

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT				1. CONTRACT ID CODE J		PAGE 1 OF 12 PAGES	
2. AMENDMENT/MODIFICATION NUMBER 0001		3. EFFECTIVE DATE 13 Mar 2026		4. REQUISITION/PURCHASE REQUISITION NUMBER See Continuation Sheet		5. PROJECT NUMBER (If applicable)	
6. ISSUED BY CODE NAVFACSYS COM EUROPE AFRICA CENTRAL PSC 817 BOX 51 FPO, AE 09622-0051 UNITED STATES Paul Martha, Email: paul.m.martha.civ@us.navy.mil		7. ADMINISTERED BY (If other than Item 6) CODE SCD: PAS:					
8. NAME AND ADDRESS OF CONTRACTOR (Number, street, county, State and ZIP Code)				(X)			
				9A. AMENDMENT OF SOLICITATION NUMBER N3319126R0014			
				9B. DATED (SEE ITEM 11) 25 Feb 2026			
				10A. MODIFICATION OF CONTRACT/ORDER NUMBER			
				10B. DATED (SEE ITEM 13)			
CODE		FACILITY CODE					

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☒ is extended. ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:
 (a) By completing items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted;
 or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
 See Section 00 70 00 - Conditions of the Contract

**13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NUMBER AS DESCRIBED IN ITEM 14.**

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NUMBER IN ITEM 10A.
☐	
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation data, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☐ is not ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this amendment is to:

- Extend the proposal due date.
- Respond to pre-proposal inquiries.
- Revise Section 00 21 16
- Revise Attachment C

All other terms of this solicitation remain unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print)	
		Paul M. Martha	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
(Signature of person authorized to sign)		 (Signature of Contracting Officer)	13 Mar 2026

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES**Section 00 00 00 - Procurement and Contracting Requirements**

The following changes have been made:

INFORMATION	FROM	TO
Response Due Time Zone	A Time Zone (UTC +1)	B Time Zone (UTC +2)
Response Due Date	24 Mar 2026	07 Apr 2026

Section 00 21 16 - Instructions to Proposers

Miscellaneous text in this section has been modified to:

1. Proposal Due Date:

Proposals are due at the date and time specified in Block 13 A, on page #1 of the Standard Form 1442. If the due date is extended, it will be extended by Amendment.

2. Transmission of Proposals:

Electronic copies of each volume shall be submitted through the Solicitation Module of the Procurement Integrated Enterprise Environment (PIEE) suite at <https://piee.eb.mil/>. Proposals submitted by mail or hand-carried will not be evaluated. Proposals sent through proprietary or third party File Transfer Protocol (FTP) sites or DoD SAFE will not be retrieved. It is the responsibility of the offeror to confirm receipt of proposals. All proposals received after the exact time specified for receipt shall be treated as late submissions and will not be considered except under facts and circumstances allowed by the Federal Acquisition Regulation (FAR). For instructions on how to post an offer, please refer to the Posting Offer demo: https://pieetraining.eb.mil/wbt/sol/Posting_Offer.pdf. **Offerors must be registered with PIEE as a Proposal Manager in order to submit a proposal. Offerors are highly encouraged to complete the registration process in PIEE immediately, if the offeror does not currently have access.**

It is the Offeror's responsibility to obtain written confirmation of receipt of all electronic files of the full proposal by the Contracting office. In the event that the Solicitation Module is down, the alternate method for proposal submission is via email to: paul.m.martha.civ@us.navy.mil and alex.h.wingert.civ@us.navy.mil ONLY. Offerors are responsible for ensuring electronic copies are virus-free and shall run an anti-virus scan before submission.

Electronic copies of each volume shall be compatible with the following software products: Adobe Acrobat Reader 2017 and Microsoft Office Suite 2016. Narrative portions of the proposal shall be in Adobe Acrobat portable document file (pdf) searchable text format. The Offeror shall not embed sound or video (e.g., MPEG) files into the proposal files.

Electronic files shall be clearly identified for each volume, section, and item.

