

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT				1. CONTRACT ID CODE J		PAGE 1 OF 18 PAGES	
2. AMENDMENT/MODIFICATION NUMBER 0002		3. EFFECTIVE DATE 27 Mar 2026		4. REQUISITION/PURCHASE REQUISITION NUMBER See Continuation Sheet		5. PROJECT NUMBER (If applicable) WO# 1894554	
6. ISSUED BY NAVFACSYS COM MID-ATLANTIC 9324 VIRGINIA AVENUE, NORFOLK NORFOLK, VA 23511-0395 UNITED STATES Mary Pool, Email: mary.a.pool3.civ@us.navy.mil Telephone: 7573411650		CODE N40085		7. ADMINISTERED BY (If other than Item 6) SCD: PAS:		CODE	
8. NAME AND ADDRESS OF CONTRACTOR (Number, street, county, State and ZIP Code)				☒ (X)		9A. AMENDMENT OF SOLICITATION NUMBER N4008526R0058	
				☒ (X)		9B. DATED (SEE ITEM 11) 04 Mar 2026	
				☐		10A. MODIFICATION OF CONTRACT/ORDER NUMBER	
				☐		10B. DATED (SEE ITEM 13)	
CODE		FACILITY CODE					

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended. ☒ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:
 (a) By completing items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted;
 or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
 See Section 00 70 00 - Conditions of the Contract

**13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NUMBER AS DESCRIBED IN ITEM 14.**

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NUMBER IN ITEM 10A.
☐	
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation data, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☐ is not ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
 See Schedule

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

STANDARD FORM 30 (REV. 11/2016)
 Prescribed by GSA FAR (48 CFR) 53.243

Created On:
 27 Mar 2026, 17:09 PM Greenwich Mean Time

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): Project Title: Barracks Initiative (Package #2)
Project Location: MCB Camp Lejeune, NC and MCAS New River, NC

The Amendment is issued to incorporate the following:

1. Pre Proposal Inquiry responses.
2. Incorporate FAR provision and clauses.
3. Provide revised evaluation criteria. Please refer to Section 00 21 16 Instructions to Proposers: 3 Evaluation Factors for Award, Factor 2 Experience.

The proposal due date of 3 April 2026 remains unchanged.

Section 00 21 00 - Instructions

Miscellaneous text in this section has been modified to:

1. GENERAL

1.1 GENERAL OVERVIEW OF PROCUREMENT PROCESS

This acquisition is being solicited on an unrestricted basis, with Full and Open Competition.

The NAICS code for this procurement is 236220 and the Size Standard is \$45,000,000.

In accordance with DFARS 236.204, the magnitude of construction for this project is over \$500,000,000.

This solicitation is formatted as a Request for Proposal (RFP) and will be advertised utilizing FAR Part 36 subpart for two-phase Design-Build Selection Procedures and FAR Part 15 - Contracting by Negotiations resulting in a Firm Fixed Price (FFP) contract for construction services.

**** A compensatory stipend of \$200,000 will be provided to unsuccessful Offerors that participate in Phase II of this procurement. ****

This method permits evaluation of proposals based on price competition, technical merit and other factors; permits impartial and comprehensive evaluation of offerors' proposals; permits discussions if necessary; and ensures selection of the source whose performance provides the best value to the Government.

1.2 GENERAL OVERVIEW OF CONTRACT

The general intent of this solicitation is to award a Fixed Price Construction Contract is for Design-Build (DB) construction services for the Barracks Initiative (Package #2) located at the Marine Corps Base (MCB) Camp Lejeune, North Carolina and Marine Corps Air Station (MCAS) New River.

MCB Camp Lejeune Hadnot Point: Construct 3 story bachelor enlisted quarters (BEQ) to contain 300 total 2+0 rooms; two buildings of (150) 2+0 rooms each. Building demolition (off main replacement BEQ site): BEQs HP51, HP53, HP55, and HP57. Community and service core areas consist of laundry facilities, vending/MCX24 areas, multi-purpose rooms, community kitchens, administrative offices, housekeeping areas, mechanical, electrical and telecommunication rooms, bulk storage and public restrooms. Project will also include a recreation shelter with amenities.

MCB Camp Lejeune French Creek: Construct a three-story bachelor enlisted quarters (BEQ) to contain 85 total 2+0 rooms; one building. Building Demolition (off main replacement BEQ site): BEQ 1340. Community and service core areas consist of laundry facilities, vending/MCX24 areas, multi-purpose rooms, community kitchens, administrative offices, housekeeping areas, mechanical, electrical and telecommunication rooms, bulk storage and public restrooms. Project will also include a recreation shelter with amenities.

MCAS New River: Construct 3-4 multi-story bachelor enlisted quarters (BEQ) to contain 180 total 2+0 rooms; one building. Building Demolition (off main replacement BEQ site): BEQ AS4200, support building AS4201 and AS4204 (New River HIIT Center). Community and service core areas consist of laundry facilities, vending/MCX24 areas, multi-purpose rooms, community kitchens, administrative offices, housekeeping areas, mechanical, electrical and telecommunication rooms, bulk storage and public restrooms. Project will also include a recreation shelter with amenities.

2. BASIS FOR AWARD

The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contract; to negotiate with offerors in the competitive range; and to award the contract to the offeror submitting the proposal determined to represent the best value--the proposal most advantageous to the Government, cost/price and other factors considered.

The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

The tradeoff process is selected as appropriate for this acquisition. The Government considers it to be in its best interest to allow consideration of award to other than the lowest priced offeror or other than the highest technically rated offeror.

This procurement will utilize two-phase design-build selection procedures as prescribed in FAR Subpart 36.3, where non-price Factors 1-4 will be evaluated in Phase I, and non-price Factors 5-6 and price will be evaluated in Phase II. Factor 1 will only be rated Acceptable or Unacceptable. If an offeror is rated Unacceptable in Factor 1, then they will not be considered for Phase II, unless corrected through discussions, if held. In making the best value award decision after Phase II, the Government will consider non-price Factors 2-6 and price. The relative order of importance of the non-price evaluation factors is the technical factors (Factors 2, 3, 5, and 6) are of equal importance to each other and, when combined, are equal in importance to the past performance evaluation/performance confidence assessment factor (Factor 4). When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (i.e., the non-price evaluation factors) are significantly more important than price.

Any proposal found to have a Deficiency in meeting the stated solicitation requirements or performance objectives will be considered ineligible for award, unless the Deficiency is corrected through discussions, if held. An **Unacceptable** rating in any of the non-price factors will result in an overall rating of "**Unacceptable**" for the non-price factors, unless corrected through discussions. Proposals may be found to have either a Significant Weakness or multiple Weaknesses that impact either the individual factor rating or the overall rating for the proposal. The evaluation report must document the evaluation board's assessment of the identified Weakness(s) and the associated risk to successful contract performance resulting from the Weakness(s). This assessment must provide the rationale for proceeding to award without discussions.

