

INDUSTRY DAY ANNOUNCEMENT

Agency: Army Contracting Command - Rock Island (ACC-RI), on behalf of the Air Force Civil Engineer Center (AFCEC) and U.S. Space Command (USSPACECOM)

Location: Specific location TBD. Huntsville, Alabama local commuting area.

Posted Date: 27 March 2026

Response Date (RSVP Deadline): 4:00 PM Central Time (CT), 10 April 2026

Classification Code: Y – Construction of structures and facilities

NAICS Code: 236220 – Commercial and Institutional Building Construction

SUBJECT: USSPACECOM Headquarters (HQ) Command and Control Facility (C2F)
Informational Industry Day

1.0 SYNOPSIS AND PURPOSE

This is an Industry Day announcement for qualified interested parties. AFCEC, in coordination with USSPACECOM and ACC-RI, will host an informational Industry Day for the management, design and construction of the new USSPACECOM HQ C2F. The project will be executed in phases, starting with Phase 1: Owner's Representative Project Management Framework; and Phase 2: Design and Construction. The C2F will be located on Redstone Arsenal, Alabama. The Industry Day location will be determined by the number of qualified interested parties, and will be held in the Huntsville, AL local commuting area.

This Industry Day serves two primary objectives:

- To engage with industry partners possessing expertise in the progressive design-build delivery methods who are interested in serving as the Owner's Representative throughout the project's design-build lifecycle.
- To engage with industry partners capable of executing a large-scale, progressive design-build project for a secure federal facility on Redstone Arsenal.

This announcement constitutes a market research tool and is not a Request for Proposal (RFP) or a commitment by the U.S. Government. The Government will not pay for any information submitted or for attendance at this event.

2.0 PROJECT BACKGROUND

USSPACECOM requires a new, permanent warfighting HQ C2F on Redstone Arsenal to support its critical national security mission. A clean, 64-acre site on the installation has been designated for the USSPACECOM C2F. The operational HQ facility is expected to accommodate approximately 1800 personnel. Key facility components will include a Visitor Control Center, vehicle inspection area, and secure data center. The estimated total square footage (SF) for these primary facilities is 700,000 SF. The HQ facility will have stringent security features supporting 24/7 operations. Interested parties should be highly experienced in the design and construction of technology-driven operations centers, resilient and redundant infrastructure, integrated information technology (IT) systems, secure space (ICD 705) standards, High-Altitude Electromagnetic Pulse (HEMP) hardening, and Radio Frequency (RF) Shielding.

The Government intends to utilize a progressive design-build project delivery method following Design-Build Institute of America (DBIA) best practices. The acquisition for both the Owner's Representative and the design-build performance contractor will be executed using Other Transaction Authority (OTA) through the One Nation Innovation (ONI) Exchange GoColosseum Marketplace.

3.0 INDUSTRY DAY EVENT DETAILS

The Industry Day will provide details on the project's scope, scale, acquisition strategy, and timeline. Note: One-on-one sessions will not be held at this event.

- Date: TBD. Approximate date range 01 May – 08 May 2026
- Time: 08:00 AM - 1:00 PM (Central Time)
- Location: Specific location TBD. Huntsville, Alabama local commuting area. (Note: This event will be held at an off-installation facility)
- Virtual Attendance: A virtual attendance option will be available via Zoom for those unable to attend in person. A link will be provided to registered virtual attendees.

4.0 TENTATIVE AGENDA

Time	Session
08:00 - 09:00	Registration & Check-in
09:00 - 09:15	Welcome & Opening Remarks
09:15 - 09:45	USSPACECOM Mission & Vision for the HQ
09:45 - 10:30	Project Overview, Owner's Rep & Progressive Design-Build Approaches
10:30 - 10:45	Networking Break
10:45 - 11:15	Acquisition Strategy: Other Transaction Authority (OTA) via ONI Exchange
11:15 - 11:30	Procurement Timeline & Milestones
11:30 - 11:45	Redstone Arsenal Site Logistics & Considerations
11:45 - 12:45	Open Forum Q&A
12:45 – 1:00	Closing Remarks & Path Forward

5.0 REGISTRATION INSTRUCTIONS

All parties interested in attending, both in-person and virtually, **MUST** pre-register. Attendance will be limited for in-person attendance due to venue capacity. Invitations for in-person attendance will be sent. Submit requests for no more than three in-person representatives per company. There is no limit for virtual attendees.

To RSVP submit a .pdf document containing the following information to the Space Command Industry Day, under the “Challenges” section, at **<https://marketplace.gocolosseum.org/>** (login required – free to sign up) no later than 4:00 PM Central Time on 10 April 2026:

1. Full Name
2. Title
3. Company Name
4. CAGE Code & UEI
5. Indicate whether Traditional or Non-Traditional business
6. Email Address & Phone Number
7. Indicate Attendance Type: In-Person or Virtual
8. Indicate Primary Interest: Owner's Representative Project Management or Design and Construction.
9. For interested prime construction firms, list of progressive design build projects >\$500M within the last 5 years.

6.0 REGISTRATION QUESTIONS

Interested parties may submit registration questions in advance via <https://marketplace.gocolosseum.org/> (Space Command Industry Day in the “Challenges” section). Questions may be answered ahead of time however the purpose is to obtain questions so that answers can be worked into industry day presentation. Questions will be permitted during the Open Q&A session at Industry Day as well. All questions and the Government's official responses will be posted on the marketplace and SAM.gov after the event.