3. Registrations Required Prior to Submission of Proposals:

Current System for Award Management Registration:

Offerors, including joint ventures, must be registered in the System for Award Management (SAM) and have an active registration at the time of proposal submission. Any offeror whose registration is not active

in SAM at the time of proposal submission will be excluded from the process and their proposal will not be evaluated.

Joint Contingency Contracting System (JCCS) Registration for ALL Non-U.S. Vendors:
All non-U.S. prime offerors and any proposed non-U.S. team members (e.g., non-U.S. joint venture partners, non-U.S. subcontractors, etc.) that will perform work under this contract anywhere within the United States Africa Command's Area of Responsibility (U.S. AFRICOM AoR) must register in the Joint Contingency Contracting System (JCCS) at <https://www.jccs.gov/jccscoe> **prior to submission of proposals**. The Contracting Officer will verify the prospective awardee's (and their non-U.S. team members') registrations in the JCCS and request a threat assessment. In accordance with AFRICOM policies, all non-U.S. vendors performing in the AFRICOM AOR must be vetted under AFRICOM's Vendor Threat Reduction Program.

4. Site Visit

There will not be a site visit for this project.

5. Instructions for Submitting Pre-Proposal Inquiries (PPI)

Submit all Pre-Proposal Inquiries (PPI) in writing via email to **Paul Martha** (paul.m.martha.civ@us.navy.mil) and **Alex Wingert** (alex.h.wingert.civ@us.navy.mil).

Requirements for Submission:

Format: Use the PPI Template provided in Attachment A.

Details: Each inquiry must reference the specific drawing, detail, or specification section (including paragraph number).

Method: Only written inquiries are accepted; verbal queries will not be addressed.

Important Deadlines and Posting:

Deadline: The Government may not respond to inquiries submitted after 11 March 2026.

Responses: Official responses will be issued via a solicitation amendment and posted to both SAM.gov and PIEE.

6. Amendments to the solicitation

Official amendments will be posted to both www.sam.gov and PIEE.

Monitoring: It is the offeror's responsibility to check SAM.gov periodically for any updates or amendments

Acknowledgment: All amendments SHALL be formally acknowledged within the offeror's proposal in accordance with the instructions provided.

7. Proposal Submission Requirements and Evaluation Factors

The PRICE PROPOSAL shall include the following:

1. First page of the proposal shall be in accordance with FAR 52.215-1(c)(2).
2. All information required by the Price Proposal submission.

The NON-PRICE PROPOSAL shall include the following:

1. First page of the proposal shall be in accordance with FAR 52.215-1(c)(2)
2. All information required by Factor 1, Experience
3. All information required by Factor 2, Management Approach
4. All information required by Factor 3, Safety
5. All information required by Factor 4, Past Performance

It is the contractor's responsibility to ensure the Government received the proposal and all enclosures by the proposal due date and time as set forth above.

PRE-AWARD SURVEY & RESPONSIBILITY DETERMINATION

In accordance with FAR 9.104, the Government must verify that prospective contractors are responsible and have the resources necessary to perform the contract. This survey is separate from the technical evaluation.

Required Documentation: Please submit the following information with your proposal:

- **Financial Statements:** Provide balance sheets and income statements for the past three (3) years
- **Operating Capital:** Submit evidence of available working capital dedicated to this contract
- **Lines of Credit:** If relying on external financial support, provide documentation showing maximum lines of credit available. These should account for the requirements of this specific contract.
- **Joint Ventures:** Clearly define the financial responsibilities of each partner and provide the financial documentation listed above for every company in the venture.

PERFORMANCE GUARANTEE

For any task order exceeding \$150,000 (or as otherwise required by the Contracting Officer), the Contractor must provide one of the following within 10 days of issuance:

1. Performance Guarantee Letter: A notarized letter for an amount equal to 10% of the task order total value.
2. Bonds: Performance and Payment Bonds pursuant to FAR 52.228-15, issued by an approved surety list in the U.S. Treasury Circular 570.

