Basis For Decision That Only One Source Is Available

BRAND NAME OEM SOF SURFACES INC. Durasound Premium XT rubber acoustic tile is the only commercially available product specifically made for gym spaces and fitness facilities identical to the three areas on-board the [REDACTED] in which the tile will be utilized, and in addition, has successfully completed performance testing in accordance with T9640-AC-DSP-010/Rev 01, Shipboard Habitability Design Criteria and Practices Manual of 21 Dec 16, and MIL-STD-1623 REV E W/CHANGE 1, Fire Performance Requirements and Approved Specifications for Interior Finish Materials and Furnishings – 19 April 10.

In addition, BRAND NAME OEM SOF SURFACES INC. Durasound Premium XT rubber acoustic tiles reduce noise from weights dropping by up to 40 decibels and the hollow core impact-pedestal design is engineered to distribute force from impacts. These features are important due to the gym spaces being above or around other working spaces on the ship. Further, Durasound Premium XT rubber acoustic tiles deliver a non-porous, anti-slip resilient wear layer that prevents sweat, moisture and other contaminants from penetrating into the tile system.

OEM SOF SURFACES INC. indicated it could authorize the sale of this product through a distributor: [REDACTED]