3. EVALUATION FACTORS FOR AWARD

The solicitation requires the evaluation of price and the following non-price factors:

Phase I:

Factor 1 - Technical Approach

Factor 2 - Experience

Factor 3 - Safety

Factor 4 - Past Performance

Phase II:

Factor 5 - Technical Solution

Factor 6 - Small Business Utilization and Participation

The distinction between Experience and Past Performance is Experience pertains to the types of work and volume of work completed by a contractor that are comparable to the types of work covered by this requirement, in terms of size, scope, and complexity. Past Performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

For this two-phase design-build procurement, Factors 1-4 will be evaluated in Phase I and Factors 5-6 will be evaluated in Phase II. Factor 1 will only be rated Acceptable or Unacceptable. If an offeror is rated Unacceptable in Factor 1, it will not

be considered for Phase II, unless corrected through discussions, if held. In making the best value award decisions after Phase II, the Government will consider Factors 2-6 and price. The relative order of importance of the non-price evaluation factors are the technical factors (Factors 2, 3, 5, and 6) are of equal importance to each other and, when combined, are equal in importance to the past performance evaluation/performance confidence assessment factor (Factor 4). When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (i.e., the non-price evaluation factors) are significantly more important than price.

After evaluating Phase I proposals, the source selection authority shall select the most highly qualified offerors and request that only those offerors submit Phase II proposals. In accordance with FAR 36.303-1(a)(4), the solicitation shall state that a maximum of three (3) offerors will be selected to submit Phase II proposals unless the contracting officer determines that a number greater than three (3) is in the Government's best interest.

The importance of price will increase if the Offerors' non-price proposals are considered essentially equal in terms of overall quality, or if price is so high as to significantly diminish the value of a non-price proposal's superiority to the Government. Award will be made to the responsible Offeror whose offer conforms to the solicitation and represents the best value to the Government, price and non-price factors considered.

BASIS OF EVALUATION AND SUBMITTAL REQUIREMENTS FOR EACH FACTOR.

Price Proposal (Phase II):

(i) Solicitation Submittal Requirements:

The offeror shall submit one (1) electronic copy via PIII of the solicitation submittal requirements identified below. The Price and Non-price proposals shall be submitted in separate files and submitted in Portable Document Format (PDF). In addition, non-price/technical information included in the price proposal will not be considered; likewise, price information included in the non-price/technical proposal will not be considered. All required proposal documents shall be submitted in accordance with FAR 15.208.

All submissions shall include the following:

1. Executed SF1442. Offeror shall insert its company name and address in Block #14, telephone number in Block #15, acknowledge all amendments in Block #19 (if applicable), name and title of person authorized to sign in Block #20A, signature in Block #20B, and offer date in Block #20C of the SF1442. In addition, Offeror shall provide a cover page with solicitation number, solicitation title, Offeror name, address, phone number, fax number, Unique Entity Identifier (UEI), CAGE code, Federal Tax ID number, Point of Contact (POC), POC phone number, and POC email address with its proposal.
2. Completed Price Proposal Form. The Offeror is required to submit a complete Price Proposal Form that includes completion of all line items. Pricing information is not required to be completed under Section 00 10 00 - Solicitation Contract Form in SF 1442.
3. Bid Bond (SF-24). Offeror shall submit a bid bond (SF-24) in the amount of 20% of total project bid price for the project or \$3M, whichever amount is less. The bid bond shall be in the name of the offeror identified on the SF1442.
4. SAM registration. Offeror shall ensure current registration on the SAM Website, www.sam.gov, including Annual Representations and Certifications are complete and updated for this procurement. If a Representation or Certification required by Section 00 45 00 of the RFP is not provided in SAM, include the representation or certification in your price proposal. Please also submit the representation and certification for 52.209-13 - Violation of Arms Control Treaties or Agreements- Certification separately. It is not included in the annual representations and certifications in the System for Award Management. The Contracting Officer and/or Contract Specialist will verify the Offeror's registration in SAM only at time of submission of an offer and at the time of contract award, unless an exemption applies under FAR 4.1102(a)
5. FAPIIS. Offeror shall ensure Federal Awardee Performance and Integrity Information System (FAPIIS) is current, accurate, and complete, as required by FAR 52.209-7, Information Regarding Responsibility Matters.
6. VETS-4212 registration. Confirmation of filing of Veterans' Employment and Training (VETS-4212) for the 2025 filing cycle, if the Offeror is required to submit. Offeror shall ensure a current VETS-4212 report has been submitted to the Department of Labor (DOL) website, <http://www.dol.gov/vets/vets4212.htm>. An email confirmation of submission can be requested and received by the Offeror from the DOL website and submitted in

the price proposal. If the Offeror is not required to submit a report to VETS-4212, include a brief statement and justification explaining why the Offeror is not required to submit a report. Visit the VETS-4212 website for details concerning if your company is required to submit a VETS-4212 report and to request an email confirmation of submission.

7. Small Business Subcontracting Plan (Reference FAR 52.219-9 ALT II and DFARS 252.219-7003).

In accordance with FAR 19.7, all other than small businesses shall submit a Small Business Subcontracting Plan (SBSP) utilizing the template provided as Attachment G. Acceptability of the SBSP will be considered a responsibility matter. The SBSP will not be evaluated or rated by the SSEB but reviewed by a Small Business Professional/Authorized Representative and the Contracting Officer for acceptability. The SBSP shall be negotiated and/or accepted within the time specified by the Contracting Officer. Failure to negotiate an acceptable subcontracting plan within the time limit prescribed by the Contracting Officer will render the Offeror ineligible for award of the contract. The SBSP will be incorporated into the resulting contract.

NAVFAC's command-wide small business subcontracting targets are shown below. These may be higher or lower than percentages that would represent, challenging, small business subcontracting goals for this acquisition consistent with efficient and effective performance of the contract. These targets are based on a percentage of total planned subcontract dollars.

- | | |
|--|-----|
| • Small Business (SB) | 40% |
| • Small Disadvantaged Business (SDB) | 5% |
| • HUBZone SB | 3% |
| • Woman-Owned Small Business (WOSB) | 9% |
| • Service-Disabled Veteran-Owned Small Business (SDVOSB) | 5% |

The SBSP shall be consistent with the commitments offered in the Small Business Utilization and Participation factor. In accordance with DFARS 215.304(c)(i), when an evaluation assesses the extent that small businesses are specifically identified in proposals, those small businesses considered in the evaluation shall be listed in the SBSP.

Please note that SBSP goals and the participation rates provided in the Small Business Participation Commitment Document (SBPCD) WILL NOT be the same. The participation rates within the SBPCD are provided as percentages of the total contract value; subcontract plan goals are provided as a percentage of planned subcontracting dollars. While the percentages will differ, the types of products/services identified in the SBSP, should be the same as those products/services identified in the SBPCD. Likewise, the planned small business subcontract dollars in the SBSP will be equal to (or in some cases greater than) the extent of small business participation identified in the SBPCD.

1. Bank Reference. One (1) Signed Bank Reference demonstrating adequate financial resources. If offeror's firm has a line of credit, provide information on how many figures the offeror can borrow against the line of credit (i.e. medium 6 figures - exact line of credit is not required).
2. Financial Statements. The Offeror shall provide the latest three complete fiscal year financial statements for the prime contractor, certified by an independent accounting firm, if practicable, or signed by an authorized officer of the organization. Submit evidence of availability of working/operating capital, which will be used for the performance of the resultant contract. For Joint Venture arrangements, submit the latest three complete fiscal year financial statements for each company in the Joint Venture and discuss the financial responsibilities among the companies.
3. Facilities and Equipment. Provide a description of offeror's facilities and equipment.
4. Other Work. Provide a list of offeror's other work presently under contract.