Submission Standards for Guarantee Letters:

- **Authentication:** Must include a notarized document confirming the financial institution's authority to sign the letter.
- **Translation:** A certified English translation must be submitted simultaneously.
- **Validity:** The guarantee takes effect upon signature and must remain valid until one (1) year after final inspection and U. S. Government acceptance.

Banking & Payment Terms:

- Funds must be deposited into a certified banking institution that issues an irrevocable letter guaranteeing payment (plus interest) to the U.S. Government upon demand.
- The Contracting Officer will demand payment if the Contractor fails to fulfill contract terms.
- Payments must be made via check payable to: "United States of America by the U.S. Department of the Navy, Naval Facilities Engineering Command, Europe, Africa, Central".

Consequences of Non-Compliance: Failure to provide the required guarantee or bonds within the 10-day window may result in termination for default. The Contractor will be liable for any re-procurement costs exceeding their original offer.

EVALUATION

A. BASIS FOR AWARD

1. The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contract; to negotiate with offerors in the competitive range; and to award the contract to the offeror submitting the proposal determined to represent the best value--the proposal most advantageous to the Government, price and other factors considered.
2. The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.
3. The tradeoff process is selected as appropriate for this acquisition. The Government considers it to be in its best interest to allow consideration of award to other than the lowest priced offeror or other than the highest technically rated offeror.

4. As stated in the solicitation, all technical factors when combined are of equal importance to the performance confidence assessment (past performance) rating; and all technical factors and the performance confidence assessment (past performance) rating, when combined are approximately equal to price.

5. Any proposal found to have a deficiency in meeting the stated solicitation requirements or performance objectives will be considered ineligible for award, unless the deficiency is corrected through discussions. Proposals may be found to have either a significant weakness or multiple weaknesses that impact either the individual factor rating or the overall rating for the proposal.

B. ADJECTIVAL RATINGS/DESCRIPTIONS

1. TECHNICAL EVALUATION

The technical rating reflects the degree to which the proposed approach meets or does not meet the minimum performance or capability requirements through an assessment of the significant strengths, strengths, weaknesses, significant weaknesses, deficiencies, and risks of a proposal.

a. A combined technical/risk evaluation includes consideration of risk in conjunction with the significant strengths, strengths, weaknesses, significant weaknesses, uncertainties, and deficiencies in determining technical ratings shall be used. The technical risk evaluation shall utilize the combined technical/risk ratings listed in the following table. Adjectival ratings and rating descriptions will be used to assign an overall rating to each technical proposal and to assign a rating for each technical factor. Use upper case letter ratings for major technical factors as well as the overall rating. The addition of plus (+) or minus (-) to an adjective rating is not allowed.

Table 1. Combined Technical/Risk Ratings

Rating	Description
Outstanding (O)	Proposal demonstrates an exceptional approach and understanding of the requirements and contains multiple strengths and/or at least one significant strength, and risk of unsuccessful performance is low.
Good (G)	Proposal indicates a thorough approach and understanding of the requirements and contains at least one strength or significant strength, and risk of unsuccessful performance is low to moderate.
Acceptable (A)	Proposal meets requirements and indicates an adequate approach and understanding of the requirements, and risk of unsuccessful performance is no worse than moderate.
Marginal (M)	Proposal has not demonstrated an adequate approach and understanding of the requirements, and/or risk of unsuccessful performance is high.
Unacceptable (U)	Proposal does not meet requirements of the solicitation and, thus, contains one or more deficiencies and is un-awardable, and/or risk of performance is unacceptably high.

2. Definitions: The following definitions are provided to assist evaluators in the evaluation of each non-price factor.

- a. Significant Strength: An aspect of an Offeror's proposal with appreciable merit or will exceed specified performance or capability requirements to the considerable advantage of the Government during contract performance.
- b. Strength: An aspect of an offeror's proposal with merit or will exceed specified performance or capability requirements to the advantage of the Government during contract performance.
- c. Weakness: A flaw in the proposal that increases the risk of unsuccessful contract performance.
- d. Significant Weakness: A flaw that appreciably increases the risk of unsuccessful contract performance.
- e. Uncertainty: any aspect of a non-price factor proposal for which the intent of the offer is unclear (e.g., more than one way to interpret the offer or inconsistencies in the proposal indicating that there may have been an error, omission, or mistake).
- f. Deficiency: A material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level.

