

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? ☐ Yes ☒ No

Contracting Activity: ACC-PKJ, AMIC

Project/Program Name: TONEX Certified C5ISR Specialist FY26 Training

Purchase Request / Local ID Number:

Estimated Contract Cost (including Options): [REDACTED]

Section B: Description of the Supplies/Services Required

(U) The action being processed is a sole-source contract award to Tonex for the delivery of the Certified C5ISR Specialist (CC5ISR-Spec) certification training. This training is specifically required to address the Government's need for integrated, cross-domain expertise in C5ISR, cyber, EW, space, and joint command-and-control operations. The training is aligned with the DoD's modernization efforts, including JADC2 (Joint All-Domain Command and Control) and multi-domain operational requirements.

(U) The service required is the delivery of the Certified C5ISR Specialist (CC5ISR-Spec) certification training, which focuses on integrated capabilities across C5ISR domains, including command, control, cyber, ISR, EW, space, and multi-domain operations. The training will be offered in in-person, virtual, or hybrid formats and tailored to meet the specific needs of military, civilian, and contractor personnel within DoD components.

(U) There is the potential that multiple years of this training will be needed to meet long term Government needs related to C5ISR.

Section C: Justification for Soliciting from a Single Source or Brand Name

(U) Their training is the only solution that addresses the Government's need for an integrated, cross-domain C5ISR training program. Tonex possesses unique qualifications, including:

- Exclusive expertise in C5ISR integration across multiple domains.
- Proven performance in delivering advanced training to defense and government agencies.
- Tailored, multi-domain, and joint operational focus not found in other offerings.
- Established certification framework aligned with DoD workforce development and readiness goals.

(U) Market research confirmed that Tonex is the only provider of the Certified C5ISR Specialist (CC5ISR-Spec) certification, which integrates the operational and technical domains of C5ISR into a unified program. Other vendors provide training in individual C5ISR domains, but none offer the integrated solution required by the Government.

(U) The statutory authority for this sole-source procurement is FAR 6.302-1(a)(2), which permits a sole-source award when only one responsible source is capable of fulfilling the requirement. In this case, Tonex is the only vendor offering the Certified C5ISR Specialist certification, a program that integrates multiple C5ISR domains into a single, cohesive training package, addressing a gap in existing training offerings.

Section D: Efforts to Obtain Competition

(U) Market research was conducted, and multiple vendors were evaluated for potential training services. However, none of the other vendors provide the integrated C5ISR training that Tonex offers, making Tonex the only responsible source

Single Source Justification (Simplified Acquisition)

for this requirement.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

(U) The Government will continue to monitor the training market for future opportunities to expand the pool of qualified vendors. However, given Tonex's unique position as the only provider for this specific C5ISR certification, it is unlikely that other vendors will be able to meet the necessary qualifications in the near future.

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