(ii) Basis of Evaluation:

The Government will evaluate price based on the total price. Total price consists of the basic requirements and all option items (See Attachment I - Price Proposal Form). The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in Section 00 21 16 of the solicitation. In accordance with FAR 52.217-5, evaluation of options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

- (i) Comparison of proposed prices received in response to the RFP.

- (ii) Comparison of proposed prices with the IGCE.
- (iii) Comparison of proposed prices with available historical information.
- (iv) Comparison of market survey results.

Although required to be submitted with offeror's price proposal, Items 3 through 11 above will not be evaluated as part of the price proposal. This information will be utilized by the Government in the responsibility determination and for considering responsiveness to the solicitation requirements.

Non-Price Factors:

FAR Part 9.6 defines Contractor team arrangements. Contractor team arrangement, as used in this subpart, means an arrangement in which -- (1) Two or more companies form a partnership or joint venture to act as a potential prime Contractor; or (2) A potential prime Contractor agrees with one or more other companies to have them act as its subcontractors under a specified Government contract or acquisition program.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent /LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate how the affiliate/subsidiary/parent/LLC/LTD member companies will have involvement in the performance of the contract in order for the experience information of the affiliate/subsidiary/parent/LLC/LTD member companies to be considered. The proposal shall state specific commitments of technical resources (e.g., personnel, management, equipment that the affiliate/subsidiary/parent/LLC/LTD member companies shall commit to the performance of this contract). In particular, the proposal shall clearly state the specific commitments of resources of the affiliate/subsidiary/parent/LLC/LTD member companies in terms of the work it will either self-perform or manage on behalf of the Offeror in the performance of the contract. Vague commitments to support are likely insufficient; rather, they must demonstrate intent/manner of actual performance on the contract action being solicited. The information pertaining to affiliates/subsidiaries/parent/LLC/LTD member companies must be included within Factor 1 but does not need to be included on a Project Data Sheet.

The Offeror shall submit a signed copy of partnership agreement, teaming agreement, or letter of commitment for each member of the Offeror's team (e.g., partner, team member, subcontractor, parent company, subsidiary, or other affiliated company, etc.) whose projects are submitted to demonstrate Construction or Design Experience. The Government will not consider any project submitted for Factor 2 if it was performed by a firm other than the Offeror and there is no supporting partnership agreement, teaming agreement, or letter of commitment demonstrating the necessary level of meaningful involvement.

Refer to individual factors for page limitations. Information submitted beyond any of the page limits below will not be considered.

Note: If proposing as a Joint-Venture (JV), the offeror must submit the POC, UEI, and Cage Code for each JV partner.

Factor 1, Technical Approach:

(i) Solicitation Submittal Requirements:

The composition and management of the firms proposed as the design-build (DB) team for this contract will be evaluated in this factor.

The Offeror shall submit the following information:

- (1) Provide a simple organizational chart that clearly identifies the lines of authority between the proposed primary construction firms and primary design firms for this contract. Include a brief description of the role and responsibility of each entity not to exceed (1) one page. If the experience of an entity is being claimed in Factor 2, that entity must be named in the organizational chart.
- (2) In addition, the Offeror shall submit a signed copy of a joint venture agreement, partnership agreement, teaming agreement, approved mentor-protégé agreement (MPA), or letter of commitment signed by each member of the Offeror's team identified above (e.g., joint venture member, partner, team member, subcontractor, parent company, subsidiary, or other affiliated company, etc.). Letters of commitment for the Designer of Record shall be addressed from the Designer of Record to the Offeror. The Designer of Record's letter of commitment shall be signed by the Designer of Record's signing authority.

(ii) Basis of Evaluation:

The assessment of the Offeror's technical approach will be used as a means to review the organizational structure, roles, responsibilities, and management strategy proposed by the Offeror. The Government will evaluate the suitability of the team's structure and integration plan for successfully executing the proposed technical solution, including any proposed use of industrialized or alternative construction methods. This factor will be rated on an **Acceptable** or **Unacceptable** basis.

Factor 2, Experience:

(i) Solicitation Submittal Requirements:

The Offeror shall submit the following information:

Construction Experience:

Submit a minimum of three (3) and a maximum of five (5) relevant construction projects for the Offeror that best demonstrates your experience on relevant projects that are similar in Size and Scope/Complexity to the RFP. Offeror must have performed as **prime contractor** on all submitted projects. Experience of proposed subcontractors will not be considered. Additionally, the Offeror's experience as a subcontractor will not be considered.

For purposes of this evaluation, a relevant project is further defined as:

Size: New construction of a single facility 45,000 square feet or greater. At least one project must have a final construction cost of \$125,000,000

Scope/Complexity: At least two relevant projects must demonstrate experience with new construction of lodging facilities such as barracks, commercial hotels, dormitories/residences etc. At least one relevant project must demonstrate experience of a vertical multi-story facility and is not limited to a lodging facility.

Projects submitted for the Offeror shall be completed within the past **fifteen (15) years or be at least 90% complete** at the date of issuance of this RFP. **Projects which are not at least 90% completed as of the date issuance of this RFP will be considered "Not Relevant."** Additionally, projects completed prior to **fifteen (15) years** from the date of issuance of this RFP will be considered "Not Relevant."

Note: On the Construction & Design Experience Project Data Sheet (Attachment C), if final project completion has not been achieved by date of issuance of RFP, provide % of completion under construction completion date in Block 4.

A project is defined as a construction project performed under a single task order or contract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; instead, Offerors shall submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment C) is **MANDATORY** and **SHALL** be used to submit project information. The Government will not consider information submitted in addition to this form nor will the Government consider information submitted via any other medium. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed two (2) pages. If the same project is being used to demonstrate construction and design experience, the Offeror must submit separate Project Data Sheets for construction and design.

