2.0 BACKGROUND

This is a non-personal services contract to provide Contract Resource Management Support Services to implement a comprehensive monitoring and evaluation component that identifies improper payments thereby safeguarding TRICARE's funding and achieving cost savings to the program. Additionally, the contractor shall provide program management support and administrative services including studies and analysis, business process improvement and information management/program office support for the DHA/CRM E-Commerce program management office.

The CRM Branch provides superior budgetary, financial accounting, systems support, pharmacy refunds, and improper payment oversight for centrally funded PSC programs in support of the TRICARE Health Plan. PSC controls financial records and payments to Regional Managed Care Support Contractors (MCSC) and the CRM has a resolute mission to provide its services via a small and focused team. The DHA is committed to the delivery of the highest quality health care services to 9.5 million TRICARE beneficiaries (military personnel, their families, and retirees) through the Managed Care network of civilian providers, military hospitals, and clinics in the Military Health System (MHS) for medical, dental, and pharmacy. This goal incorporates the provision of a health care delivery system where quality, access, and cost effectiveness prevail.
