Description:

The WESTPAC Purchase Program covers the annual bulk petroleum requirements for the Western Pacific and Middle East Regions (F76, JA1 both neat and with additives, and JP5). Delivery modes will be by tanker, shallow draft tanker, barge, tanker truck, railcar, and pipeline. FOB destination tanker offers will not be accepted. These requirements may increase during the delivery period and be met by supplemental solicitations tied to this procurement. Details of the requirements for this procurement are as follows:

Fuel, Naval Distillate (F76), NSN: 9140-00-273-2377, Purchase Program 1.1a
Estimated Quantity: 178,617,000 U.S. Gallons (USG)

Turbine Fuel, Aviation (JP5), NSN: 9130-00-273-2379, Purchase Program 1.1c
Estimated Quantity: 96,924,000 U.S. Gallons (USG)

Turbine Fuel, Aviation (JA1), NSN: 9130-00-753-5026, Purchase Program 1.1h
Estimated Quantity: 175,790,000 U.S. Gallons (USG) of which some USG requires additives

There will be no small business set asides on this procurement.

The Contracting Officer intends to establish a phased selection process after **the receipt of initial proposals**. Under this approach, only offerors that meet the following minimum requirements in Phase 1 will advance in the evaluation process:

- The Offeror is a refiner/manufacturer; or
- The Offeror provides a Letter of Supply Commitment that meets the standards set forth in L3 Supplement: Evidence of Responsibility; or
- The Offeror has successfully held a DLA Energy Bulk Petroleum Products contract within the past three (3) years.

If an offeror fails to pass Phase 1, they will be notified and no negotiations will be conducted with no opportunity to revise their proposal.

Delivery Period:

Under Purchase Program 1.1a, 1.1c, and 1.1h, the delivery period is from January 1, 2027, through December 31, 2027.

Solicitation Availability:

Please be advised that a hard copy solicitation will not be available.