For all submitted projects, the description of the project shall clearly describe how the project meets the required timeframe as well as the above Size and Scope/Complexity requirements and clearly provides the final construction cost. **The absence of any such information or information that does not clearly address the requirements may result in the project being considered Not Relevant, which could result in a rating of UNACCEPTABLE for this Factor which renders the proposal ineligible for award.**

If the Offeror is a Joint Venture (JV), relevant project experience should be submitted for projects completed by the Joint Venture entity. If the Joint Venture does not have shared experience, projects may be submitted for the Joint Venture members. If a project was performed by a JV, and not all partners from that JV are on the JV proposed for this contract, the offeror shall clearly demonstrate what portion of the work was performed by the JV member offering on this contract and shall not include work performed by the JV as a whole. The JV member proposed for this contract shall specifically address field work performed by that JV member including field staffing and direct field work oversight. The JV member

proposed for this contract shall also address home office management performed by that JV member including the number /percentage of employees provided for the overall contract by the JV members as well as the overall percentage of work performed by the JV member. The Offeror shall also submit a SIGNED copy of the Joint Venture agreement indicating the proposed participation of each Joint Venture member. **Offerors are still limited to a total of five (5) projects combined.**

Offerors that are not submitting as a JV may submit a project where it performed as a JV with another entity but must clearly demonstrate how their work performed met Size, Scope/Complexity as defined above or the project will be considered Not Relevant.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract. The proposal shall state specific commitments of technical resources (e.g. personnel, equipment) that the affiliate/subsidiary/parent/LLC/LTD member companies commit to the performance of this contract. In particular, the proposal will clearly state the specific commitments of resources of the affiliate/subsidiary/parent/LLC/LTD member that will be located at the worksites and company offices in the city/area of the project. The proposal shall also describe specific roles of the affiliate/subsidiary/ parent/LLC/LTD member companies in terms of the work it will either self-perform or manage on behalf of the Offeror in performance of the contract. Vague commitments to support are likely insufficient; rather, they must demonstrate intent/manner of actual performance on the contract action being solicited. The information pertaining to affiliates/subsidiaries/parent/LLC/LTD member companies must be included within Factor 1 but does not need to be included on a Project Data Sheet. Failure to submit this information may result in a lower rating.

Design Experience:

Offerors shall submit a minimum of three (3) and a maximum of five (5) relevant design projects performed and completed by the proposed designer of record that best demonstrates design experience on relevant projects that are similar in Size and Scope/Complexity to the RFP. The Government will only review five (5) projects for design. Any projects submitted in excess of five (5) for Design Experience will not be considered.

For purposes of this evaluation, a relevant project is further defined as:

Size: New construction of a single facility 45,000 square feet or greater. At least one project must have a final construction cost of \$125,000,000.

Scope/Complexity: At least two relevant projects must demonstrate experience with new construction of lodging facilities such as barracks, commercial hotels, dormitories/residences etc. At least one relevant project must demonstrate experience of a vertical multi-story facility and is not limited to a lodging facility.

A project submitted under design experience will meet the recency requirement if the construction effort is ongoing, but the design completion date was reached within the **fifteen (15)** years of the date of issuance of this RFP. Each relevant completion date shall be clearly stated on the Construction & Design Experience Project Data Sheet.

A project is defined as a complete design effort performed under a single task order or contract/subcontract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; rather Offerors shall submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment C) is **MANDATORY** and **SHALL** be used to submit project information. The Government will not consider information submitted in addition to this form nor will the Government consider information submitted via any other medium. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed two (2) pages. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design.

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the Size and Scope/Complexity of this RFP.

The proposal shall state specific commitments of technical resources (e.g. personnel, equipment) that the affiliate /subsidiary/parent/LLC/LTD member companies commit to the performance of this contract. In particular, the proposal will clearly state the specific commitments of resources of the affiliate/subsidiary/parent/LLC/LTD member that will be located at the worksites and company offices in the city/area of the project. The proposal shall also describe specific roles of the affiliate/subsidiary/ parent/LLC/LTD member companies in terms of the work it will either self-perform or manage

on behalf of the Offeror in performance of the contract. Vague commitments to support are likely insufficient; rather, they must demonstrate intent/manner of actual performance on the contract action being solicited. The information pertaining to affiliates/subsidiaries/parent/LLC/LTD member companies must be included within Factor 1 but does not need to be included on a Project Data Sheet. Failure to submit this information may result in a lower rating.

The Offeror may utilize experience of a design subcontractor to demonstrate design experience. The Offeror must provide a supporting joint venture agreement, partnership agreement, teaming agreement, or letter of commitment and an explanation of the involvement for the design subcontractor. Offerors proposing multiple design firms should submit relevant project experience for all design firms. Failure to do so may result in a lower rating. Offerors are still limited to a total of five (5) projects combined.

(ii) Basis of Evaluation:

The basis of evaluation will include the Offeror's demonstrated experience and depth of experience in performing relevant construction and design projects as defined in the solicitation submittal requirements. The assessment of the Offeror's relevant experience will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the RFP. The Government will only review five (5) projects for construction and five (5) for design. Any projects submitted in excess of the five (5) for Construction Experience and five (5) for Design Experience will not be considered.

Proposals demonstrating projects where the Offeror and the proposed design firm(s) have previously worked together may be considered more favorably than those that have not worked together.

Proposals demonstrating design-build experience may be considered more favorably than those that do not have design-build experience.

Factor 3, Safety:

(i) Solicitation Submittal Requirements:

The Offeror shall submit the following information:

The Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate; and Total Case Rate (TCR) for the specified five (5) Calendar Years (CY), as well as a safety narrative as described further below. For a partnership, joint venture, the Offeror shall submit separate DART, TCR for the specified five (5) CY for each contractor who is part of the partnership or joint venture; however, only one safety narrative is required. Any fatalities experienced within this 5-year timeframe must be explained in detail, to include root cause and corrective actions.

NOTE: DART and TCR shall not be submitted for subcontractors.

1. DART Rate: Submit five (5) previous complete calendar years' [CY2025, CY2024, CY2023, CY2022, and CY2021] worth of data (not an overall average). If the Offeror has no DART rate for any year, affirmatively state so and explain why. If the DART rate calculation is 0.0, affirmatively state there were no DART cases during that year. Should a negative trend occur above moderate risk levels, an acceptable/detailed explanation is required, that includes any corrective actions taken for improvement.

- a. Dart cases include injuries or illnesses resulting in death, days away from work, and/or restricted work or transfer to another job days beyond the day of injury/illness.
- b. Calculation of DART rate: Multiply the total number of DART cases by 200,000 and then divide by the number of employee labor hours worked.

2. TCR Rate: Submit five (5) previous complete calendar years' [CY2025, 2024, 2023, 2022, and 2021] worth of data (not an overall average). If the Offeror has no TCR rate for any year, affirmatively state so and explain why. Should a negative trend occur above moderate risk levels, an acceptable/detailed explanation is required, that includes any corrective actions taken for improvement.

- a. TCR cases include injuries or illnesses resulting in death, days away from work, restricted work or transfer to another job days beyond the day of injury/illness, medical treatment beyond first aid, or loss of consciousness.

- b. Calculation of TCR rate: Multiply the total number of TCR incidents by 200,000 and then divide by the number of employee labor hours worked.

3. Technical Approach for Safety: Submit a narrative that addresses the following:

- a. Describe the Offeror's approach to implementing and executing a Safety Management System (SMS) including Management/Leadership involvement, Employee involvement, Hazard prevention, Hazard control, Worksite analysis, and Safety and health training, to include the standard(s) used to benchmark the SMS.
- b. Describe the evaluation process used to select potential subcontractors.
- c. Describe the processes of how the Offeror will oversee safety compliance of subcontractors at all levels throughout the performance of the contract (to include their own in-house workforce).
- d. The Technical Approach to Safety narrative shall be limited to two pages.

4. The Government reserves the right to review other available sources (public/Government internal) of information. These may include but are not limited to OSHA data, NAVFAC's Contractor Incident Reporting System (CIRS), Contractor Performance Assessment Reporting System (CPARS), Electronic Contract Management System (eCMS), etc.