C. SAFETY EVALUATION

1. Safety will be a stand-alone evaluation criterion in this solicitation. The safety evaluation is described under the Non-Price Factor 3 and consists of the Technical Approach to Safety.

D. PAST PERFORMANCE EVALUATION

1. The past performance evaluation results in an assessment of the offeror's probability of meeting the solicitation requirements. The past performance evaluation considers each offeror's demonstrated recent and relevant record of performance in supplying products and services that meet the contract's requirements. The currency and relevance of the information, source of the information, context of the data, and general trends in contractor's performance shall be considered. These are combined to establish one performance confidence assessment rating for each offeror.

2. There are three aspects to the past performance evaluation: recency, relevancy (including context of data), and quality (including general trends in contractor performance and source of information).

The first is to evaluate the recency of the offeror's past performance. The second is to determine how relevant a recent effort accomplished by the offeror is to the effort to be acquired through the source selection. The third is to establish the overall quality of the offeror's past performance. Recency is generally expressed as a time period during which past performance references are considered relevant, and is critical to establishing the relevancy of past performance information. In establishing what is relevant for the acquisition, consideration shall be given to those aspects of an offeror's contract history that would give the greatest ability to measure whether the offeror will satisfy the current procurement. Common aspects of relevancy include, but are not limited to, the following: similarity of service/support, complexity, dollar value, contract type, use of key personnel (for services) and extent of subcontract/teaming. The third aspect of the past performance evaluation is to establish the overall quality of the offeror's past performance (see FAR 15.304[c][2]). The past performance evaluation conducted in support of a current source selection does not establish, create, or change the existing record and history of the offeror's past performance on past contracts; rather, the past performance evaluation process gathers information from customers on how well the offeror performed those past contracts. A separate quality assessment rating is not required; rather, the past performance rating using the confidence assessment rating, is based on the offeror's overall record of recency, relevancy, and quality of performance.

3. For purposes of this evaluation, a recent project is defined as a project that was 100% completed no more than five (5) years prior to issuance of the solicitation.

4. For purposes of this evaluation, a relevant project is defined as an effort involving the same or similar scope and magnitude of effort and complexities this solicitation requires. Prior projects must at a minimum demonstrate:

- a. A total value of no less than \$50,000 and no more than \$15,000,000. (If a project was awarded in a currency other than US dollars, the offeror must convert the non-US dollar currency into US dollars using the appropriate exchange rate as of the day the contract for the submitted project was awarded); and
- b. Be for renovation; repair; maintenance; replacement; alteration; demolition; or construction tasks performed under a single order or contract.

5. This source selection requires a greater level of discrimination within the past performance evaluation, therefore, the relevancy ratings in the following table shall be used in determining how relevant a prior project is to the requirements under this solicitation:

Table 2. Past Performance Relevancy Rating Method

Adjectival Rating	Definition
Very Relevant	Present/past performance effort involved essentially the same scope and magnitude of effort and complexities this solicitation requires.
Relevant	Present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.
Somewhat Relevant	Present/past performance effort involved some of the scope and magnitude of effort and complexities this solicitation requires.
Not Relevant	Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires.

6. The SSEB will review all past performance information collected and determine the quality of the offeror's performance, general trends, and usefulness of the information and incorporate these into the performance confidence assessment. A separate quality assessment rating is not required; rather, the past performance confidence assessment rating is based on the offeror's overall record of recency, relevancy and quality of performance.

In the case of offerors for which there is no information on past contract performance or where past contract performance is not available, the offeror may not be evaluated favorably or unfavorably on the factor of past contract performance. In this case, the offeror's past performance is unknown and assigned a confidence rating of "neutral." Although the SSEB may not rate an offeror that lacks recent, relevant past performance favorably or unfavorably with regard to past performance, the SSA may determine, that a "Substantial Confidence" or "Satisfactory Confidence" past performance rating is worth more than a "Neutral Confidence" past performance rating in a best value tradeoff as long as the determination is consistent with stated selection criteria.

