

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT		BPA NO.	1. CONTRACT ID CODE	PAGE 1	OF 6	PAGES
2. AMENDMENT/MODIFICATION NUMBER 0002		3. EFFECTIVE DATE 03-11-2026		4. REQUISITION/PURCHASE REQ. NUMBER		
5. PROJECT NUMBER (if applicable)						
6. ISSUED BY Federal Election Commission Attn: Office of the CFO 1050 First Street NE Washington DC 20002		CODE 9531BP	7. ADMINISTERED BY (If other than Item 6) Federal Election Commission Attn: Office of the CFO 1050 First Street NE Washington DC 20002		CODE 9531BP	
8. NAME AND ADDRESS OF CONTRACTOR (Number, street, county, State and ZIP Code) To all Offerors/Bidders		(X)		9A. AMENDMENT OF SOLICITATION NUMBER 9531BP-26-RFI-0001		
		☒		9B. DATED (SEE ITEM 11)		
		☐		10A. MODIFICATION OF CONTRACT/ORDER NUMBER		
				10B. DATED (SEE ITEM 13)		
CODE		FACILITY CODE				
11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS						
☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☒ is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.						
12. ACCOUNTING AND APPROPRIATION DATA (If required)						
13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.						
CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.					
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).					
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:					
☐	D. OTHER (Specify type of modification and authority)					
E. IMPORTANT: Contractor ☐ is not, ☐ is required to sign this document and return _____ copies to the issuing office.						
14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.) The purpose of this amendment is to provide answers to questions received in response to the RFI. See page 2 for questions and answers. All other terms and conditions remain unchanged. Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.						
15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Raven Childs				
15B. CONTRACTOR/OFFEROR (Signature of person authorized to sign)		15C. DATE SIGNED		16B. UNITED STATES OF AMERICA (Signature of Contracting Officer)		16C. DATE SIGNED

Federal Election Commission
RFI # 9531BP-26-RFI-0001
IT Support Services

Questions and Answers

Q1. RFI Page 2, Section 1.1 Description:

Is there an incumbent contractor currently performing these or similar IT support services for the Enterprise Architecture? If so, could the Government please provide the current contract number and incumbent name?

A1: See Amendment 0002, Section 1. The incumbent contractor is Tygart Technology, Inc. under contract # GS-35F-0619V/9531BP21F0015

Q 2. RFI Page 4, Section 3.2.5 Price estimate:

To provide the most accurate price estimate for this Firm-Fixed-Price requirement, could the Government provide historical metrics regarding the Level of Effort (LOE)? Specifically, what is the historical average of monthly Jira tickets, unscheduled requests, and concurrent active development tracks across the application suites?

A2: During the past 12 months, the average number of tickets per month was 226 with nearly 58% of the tickets being for the Disclosure Applications and RAD Modules.

Q 3. Attachment 1 - Draft Requirements, Page 1, Section C.3 Scope: The Place of Performance is listed as 1050 First Street NE, Washington DC. Will the Government allow for remote or hybrid work for the development and maintenance team, or is 100% on-site presence required?

A3: See Amendment 0002, Section 2.3. The FEC anticipates 100% remote work.

Q 4. Attachment 1A - Searchable Legal Systems, Page 2, Architecture:

The architecture documentation notes that the Database tier currently uses Amazon RDS (Oracle 11g) and "Will migrate to Amazon Aurora PostgreSQL". Furthermore, multiple applications rely on "Oracle stored procedure". Is this migration project (including the refactoring of Oracle stored procedures into PostgreSQL) part of the scope of this resulting contract, or is this migration being handled separately prior to award?

A4: See Amendment 0002, Attachment 1, Section C.3. This selected vendor will be expected to finish the work started by the current vendor.

Q 5. Attachment 1 - Draft Requirements, Page 7, Section C.4.15 Quality Assurance Surveillance Plan (QASP):

The Acceptable Quality Level for tested code states there must be a "Minimum of 85% test coverage of all code". Does the existing codebase currently meet this 85% threshold, or will the incoming contractor inherit technical debt and be expected to write retroactive tests to achieve this metric?

A5: The current code base does not meet the 85% threshold. The incoming vendor will not be expected to write retroactive tests to achieve this metric.

Q 6. Attachment 1C - RAD Modules, Page 8, Architecture:

The architecture specifies the use of "IBM Domino Server located in Microsoft Hyper-V" and older frameworks such as ".NET 4.0". Are there ongoing or planned initiatives to modernize these specific legacy components to cloud-native technologies, or is the scope for these components strictly limited to "as-is" maintenance?

