

Specification Sheet

The Government requires commercially available equipment meeting the specifications provided below.

Optical Interrogator

Specification	Value
Description	OPTICAL INTERROGATOR
Number of Channels	≥ 4
Data Collection Speed	≥ 5000 Hz
Wavelength Range	1510 nm – 1590 nm
Wavelength Accuracy	≤ 2 pm
Sensor Compatibility	Fiber Bragg Grating (FBG), Fabry-Perot (FR)

- Compatibility with other sensors is preferred not required.