7. Performance Confidence Assessment. This source selection requires a greater level of discrimination within the past performance evaluation, therefore, the SSEB shall use all confidence ratings identified in Table 3 below.

Table 3. Performance Confidence Assessments

Adjectival Rating	Description
Substantial Confidence	Based on the offeror's recent/relevant performance record, the Government has a high expectation that the offeror will successfully perform the required effort.
Satisfactory Confidence	Based on the offeror's recent/relevant performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.
Neutral Confidence	No recent/relevant performance record is available or the offeror's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The offeror may not be evaluated favorably or unfavorably on the factor of past performance.
Limited Confidence	Based on the offeror's recent/relevant performance record, the Government has a low expectation that the offeror will successfully perform the required effort.
No Confidence	Based on the offeror's recent/relevant performance record, the Government has no expectation that the offeror will be able to successfully perform the required effort.

E. EVALUATION FACTORS FOR AWARD

1. The solicitation requires the evaluation of price and the following non-price factors:

- Factor 1 - Experience
- Factor 2 - Management Approach
- Factor 3 - Safety
- Factor 4 - Past Performance

2. The relative order of importance of the non-price evaluation factors is as follows: Factor 1, Factor 2, and Factor 3 are of equal importance to each other and, when combined are equal in importance to the past performance evaluation/performance confidence assessment factor, Factor 4. When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (the non-price evaluation factors) are approximately equal to price.

The importance of price will increase if the offerors' non-price proposals are considered essentially equal in terms of overall quality, or if price is so high as to significantly diminish the value of a non-price proposal's superiority to the Government. Award will be made to the responsible offeror whose offer conforms to the solicitation and represents the best value to the Government, price and non-price factors considered.

3. Basis of Evaluation and Submittal Requirements for Each Factor.

a. PRICE EVALUATION FACTORS (Volume I - Price Proposal)

For the purposes of establishing coefficients for this contract, the offeror shall provide a proposed coefficient for Coefficients 1 through 4 on the Coefficient Schedule, provided as an attachment to the solicitation (Attachment B). Failure to offer a coefficient for Coefficients 1 through 4 will result in the offeror being ineligible for award. The coefficients will become a part of the contract upon award and will be effective for the base period and all option periods. On the Coefficient Schedule, the offeror is to insert a proposed coefficient, which will be multiplied by the Example Value for Coefficients 1 through 4. The Example Value for Coefficients 1 - 4 are to be added together to arrive at the Total Evaluated Price (TEP).

Solicitation Submittal Requirements:

The offeror's price proposal shall be separate from the technical proposal. Complete and submit the following:

1) Cover letter in accordance with FAR 52.215-1(c)(2), including Solicitation Number; name, address, telephone and email address of the Offeror; in case the Offeror is a JOINT VENTURE (JV), the name of the JV MUST BE CLEARLY IDENTIFIED; Name, title, and signature of the person authorized to sign the proposal; Unique Entity ID Number and CAGE or NCAGE Code of the Offeror; and a Unique Entity ID Number for each member of the JV.

2) Completed (Blocks 14 through 20c), signed and dated Standard Form (SF) 1442, Solicitation, Offer, and Award. In block 14, please include a point of contact with a valid phone number and email address. Offerors shall provide a CAGE/NCAGE code in block 14.

3) Letter from the offeror's surety. The letter is to verify the offeror has at least a \$3M aggregate bonding capacity.

4) Completed Coefficient Schedule.

5) A bulleted list, identifying all cost factor categories included in your coefficient. At a minimum, your coefficient is to include the cost elements identified in the General Requirements, Paragraph C.4 and its subparagraphs. This narrative is limited to one (1) 8.5" x 11" page, one inch margins, Times New Roman size 9-to-12 font.

6) Acknowledgement of all amendments.

7) Joint Venture (JV) Agreement (if applicable).