(ii) Basis of Evaluation:

The Government is seeking to determine that the Offeror has consistently demonstrated a commitment to safety and that the Offeror plans to properly manage and implement safety procedures for itself and its subcontractors. The evaluation will collectively consider the DART rate, TCR, Technical Approach to Safety, and other sources of information available to the Government as part of such collective evaluation. The board will evaluate the DART rates and TCR to determine if the Offeror has demonstrated a history of safe work practices taking into account any negative trends and extenuating circumstances that impact the rating.

1. DART Rate: The board will evaluate trends over the last five years considering changes that take it from one risk level (or more) to the next up or down. Negative trends occurring above moderate risk levels require the Offeror to provide a detailed explanation that includes any corrective actions taken for improvement.

- a. Missing data without an explanation is considered a Deficiency.
- b. Declining trends that push the risk levels from Moderate Risk (MR) or higher to Low Risk (LR) or Very Low Risk (VLR) may indicate a Strength.
- c. An increasing DART rate trend could be considered a Weakness (i.e. MR or better to High Risk (HR) or Extremely High Risk (EHR)) if an acceptable explanation is not provided for any trends that rise above Moderate.
- d. This chart correlates the DART rate to the level of risk:

<u>Risk</u>	<u>DART Rate</u>
Very Low Risk	Less Than 1.0
Low Risk	From 1.0 to 1.99
Moderate Risk	From 2.0 to 2.99
High Risk	From 3.0 to 4.0
Extremely High Risk	Greater than 4.0

2. TCR Rate: The board will evaluate trends over the last five years considering changes that take it from one risk level (or more) to the next up or down. Negative trends occurring above moderate risk levels require the Offeror to provide a detailed explanation that includes any corrective actions taken for improvement.

1. Missing data without an explanation is considered a Deficiency.

2. Declining trends that push the risk levels from Moderate Risk (MR) or higher to Low Risk (LR) or Very Low Risk (VLR) may indicate a Strength.
3. An increasing TCR rate trend could be considered a Weakness (i.e. MR or better to High Risk (HR) or Extremely High Risk EHR)) if an acceptable explanation is not provided for any trends that rise above Moderate.
4. This chart correlates the TCR rate to the level of risk:

<u>Risk</u>	<u>TCR Rate</u>
Very Low Risk	Less Than 2.49
Low Risk	From 2.5 to 3.49
Moderate Risk	From 3.5 to 4.49
High Risk	From 4.5 to 5.99
Extremely High Risk	Greater than 6.0

3. The Technical Approach to Safety Narrative. To determine the degree to which the Offeror:

1. Describes a viable approach to implementing and executing a Safety Management System (SMS) including Management/Leadership involvement, Employee involvement, Hazard prevention, Hazard control, Worksite analysis, and Safety and health training, to include the standard(s) used to benchmark the SMS.
2. Describes a methodical process of evaluating subcontractor's safety performance in their selection process.
3. Describes a logical management plan to hold themselves and their subcontractors accountable for adhering to the safety requirements of the contract.
4. The Technical Approach to Safety narrative shall be limited to two (2) pages. Information on pages beyond this will not be considered.

4. The Government reserves the right to review other available sources (public/Government internal) of information. These may include but are not limited to OSHA data, NAVFAC's Contractor Incident Reporting System (CIRS), Contractor Performance Assessment Reporting System (CPARS), Electronic Contract Management System (eCMS), etc.

Factor 4, Past Performance:

Recent, relevant projects are determined within the requirements for Factor 2 - Experience.

(i) Solicitation Submittal Requirements:

If a completed Contractor Performance Assessment Reporting System (CPARS) evaluation is available, it shall be submitted with the proposal for each project included in Factor 2 for **construction experience**. If a completed A-E CPARS evaluation is available, it shall be submitted with the proposal for each project included in Factor 2 for **design experience**. The offeror shall include all completed CPARS evaluations (interim and final) for a project. If there is not a completed CPARS evaluation, then submit a Past Performance Questionnaire (PPQ) (Attachment D) for each project included in Factor 2 for both Construction Experience and Design Experience.

The Offeror should provide completed PPQ's in the proposal. Offerors shall not incorporate by reference into their proposal PPQs previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation. If the Offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the Offeror shall complete and submit with the proposal the first page of the PPQ, which will provide contract and client information for the respective project(s). The Government may make reasonable attempts to contact the client noted for that project(s) to obtain the PPQ information. However, Offerors should follow-up with clients/references to help ensure timely submittal of questionnaires. Offerors should ensure correct phone numbers and email addresses are provided for the client point of contact. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Mary Ann Pool, via email at mary.a.pool3.civ@us.navy.mil prior to proposal closing date.

AN OFFEROR SHALL NOT SUBMIT A PPQ WHEN A COMPLETED CPARS IS AVAILABLE BUT MAY SUBMIT A PPQ IN ADDITION TO A COMPLETED CPARS.

Offerors are highly encouraged to provide any information on problems encountered and the corrective actions taken on projects submitted under Factor 2 - Experience. Offerors are also highly encouraged to address any adverse past performance issues. Such explanations shall not exceed four (4) pages in total. Information beyond this page limitation will not be considered.

Performance award or additional information submitted will not be considered.

Sources of Past Performance Information for evaluation for the offeror and the Designer of Record will be considered. Sources that may be used are as follows:

- Past performance information provided by the offeror, as solicited;
- Past performance information obtained from questionnaires tailored to the circumstances of the acquisition; and
- Past performance information obtained from any other sources available to the Government, to include, but not limited to, Contractor Performance Assessment Reporting System (CPARS), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), or other databases; the Defense Contract Management Agency; and interviews with Program Managers, Contracting Officers, and Fee Determining Officials.

While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

A copy of the blank Past Performance Questionnaire to be used for requesting client references is included as Attachment D.

The Government reserves the right to contact references for verification or additional information. The Government's inability to contact any of the Offeror's references or the references' unwillingness to provide the information requested may affect the Government's evaluation of this factor.

(ii) Basis of Evaluation:

This evaluation focuses on how well the Offeror and the proposed Designer of Record performed on the relevant projects submitted under Factor 2 - Experience and may also consider past performance on other relevant projects currently documented in known sources.

The Government will consider the recency and relevance of the information, the source of the information, context of the data, and general trends in Contractor's performance. In the case of Offerors for which there is no information on past performance, or where past performance information is not available or so sparse that no meaningful assessment can be performed, the Offeror may not be evaluated favorably or unfavorably and will instead receive a "Neutral" rating (See FAR 15.305(a)(2)(iv)). The Government may determine that a "Substantial Confidence" or "Satisfactory Confidence" past performance rating is worth more than a "Neutral Confidence" past performance rating in a best value tradeoff as long as the determination is consistent with stated selection criteria.

The Government will consider the degree to which past performance evaluations and all other past performance information reviewed by the Government (e.g., CPARS, Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), performance recognition documents, and information obtained from any other source) reflect a trend of satisfactory performance considering:

- A pattern of successful completion of tasks;
- A pattern of deliverables that are timely and of good quality;
- pattern of cooperativeness and teamwork with the Government at all levels (task managers, contracting officers, auditors, etc.); and
- Recency of tasks performed that are identical to, similar to, or related to the task at hand.