Federal Election Commission

RFI # 9531BP-26-RFI-0001

IT Support Services

Questions and Answers

A6: The work will primarily support “as-is” operations and maintenance, including applying necessary patches and updates to ensure system stability and security. Occasionally, these applications must be updated to meet the new specifications as legislative, regulatory and policy requirements change.

Q 7. Attachment 1 - Draft Requirements, Page 9, Section C.4.15 Quality Assurance Surveillance Plan (QASP):

The Security performance standard mentions that dependencies are scanned with tools "such as Snyk and npm audit" and static code analysis uses passive scanning with tools "such as OWASP ZAP". Will the Government provide the enterprise licenses and infrastructure for these specific DevSecOps CI/CD tools, or should the contractor include the cost of these tool licenses in their price estimate?

A7: The government will provide necessary scanning tools.

Q 8. Attachment 1A - Searchable Legal Systems, Page 5, Environment and Shared Responsibilities:

The requirements state that upon completion of development and testing in development servers, contractors "must provide detailed instructions to DBA or System Administrator for Test or Production Deployment". To help us understand the delivery lifecycle, what is the average turnaround time for the FEC System Administrator to execute a deployment once the contractor submits the Request for Change (RFC) and deployment instructions?

A8: RFCs are approved weekly. After approval, the implementation process usually takes one or two days.

Q 9. Attachment 1A - Searchable Legal Systems, Page 3, Availability and Service Level Agreement (SLA):

The SLA requires that "Critical bugs or Urgent issues must be acknowledged within 2 hours and assign resources to fix it or find temporary workaround within 12 hours". Do these SLA response times apply 24/7/365, or do they only apply during standard Government business hours?

A9: The SLAs only apply to standard government business hours. The FEC’s standard business hours are Monday through Friday between 8:00 a.m. and 5:30 p.m. (ET).

Q 10. Attachment 1 - Draft Requirements, Page 3, Section C.4.1 General Performance:

Given that the contractor will be handling mission-critical, public-facing applications and agency data, what are the specific background investigation or security clearance requirements (e.g., Public Trust) for contractor personnel?

A10: Public Trust

Q 11. Core Infrastructure (AWS & Environments):

The requirements state that "All Application Branch applications are deployed in the FEC's AWS cloud environment" and that all servers for Development, Test, and Production "should be built by FEC System Administrator". Can the Government confirm that the FEC covers all AWS infrastructure, hosting, and operating system licensing costs for all environments, and that the contractor is not required to price in any separate development or testing sandboxes?

A11: The government confirms the FEC covers all AWS infrastructure, hosting, and operating system licensing costs for all environments.

Q 12. Database (Oracle & PostgreSQL):

The architecture documentation for the Searchable Legal Systems notes that the database tier currently uses Amazon RDS (Oracle 11g) and "Will migrate to Amazon Aurora PostgreSQL (with Enterprise License)". Will the Government provide,

Federal Election Commission

IT Support Services

Questions and Answers

hold, and fund the Enterprise License for Amazon Aurora PostgreSQL (as well as the existing Oracle COTS licenses), or must the contractor include database licensing costs within their Firm-Fixed-Price estimate?

A12: The government will provide, hold, and fund the Enterprise License for Amazon Aurora PostgreSQL (as well as the existing Oracle COTS licenses).

Q 13. Issue Tracking & CI/CD (Jira, GitHub, Jenkins):

The contractor is required to "Use Jira and GitHub to track Issues" and utilize "CI/CD (currently in Jenkins)" for code compiling and security scanning. Will the FEC provide the contractor's development team with the necessary user licenses/seats to access the agency's existing enterprise instances of Jira, GitHub, and Jenkins, or is the contractor required to procure their own licenses to fulfill this requirement?

A13: The FEC provides the necessary user licenses/seats.

Q 14. Informatica:

The solicitation requires an Informatica tool expert to "patch and upgrade the agency's Informatica servers and maintain, modify and create new mappings". Because this is listed as a COTS application, can the Government explicitly confirm that the FEC owns and maintains all necessary Informatica software licenses, and that the contractor is only responsible for the labor (administration/expertise) rather than procuring any Informatica licensing?

A14: The government confirms that the FEC owns and maintains all necessary Informatica software licenses.