8) Financial Statements - The offeror shall provide the latest three complete fiscal year financial statements, certified by an independent accounting firm or at least by an authorized officer of the organization. If a new Joint Venture (JV) is being proposed, include the latest three complete fiscal year financial statements for each firm, certified by an independent accounting firm or at least by an authorized officer of the organization.

9) Submit evidence of availability of working/operating capital from an independent financial institution which will be used for the performance of the resultant contract.

10) The Government intends to pay invoices in accordance with the clause for Wide Area Work Flow. To do this, your firm must have a U. S. bank or a U.S. bank affiliate associated with your local bank. With your proposal, identify the name of your U.S. bank or affiliate for purposes of paying invoices.

Basis of Evaluation:

The Government will evaluate price based on the total evaluated price (TEP). The TEP consists of the basic requirements and all option items. The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in the solicitation. In accordance with FAR 52.217-5, evaluation of options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

Comparison of proposed Total Evaluated Prices received in response to the RFP;

- Comparison of proposed Total Evaluated Prices with the Government Estimate;
- Comparison of proposed Total Evaluated Prices with available historical information;
- Comparison of proposed Total Evaluated Prices with market average.

b. NON-PRICE EVALUATION FACTORS (Volume II - Non-Price Proposal)

Factor 1 - Experience
Factor 2 - Management Approach
Factor 3 - Safety
Factor 4 - Past Performance

FACTOR 1 - EXPERIENCE:

1) Solicitation Submittal Requirements:

Submit a minimum of three (3) to a maximum of five (5) examples of recent and relevant projects that best demonstrates the offeror's experience. Offerors shall utilize Attachment C - Project Sheet, to submit applicable project information. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed two (2) pages (8.5" x 11"; one inch margins; times new roman size 9-to-12 font) per project. If the page limit is exceeded, only the first two (2) pages per project will be evaluated.

For each project the offeror shall provide:

1. Contract number, title, and location
2. Dollar value; annually and contract life
3. Type of contract (i.e. fixed price, cost reimbursable, or other - specify) If applicable, identify base period and all option periods
4. Contract start date and completion date and beneficial occupancy date (BOD)
5. Identify type of services provided - similar scope, size & complexity
6. Nature of firm's responsibility (prime contractor or subcontractor)
7. Percentage of the work that your firm performed as the prime contractor or subcontractor

A project is defined as a repair, alteration, demolition, maintenance services or construction project performed under a single task order or contract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; rather, offerors shall submit the work performed under a task order as a project.

For all submitted projects, the description of the project shall clearly describe the scope of work performed, the location of the work performed, and the relevancy to the project requirements of this RFP (i.e.: unique features, area, construction methods). The projects may be for the U.S. Government or other clients.

For purposes of this evaluation, a recent project is defined as a project that was 100% completed no more than five (5) years prior to issuance of the solicitation.

For purposes of this evaluation, a relevant project is defined as an effort involving the same or similar scope and magnitude of effort and complexities this solicitation requires. Prior projects must at a minimum demonstrate:

- a. A total value of no less than \$50,000 and no more than \$15,000,000. (If a project was awarded in a currency other than US dollars, the offeror must convert the non-US dollar currency into US dollars using the appropriate exchange rate as of the day the contract for the submitted project was awarded).
- b. Be for renovation; repair; maintenance; replacement; alteration; demolition; or construction tasks performed under a single order or contract.

The projects submitted shall clearly identify if the offeror performed as a prime contractor, joint venture/team/partner member or as a subcontractor. If experience was as a subcontractor, then less credit may be given to the experience. If more than five (5) projects are submitted, only the most recent five will be reviewed in the evaluation.

If the offeror is a Joint Venture (JV), relevant project experience shall be submitted for projects completed by the Joint Venture entity. If the Joint Venture does not have shared experience, projects shall be submitted for each Joint Venture partner. Offerors who fail to submit experience for all Joint Venture partners may be rated lower. The Government will not consider any project submitted for Factor 1 if it was performed by a firm other than the offeror and there is no supporting joint venture agreement, partnership agreement, teaming agreement, letter of commitment, or explanation of meaningful involvement. Offerors are still limited to a total of five (5) projects combined.