Factor 5, Technical Solution:

(i) Solicitation Submittal Requirements:

Provide conceptual drawings, narrative, and project schedule demonstrating the technical solution to the project that meets the requirements of the RFP.

Conceptual Drawings: Provide up to fifteen (15) conceptual drawings/sheets to include, but not limited to:

- Site Plan including primary facilities, roadways, parking, emergency vehicle access, and standoff distances.
- Floor Plan including interior circulation, adjacencies, square footage and mechanical spaces.
- Exterior facade of the facilities

Narrative: Provide a narrative not to exceed eight (8) pages that at a minimum addresses the following:

(1) Design Methodology

- a. Architectural elements
- b. Building structure elements
- c. Building envelope
- d. Mechanical Systems and DDC Controls to include accessibility to Mechanical room and circulation within the mechanical system.
- e. Electrical and Communication Systems infrastructure.
- f. Resiliency to include cyber secure EMCS integration, utility metering and controls
- g. Anti-terrorism/force protection features
- h. General concept proposed to meet sustainability and low impact development (LID).
- i. Site layout to include building orientation, roadways, parking (include ingress and egress), emergency vehicle access, and standoff distances.

(2) Construction Methodology

- a. State the primary construction method proposed (e.g. site-built, modular, pre-fabricated, industrialized construction, or a hybrid)
- b. Provide a detail description on how the selected method will address each building component's construction (e.g. CMU, insulated concrete forms panelized wall systems, precast elements, bathroom pods, MEP racks, full volumetric modules) or constructed using alternative on-site techniques.
- c. Provide a detailed description on the logistical approach and how this approach mitigates challenges relating to construction on an active military base

(3) Management Team

- a. Provide a detailed description on the management of the multiple and concurrent construction sites included in this RFP.
- b. Provide a detailed description on the plan for securing, managing, and maintaining subcontracted labor for this RFP.
- c. Provide a chart and accompanying narrative to demonstrate the management hierarchy (by position) of the entire project to include both the design and construction teams. This narrative shall include authorities; roles; responsibilities; and a brief synopsis of the names, education, training and experience of key individuals based on the proposed management structure. (Note: Key individuals may vary among offerors based on the proposed management structure.)

Project Schedule: Provide a detailed project schedule, documenting any multiple critical paths, in 11" x 17" pages and in an Adobe PDF file. There is no page limit on the schedule. The schedule shall include a high-level schedule with major

milestones, for both design and construction on the critical path. The project schedule shall illustrate the offeror's ability to achieve or improve on the contract completion date set out in the RFP (1825 calendar days inclusive of base bid work as well as all options, including 15 days for bond approval). Identify the overall completion time for this project, as well as interim completion times (including each sequence of work as identified in the RFP) and key milestones for sequences as required to complete construction. For evaluation purposes, the offerors schedule should use an estimated contract award date of 30 September 2026. The schedule shall demonstrate an understanding of the work, a logical sequence of events to accomplish the work, and contain enough information to identify all of the major milestones, as defined in the RFP.

Failure to include the above information in the schedule may result in the schedule and, therefore, this factor being found UNACCEPTABLE. An UNACCEPTABLE rating results in the offeror being ineligible for award.

(ii) Basis of Evaluation:

The Government will evaluate the conceptual drawings, narrative, and project schedule considering the extent to which the Offeror demonstrates a clear understanding of the RFP inclusive of the project's architectural, engineering, logistical, and energy requirements. The evaluation will focus on how the Offeror's proposed technical solution, including the chosen construction methodology, effectively and innovatively adheres to the technical and performance requirements of the RFP.

The evaluation will be based on the following components:

Conceptual Drawings: The Government will assess the clarity of conceptual drawings in conveying a functional, compliant design with logical circulation and appropriate adjacencies is critical.

Narrative:

1. Design Methodology: The Government will assess the coherence and innovation of the proposed design. The evaluation will focus on the complete integration of all required elements--from architectural and structural to resiliency and site layout.
2. Construction Methodology: The proposed construction approach will be evaluated for its soundness and efficiency. Offerors must provide a strong justification for their chosen method (e.g., site-built, modular, hybrid). The evaluation will scrutinize the feasibility of the construction plan and the thoroughness of the logistical strategy, particularly how it identifies and mitigates the unique challenges of building on an active military installation.
3. Management Team: The Offeror's management plan will be assessed to determine the team's capability to execute the project successfully. The evaluation will consider the clarity and effectiveness of the management hierarchy, the definition of roles and responsibilities, and the viability of the subcontractor management plan. Most importantly, the qualifications and experience of key personnel must align with their proposed roles to instill confidence in their ability to lead the project.
4. Project Schedule: The project schedule will be evaluated for its realism, logic, and ability to meet the contract completion date. The schedule must present a logical sequence of work and include all major design and construction milestones. An overly aggressive schedule without a supporting, well-reasoned methodology may be viewed as a risk. The evaluation will focus on whether the schedule is achievable and demonstrates a clear path to successful and timely completion.

A schedule that proposes a realistic and feasible contract duration that is shorter than the required duration indicated in the RFP may be considered more favorably.

Factor 6, Small Business Utilization and Participation:

It is the policy of the Government to provide maximum practicable opportunities in its acquisitions to Small Business (SB) concerns, including Small Disadvantaged Business (SDB), Woman-Owned Small Business (WOSB), Historically Underutilized Business Zone Small Business (HUBZone SB), Veteran-Owned Small Business (VOSB), Service-Disabled Veteran-Owned Small Business (SDVOSB), and other small business concerns. Further, it is the policy of the Government that such concerns will have the maximum practicable opportunity to participate in contract performance consistent with its efficient performance.

This Factor assesses both the historical achievements in utilizing small business concerns and the proposed small business participation commitment for this requirement. The offeror is required to demonstrate its previous commitment to SBs through its record of past utilization of SBs and the level of commitment to small business if awarded a contract under this solicitation.

(i) Solicitation Submittal Requirements:

1. All Offerors (large, non-profits, **AND** small businesses) shall use **Attachment E** (Historical Small Business Utilization) to demonstrate their historical utilization of SBs. Each project submitted under **Factor 2, Experience**, shall be included on **Attachment E**. Failure to include each project submitted under **Factor 2, Experience**, on **Attachment E**, or the failure to fully complete **Attachment E** for each project may result in a Deficiency. Only complete **Attachment E**. Information provided in a different format and/or on a form created by the offeror will not be evaluated. Attachments or addendums to **Attachment E** will not be evaluated. Offerors are permitted to expand portions of the form, as needed, to provide sufficient response. Instructions regarding how to complete **Attachment E** are included at the beginning of the attachment.

