## Catalog No. SKWR12XG

**Description:** RECPT WT 12W 11

**UPC No** 708917167877

**Home > Connectivity & Grounding > Russellstoll > Electrical sleeves**

Watertight Receptacle, 11 Pole 12 Wire

### Descriptors

|                  |                                                                                                                                                                                                                                        |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Category         | Electrical sleeves                                                                                                                                                                                                                     |
| Special Features | Watertight and oil tight                                                                                                                                                                                                               |
| Application      | Designed for outdoor NEMA 4, rough service and critical environment machinery, HVACR systems, servo control and other automatic/controlled functions requiring rugged, shock-resistant devices capable of safely breaking rated loads. |

### Specifications

|          |                                                                                   |
|----------|-----------------------------------------------------------------------------------|
| Material | Receptacle housing made of cast aluminum, corrosion-resistant, copper-free alloy. |
|----------|-----------------------------------------------------------------------------------|

### Classifications