2) Basis of Evaluation:

The basis of evaluation will include an assessment of the demonstrated experience and depth of experience of the offeror in performing recent and relevant projects, as defined in the solicitation requirements. The assessment of the offeror's recent and relevant experience will be used as a means of evaluating the capability of the offeror to successfully meet the requirements of the RFP. Only projects that meet the criteria for recency and relevancy will be evaluated.

Demonstrating any of the following may result in a more favorable consideration in the Government's evaluation:

1. Experience working on JOC contracts.
2. Experience with compliance with Unified Facilities Criteria (UFC).
3. Experience within the Camp Lemonier, Djibouti area of responsibility.
4. Experience within the NAVACSYSCOM EURAFCENT area of responsibility.
5. Experience leveraging local resources.
6. Fast response times on urgent requirements.

7. Experience self-performing relevant features of work.
8. Experience in performance of multiple projects and disciplines simultaneously.
9. Experience in ALL of the following types of work: new construction, renovation, and utility systems.
10. Experience in ALL of the following types of utility systems: potable water systems, waste water systems, electrical systems and mechanical systems (HVAC, Plumbing, pumps).

Proposals that fail to provide required and complete information will be deemed deficient/unacceptable.

FACTOR 2 - MANAGEMENT APPROACH:

1) Solicitation Submittal Requirements:

Offeror's response to Factor 2 shall be a maximum ten (10) pages (8.5" x 11" or A4; one inch margins; times new roman size 9-to-12 font) for this factor. If more than ten (10) pages are submitted, only the first ten (10) pages will be evaluated. The offeror shall provide the following:

1. Provide an organizational chart and a workforce management plan narrative describing the interrelationship of the off-site management team and on-site management team(s). Organization chart shall clearly show management authority, supervision, span of control, and accountability. At a minimum the organization chart must display key personnel. Workforce management plan shall clearly describe how the offeror will meet the contract requirements for key personnel identified in Section C.2.6 (Project Manager, Quality Control Manager, and Site Safety and Health Officer).
2. Discuss approach to Subcontractor relationships (if applicable). Include any pre-established relationships with organizations qualified for work within the scope of this solicitation, quantifying number of projects that have been completed together and/or number of years of partnering. If an offeror does not intend to use sub-contractors, they must clearly state that all work will be self-performed.
3. Describe offeror's approach for working in areas of limited access, limited lay down space, and working around activities with minimal disruption.
4. Discuss how the offeror will provide labor, materials, equipment, subcontractors, and key personnel to perform multiple tasks and multiple sites simultaneously, when required.
5. Discuss how the offeror will respond to proposed task orders that may have short notice site visits and/or response times for submitting proposals.
6. Discuss management familiarity and approach to joint scoping work with the Government, to include examples of any previous joint-scoping efforts.
7. Discuss the how offeror will handle surges in workload and the offeror's approach to work scheduling.
8. Discuss the offeror's QA/QC program.

2) Basis of Evaluation:

The evaluation will include an assessment of proposed management approach and offeror's responses to the submittal requirements for this factor.

Offerors may receive a higher rating if they can successfully demonstrate in their narrative their ability to meet one or more of the following:

1. An organizational chart and supporting management approach that shows adequate personnel and organizational structure to manage multiple and simultaneous task orders (more than five (5)).
2. Effective use of subcontractors or in-house personnel in order to successfully accomplish projects.
3. Strong scheduling capabilities demonstrating the ability to manage multiple simultaneous project schedules with competing milestone dates.
4. Quick turnaround times on last minute requirements that includes the use of Joint Scoping.
5. A QA/QC program to maximize quality of workmanship.

FACTOR 3 - SAFETY:

1) Solicitation Submittal Requirements:

The offeror shall submit a Safety Narrative addressing the following information: (For a partnership or joint venture, only one safety narrative is required but it shall address each partner contractor or joint venture member.

