation that the offeror will be able to successfully perform the required effort

PRICE

The Government will evaluate the Offeror's proposed price to determine price reasonableness in accordance with FAR 12.

The Government will multiply the estimated quantities provided in the schedule by the unit pricing proposed to determinate the estimated amount for each line item.

The estimated amount for each line item will then be added together to determine the total estimated price which will become the evaluated price.

The vendor's proposed price will be evaluated on the basis of price reasonableness. All prices must be considered fair and reasonable as determined by the Government. Price quote shall be held firm and valid for 90 days.

(b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.
