

**PERFORMANCE WORK STATEMENT (PWS)
ISO 17025:2005 LABORATORY ACCREDITATION REQUIREMENTS,
Redstone Arsenal**

1.0. BACKGROUND. The U.S. Army Test, Measurement and Diagnostic Equipment Activity (USATA) located at Redstone Arsenal, Alabama has a requirement to procure specialized, professional audit and accreditation-related services required for the formal accreditation to ISO/IEC 17025 quality standards of the following USATA TMDE Support Centers (TSC) located at:

<u>Location</u>	<u>Accreditation Audit Action Required</u>
Redstone Arsenal (APSL)	Renewal Assessment & Annual Review

Continued accreditation is required to meet international quality standards for USATA's metrology and calibration laboratories. Audit and accreditation shall be performed by an Institution with the authority to assess each laboratory in accordance with ISO 17025 standards. This service includes an on-site audit at each location by subject matter experts employed by the contractor with the purpose of accrediting each TMDE Support Center calibration laboratory identified above.

2.0. CONTRACTOR TASKS.

2.1 The Contractor shall be recognized by the International Laboratory Accreditation Cooperation (ILAC). The Contractor shall provide all labor, materials and travel required to complete ISO 17025 accreditation requirements at each location.

2.2 TASKS FOR Applied Physical Standards Laboratory(APSL).

2.2.1 Renewal Assessment and Annual Review . This assessment will include a review and updating of existing Scope of Accreditation for the US Army TMDE Support Center at Redstone Arsenal, AL with issuance, and renewal of the existing APSL accreditation to the ISO/IEC 17025:2017 international quality standard for metrology and calibration laboratories. This requirement includes an Annual review for the year 2026. The period of performance (certification) shall cover, from date of contract award, three full calendar years ending on the anniversary date (from award) in 2026.

2.2.2 As part of the certification process, APSL shall provide the Contractor with documentation, as appropriate for the task, evidencing that laboratories and laboratory personnel meet ISO/IEC 17025:2017 certification standards. The Contractor shall be tasked to review, evaluate and audit the government's documentation. The Contractor shall apply the documentation to APSL's Scope of Accreditation for the period of accreditation as described above. Processes shall be in accordance with established Contractor Renewal Assessment and Annual Review requirements and policies.

3.0 PLACE OF PERFORMANCE. The place of performance shall be at government facilities located as follows:

3.1 US Army Applied Physical Standard Laboratory (APSL), located at Building 5435 Fowler Road, Redstone Arsenal, AL.

4.0. CONTRACT DELIVERABLES.

5.1. Report of Audit Findings (per site).

5.2. Certificate of Accreditation (per site).

6.0. PERIOD OF PERFORMANCE. See Section B of the contract.

7.0. QUALITY REQUIREMENTS: Not applicable.

8.0. GOVERNMENT FURNISHED PROPERTY: None.

9.0 ACCESS AND GENERAL PROTECTION/SECURITY POLICY AND PROCEDURES.

This standard language is for contractor employees with an area of performance within an Army controlled installation, facility, or area. Contractor and all associated subcontractors employees shall provide all information required for background checks to meet installation access requirements to be accomplished by installation Provost Marshal

Office, Director of Emergency Services or Security Office. Contractor workforce must comply with all personal identity verification requirements (FAR clause 52.204-9, Personal Identity Verification of Contractor Personnel) as directed by DoD, HQDA and/or local policy. In addition to the changes otherwise authorized by the changes clause of this contract, should the Force Protection Condition (FPCON) at any individual facility or installation change, the Government may require changes in contractor security matters or processes.

9.2 FOR CONTRACTORS THAT DO NOT REQUIRE A CAC, BUT REQUIRE ACCESS TO A DOD FACILITY OR INSTALLATION. Contractor and all associated subcontractor employees shall comply with adjudication standards and processes using the National Crime Information Center Interstate Identification Index (NCIC-III) and Terrorist Screening Database (TSDB) (Army Directive 2014-05/AR 190-13), applicable installation, facility and area commander installation/facility access and local security policies and procedures (provided by government representative), or, at OCONUS locations, in accordance with status of forces agreements and other theater regulations.
