Puma DART

Puma DART

Deployable Aircrew Radio Terminal

Sierra Nevada Corporation's Tactical Communications team has taken the proven Puma Lite V3 design and incorporated a Harris PRC-158 to create a Deployable Aircrew Radio Terminal (DART). The DART is a multi-channel single-man-portable communications suite. It is designed to provide critical communications for airborne applications with SATCOM, Integrated Communications Systems (ICS) and Line of Sight (LOS) capability. The system provides 50 watts of RF power, integrated SATCOM diplexer/combiner and Low Noise Amplifiers for weak receive signals. The Puma DART is a highly versatile system ready to go wherever the mission requires.

Size, Weight & Power

- Case Size: 16.0" x 9.0" x 22.4" (LxWxH)
- System Weight: 45 lb
- Input Power: 28 VDC (400W Max.)
 - Optional Mil-Std wide range AC external power supply.

Connections

- Audio: 3x U-79/U 10-pin
- Antenna: Type N Female
- Power: D38999 Circular
- Charging: 4x USB Type A (5 VDC, 2.4 A)

Developing the future for those at the "Tip of the Spear."

Equipment

- Harris Falcon III® AN/PRC-158 Multi-Channel Radio
- Tricom Research TCR-MBA-50-WB Multi-Band RF Amplifier
- 2x SATCOM Diplexer/LNA
- Two-Way Combiner/Divider
- 2x Dual USB Charger