2. All Offerors (large, non-profits, **AND** small businesses) shall use **Attachment F** (Small Business Participation Commitment Document (SBPCD)) to submit the following required information for evaluation of this factor:

- To demonstrate commitment to use small business concerns in the performance of this contract, identify by name the subcontractors that will be used to support each small business category, including SDB, WOSB, HUBZone SB, VOSB, and SDVOSBs. Identify the type and complexity of product/service to be subcontracted, and the type of commitment (i.e., teaming agreement, joint venture agreement, mentor protegee agreement, letter of commitment, etc.) with each subcontractor.
 - If subcontractors are not identified by name, offerors shall provide a detailed explanation why subcontractors are not identified. If firm written commitments with SBs are not in place, offerors shall provide an explanation and rationale on the ability to achieve the proposed participation. (See **Attachment F**, paragraph 5)
 - If a LB offeror does not intend to subcontract, provide a **detailed explanation** why subcontracting would not result in efficient contract performance. SBs intending to 100% self-perform are not required to provide an explanation. (See **Attachment F**, paragraph 6)
- To demonstrate maximum practicable participation of small businesses, identify (**in terms of dollar value and percentage of the total contract value**) the offeror's proposed small business participation. The minimum required small business participation (i.e. work to be performed by small business as the prime contractor and/or work to be performed by small business subcontractors) is **20%**. Offerors who are not able to meet the minimum total small business participation requirement of **20%** (of the total contract value) shall provide a detailed explanation why the minimum total small business participation requirement cannot be achieved.
- Only complete **Attachment F**. Information provided in a different format and/or on a form created by the offeror will not be evaluated. Attachments or addendums to **Attachment F** will not be evaluated.
- Large business offerors may achieve the minimum total small business participation requirement through subcontracting to small businesses.
- Small business offerors may achieve the minimum total small business participation requirement through their own performance/participation as a prime as well as through a joint venture, teaming arrangement, and/or subcontracting with other small business concerns.

(ii) Basis of Evaluation:

The Government will evaluate the likelihood of success in achieving the small business objectives of this acquisition based on the following:

1. The extent to which the offeror is able to demonstrate a history of supporting Government policies concerning the utilization of small business concerns, including SDB, WOSB, HUBZone SB, VOSB, and SDVOSB and the success in achieving goals established by subcontracting plans on prior contracts. For projects submitted for **Factor 2, Experience**, that did not have established small business goals, consideration will be given to the utilization of the small business concerns and the degree of usage of small business relative to the total contract value. Historical Small Business Utilization will only be evaluated if performed by the offeror.

2. The extent to which the offeror has demonstrated an achievable commitment to use small businesses, including SDB, WOSB, HUBZone SB, VOSB, and SDVOSB in the performance of this contract within the SBPCD.

- The minimum small business participation requirement, through work performed by the small business prime and/or subcontracting with small businesses, shall meet or exceed **20%** of the total contract value, unless the offeror provides a reasonable and well-documented explanation for why the minimum **20%** small business participation requirement cannot be achieved.
 - Offerors that demonstrate a commitment to providing maximum practical opportunity to small businesses may be rated higher.
 - Proposing less than **20%** total small business participation requirement may result in a Deficiency.
 - Offerors that do not demonstrate commitment to providing maximum practical opportunity to small businesses may result in a Deficiency.
- The SBPCD will be evaluated to determine the extent to which small business concerns are specifically identified by name and socioeconomic category in the document and the degree to which small business concerns, including SDB, WOSB, HUBZone SB, VOSB, and SDVOSB will participate relative to the total contract value. The complexity and variety of the work small business concerns will perform and the degree of commitment to use named sources through formal teaming agreements, joint venture agreements, mentor protege agreements, written/signed letters of /commitment, etc. will be evaluated to assess achievability of the commitment.
 - The offeror may receive a Deficiency if firm commitments with subcontractors are not provided and the offeror fails to provide a detailed explanation for how the proposed small business participation requirement will be achieved.
 - The offeror may be rated lower, if they fail to provide a detailed explanation for why subcontracting would not result in efficient contract performance. (Not applicable to SBs intending to 100% self-perform or LBs and non-profits who intend to subcontract.)

4. PROPOSAL REQUIREMENTS

4.1 SITE VISIT

The Site Visit will be conducted during Phase II and information will be provided via Amendment.

4.2 PROPOSAL SUBMISSION INSTRUCTIONS:

In response to this request for proposal, the complete proposal shall include both the Price Proposal and the Non-Price Factors Proposal, submitted in accordance with the above Basis of Evaluation and Submittal Requirements for each Factor as follows:

Offerors shall only submit electronic proposals (.pdf format) in response to this solicitation by the proposal due date. Only the PIEE Solicitation Module is authorized for the submission of electronic proposals in response to this solicitation. Electronic proposal submissions should be no larger than 1.9 GB per file. Offerors shall ensure that the Government has received the electronic proposal prior to the date and time specified. PIEE Solicitation Vendor Access Instructions are provided via Attachment B. Emailed submissions will not be accepted.

Offerors shall allow adequate time to upload files which may be slower for non-DoD users and to avoid other technical difficulties that may be encountered. Offerors are also responsible for submitting files in the format specified and consistent with requirements stated elsewhere in this solicitation. Files that cannot be opened or are otherwise missing the required content are the responsibility of the Offeror.

The PIEE system will record the date and time of package submittal. The date and time of package submittal recorded in PIEE shall govern the timeliness of any proposal submission.

PROPOSALS SUBMITTED IN RESPONSE TO THIS REQUEST FOR PROPOSAL MUST BE RECEIVED NO LATER THAN THE DATE AND TIME SPECIFIED IN BLOCK 13A OF THE SF1442. Proposals not received by the date and time specified shall be treated in accordance with FAR 52.215-1 "Instructions to Offerors - Competitive Acquisitions" and may be rejected.

Price information contained in the technical proposal will not be considered. Likewise, technical information contained in the price proposal will not be considered.

It is the sole responsibility of the Offeror to obtain the RFP files, along with any amendments, from Opportunities (www.sam.gov).

4.3 PRE-PROPOSAL INQUIRIES (PPIs):

All inquiries must be submitted in writing and received by the Contract Specialist by the date specified herein in order to permit adequate time to reply to the inquiry. There is no guarantee that PPI's submitted after the cut-off date will be answered before the solicitation closes. Submit all questions to Mary Ann Pool at mary.a.pool3.civ@us.navy.mil with the e-mail subject line "N4008526R0058 PPI {Company Name}." Use of the PPI Log template is required. Do not submit the same inquiry more than once. Please verify that inquiries submitted by you on behalf of your subcontractors are not duplicates. A response will be published via Amendment to SAM.gov. The PPI Log Template (Attachment A) can be found on Contract Opportunities under the Attachments section. PPI Questions shall be submitted no later than fourteen (14) calendar days prior to the proposal due date.

4.4 CONTRACT OPPORTUNITIES:

Amendments will be posted directly to PIEE and Contract Opportunities/Sam.gov. The DB RFP will be posted on PIEE /Sam.gov under the Attachments section of this RFP. Additionally, other postings will be made to PIEE/Sam.gov, such as the pre-proposal inquiries (PPI) log, revised RFP documents, etc., under the Attachments section of the RFP. It is recommended contractors check PIEE/Sam.gov and the Attachments section of the RFP periodically to see if additional postings have been made. It is the contractor's responsibility to check PIEE/Sam.gov for all postings.