The narrative shall describe the offeror's technical approach to safety for its employees as well as the plan that the offeror will implement to evaluate and measure safety performance of potential subcontractors as a part of the selection process for all levels of subcontractors. Due to the variety of work that may be issued under this contract, the offeror shall submit their plan for potential subcontractors even if the offeror does not anticipate the use of subcontractors initially. Failure to submit a plan to evaluate and

measure safety performance of potential subcontractors will be considered a deficiency.

The Safety Narrative shall be limited to two (2) pages (8.5" x 11" or A4; one inch margins; times new roman size 9-to-12 font). If more than two (2) pages are submitted, only the first two (2) pages will be reviewed in the evaluation.

2) Basis of Evaluation:

The Government's sources of information for evaluating safety may include, but are not limited to, the information provided in the Safety Narrative response, Government agencies, OSHA, NAVFAC's Facility Accident and Incident Reporting (FAIR) and Contractor Incident Reporting System (CIRS) databases and other related resource. While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete safety information regarding these submittal requirements rests with the offeror.

The evaluation will collectively consider the following:

1. Offeror's technical approach to safety
2. Other sources of information available to the Government

Regarding subcontractors, the Government will evaluate the narrative to determine the degree to which subcontractor safety performance will be considered in the selection of all levels of subcontractors on the upcoming project.

Demonstrating any of the following may result in a more favorable consideration in the Government's evaluation:

1. A proven history of safety.
2. A proven history of hiring subcontractors with a culture of safety.

FACTOR 4 - PAST PERFORMANCE:

1) Solicitation Submittal Requirements:

For Factor 4, offerors shall submit past performance information as follows for the same prior projects the offeror identified in its proposal under Factor 1.

IF A COMPLETED CONTRACTOR PERFORMANCE ASSESSMENT REPORTING SYSTEM (CPARS) EVALUATION IS AVAILABLE FOR A PRIOR PROJECT IDENTIFIED IN ITS PROPOSAL FOR FACTOR 1, IT SHALL BE SUBMITTED WITH THE PROPOSAL. IF THERE IS NOT A COMPLETED CPARS EVALUATION, the Past Performance Questionnaire (PPQ), i.e., Attachment D, included in the solicitation is provided for the offeror or its team members to submit to the client for each project without a completed CPARS evaluation. AN OFFEROR SHALL NOT SUBMIT A PPQ WHEN A COMPLETED CPARS IS AVAILABLE.

IF A COMPLETED CPARS EVALUATION IS NOT AVAILABLE, ensure correct phone numbers and email addresses are provided for the client point of contact. Completed PPQs should be submitted with your proposal. If the offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the offeror shall complete and submit with the proposal the first page of the PPQ (Attachment D), which will provide contract and client information for the respective project(s). Offerors should follow-up with clients/references to ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Paul Martha, via email at paul.m.martha.civ@us.navy.mil prior to proposal closing date. Offerors shall not incorporate by reference into their proposal PPQs or CPARS previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation.

Also include performance recognition documents received within the last 5 years such as awards, award fee determinations, customer letters of commendation, and any other forms of performance recognition.

If an offeror elects to submit performance recognition documents, the offeror shall submit no more than five full copies of performance recognition documents received within the last five years. The pages of performance recognition documents do not count toward overall proposal page counts.

In addition to the above, the Government may review any other sources of information for evaluating past performance. Other sources may include, but are not limited to, additional or other relevant past performance information retrieved through the CPARS using all CAGE/Entity Identifier numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary /affiliate) identified in the offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the offeror. While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

2) Basis of Evaluation:

The degree to which past performance evaluations and all other past performance information reviewed by the Government (e.g., CPARS, Federal Awardee Performance and Integrity Information System (FAPIS), Electronic Subcontract Reporting System (eSRS), performance recognition documents, and information obtained from any other source) reflect a trend of satisfactory performance considering:

- A pattern of successful completion of tasks;
- A pattern of deliverables that are timely and of good quality;

- A pattern of cooperativeness and teamwork with the Government at all levels (task managers, contracting officers, auditors, etc.); and
- Recency of tasks performed that are identical to, similar to, or related to the task at hand.