5. INCORPORATION OF TECHNICAL PROPOSAL

The Contractor's technical proposal, including revisions and amendments, made prior to contract award and a copy of which is in the possession of both parties, will be incorporated into this contract upon award by reference with the same force and effect as if set forth in full text. All contractor personnel shall meet or exceed the qualification standards, experience levels and trade background set forth in the technical proposal.

In the event of an inconsistency between the provisions of this contract and the technical proposal, the inconsistency shall be resolved by giving precedence in the following order: (i) the contract (excluding the technical proposal), and then (ii) the technical proposal.

6. ATTACHMENTS: MAY BE LOCATED ON CONTRACT OPPORTUNITIES AND PIEE UNDER ATTACHMENTS

Attachment A - Pre-Proposal Inquiry Log Template

Attachment B - PIEE Vendor Access Instructions

Attachment C - Construction and Design Experience Project Data Sheet

Attachment D - Past Performance Questionnaire

Attachment E - Historical Small Business Utilization (*provided with Phase II*)

Attachment F - Small Business Participation Commitment Document (*provided with Phase II*)

Attachment G - Individual Small Business Subcontracting Plan (*provided with Phase II*)

Attachment H - DB RFP Package (*provided with Phase II*)

Attachment I - Price Proposal Form (*provided with Phase II*)

Section 00 70 00 - Conditions of the Contract

Additional Information/Notes

The following clauses were added:

FAR Clauses Incorporated by Reference

Number	Title	Effective Date	Alternate/ Deviation	Variation Effective Date
52.223-1	Biobased Product Certification. (Deviation)	Feb 2026		
52.223-2	Reporting of Biobased Products Under Service and Construction Contracts. (Deviation)	Feb 2026		

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE (SF 30)

1. Responses to Pre-Proposal Inquiries (PPIs):

PPI #	Reference			Question	Government Response
	Page	Section	Paragraph		
1	11 of 58	Construction Experience		This section states "Projects submitted for the Offeror shall be completed within the past thirteen (13) years of the date of issuance of this RFP." PPI = Our firm is currently 95% complete on a 2+0 BEQ at Fort Meade which is utilizing prefabricated systems similar to potential systems anticipated for this BEQ project. Would NAVFAC please consider projects 95% complete to allow Offerors to showcase the most recent relevant BEQ experience?	Please see Amendment 0002.
2	10 of 60	Factor 2, Experience	1	Factor 2 – Experience "states that projects submitted must be completed within the past thirteen (13) years from the date of issuance of the RFP." Please consider extending the recency requirement to fifteen (15) years to allow offerors to include additional highly relevant projects of similar size, scope, and complexity.	Please see Amendment 0002.
3				Will the Government permit grooved mechanical pipe joining systems to be specified in Division 23 piping specifications as an acceptable joining method for hydronic and HVAC systems, provided the systems comply with project pressure, temperature and performance requirements, consistent with industry standards and the baseline specification of the Unified Facilities Guide Specifications?	Grooved piping will not be allowed.

4				For coordination of technical questions related to mechanical piping joining methods and applicable design criteria, could the Government please provide the name and contact information for the project's mechanical engineering point of contact or discipline lead?	All communication is required to go through the government utilizing the PPI process during the solicitation phase.
5	6	Solicitation , RFP		Please indicate the barracks slated for demolition under the French Creek package. The barracks listed seem to be for the Air Station.	Building numbers revised via Amendment 0001
6	17	Solicitation , RFP		(3) Management Team - Can the government indicate the proposed staffing requirements for the construction phase of the project. For instance will each barracks require a specific team of individuals or will the staffing requirements be predicated per campus; i.e. Hadnot Point, French Creek and Air Station sites?	Hadnot Point Sitework/Development/Buil dings – 4 Personnel (Super, Primary QC, SSHO, Assistant QC) *Assistant QC can have less experience than Primary but not less than half of the time requirement. Hadnot Point Demo – 2 Personnel (Super/SSHO) & QC French Creek – 3 Personnel (Super , QC, SSHO) New River – 3 Personnel (Super, QC, SSHO)
7	17	Solicitation , RFP		Project Schedule - Are design packages phased for these barracks packages or are the CDWs, designs, QA meetings all to be concurrent? If not phased will the government provide the requisite staff to review these designs concurrently?	Each project has distinct RFP requirements and should be treated separately. Construction contractor is responsible for schedule consistent with RFP requirements.
8	17	Solicitation , RFP		Project Schedule - Is there a priority listing for the barracks package #2 initiative? I.e. a preference listing in the 5 year delivery period for Hadnot Point, French Creek and the New River Air Station sites?	Each package will have its own period of performance consistent with the contract documents

9	17	Solicitation , RFP		Project Schedule - For Hadnot Point and New River will each building be allowed to have a separate turnover (BOD) date or will the campuses be required to be turned over concurrently?	Each package will have their own DD1354 requirements and BOD
10	A/R	Solicitation , RFP		What government reviewers will be part of the design review process? I.e. will there be multiple reviewer groups staffed to review designs outside of local base reviewers?	NAVFAC and local installations provide technical reviewers
11	A/R	Solicitation , RFP		What role will AE#1 support for this project after RFP delivery? Will they provide lead design reviews, during construction support, additional roles?	AE#1 is anticipated to be under contract by the government to assist in the governments post award design services, but the full scope has not been finalized
12	6	Solicitation , RFP		Will buildings slated for demolition commence before or after new construction work? I.e. is new construction utilizing the same footprints?	Construction contractor is responsible for schedule consistent with RFP requirements. New barracks are located in a different footprint from existing barracks.
13	A/R	Solicitation , RFP		Can the government provide the framework for the price proposal sheet broken out per CLIN to better understand the dynamics of the project?	Price Schedule will be issued with Phase 2 RFP.
14	A/R	Solicitation , RFP		Will all three campuses be part of base bid or will there be high dollar building options associated with this proposal?	One campus will be the base and the other campuses will be options. The base/option strategy for the buildings is under development.
15	A/R	Solicitation , RFP		Please indicate the willingness to work around the confines of the Camp Lejeune BEAP as it relates to modular, prefabricated or otherwise stream lined construction. For instance the Air Station and Hadnot Point barracks slated to be demolished are similar in construction with the roof and brick colors being noticeably different. Can a similar approach be anticipated or will	Floor plans of the facility do not need to match the facilities being demolished. We anticipate floor plans for adjacencies to room modules, utility/mech rooms, and common spaces to become programmatic across all 3 distinct campuses/areas due to RFP requirements. The exterior appearance shall comply

				distinct floor plans integrated with newer architecture in Hadnot Point, French Creek and the Air Station be anticipated?	with the BEAP for that construction district.
16	A/R	Solicitation , RFP		Who will be responsible for the Commissioning effort on these projects? Will this be a contractor employed 3rd party or will the government be responsible for the commissioner?	The Government will procure third party commissioning services.
17	10	Solicitation , RFP		Due to the scarcity of new barracks projects being constructed in the past 13 years, please consider allowing major renovations of barracks that meet all other requirements.	See answer to PPI #2
18	1	Solicitation , RFP		Please consider extending the due date to 14 days after receiving PPI responses back from Government.	Proposal due date remains unchanged
