

☒ **BRAND NAME/SOLE SOURCE JUSTIFICATION (SAM) ≤ SAT**

☐ **LIMITED-SOURCES JUSTIFICATION (GSA) ≤ SAT**

☐ **JUSTIFICATION FOR AN EXCEPTION TO FAIR OPPORTUNITY
(ID/IQ TASK ORDER/DELIVERY ORDER) ≤ SAT**

1. Description of Supplies/Services.

PART #	DESCRIPTION	Brand	QTY
2239648	Shipping Crate for 130B-24	Mahr	1
2259317	Shipping Hardware for 130B-24	Mahr	1
2240069	Factory System Upgrade – 130B-24 Includes: - Reconditioning (or replacement) of sensor - Total system recalibration - Refurbishment and repainting of mechanical components - Installation of new platen with positioning template - New Operating Software	Mahr	1

The requested ☒ supplies ☐ services represent the minimum requirements of the Government, which have been verified by the certifying technical and requirements personnel.

2. Regulatory Authority Permitting Other Than Full and Open Competition.

SAM

☐ FAR 13.106-1(b)(i) Soliciting from a single source

☒ FAR 13.106-1(b)(ii) Particular brand-name item

GSA

☐ FAR 8.405-6(a)(i)(1)(A) An urgent and compelling need exists

☐ FAR 8.405-6(a)(i)(1)(B) Only one source is capable of providing the supplies or services required at the level of quality required because the supplies or services are unique or highly specialized

☐ FAR 8.405-6(a)(i)(1)(C) In the interest of economy and efficiency, the new work is a logical follow-on to an original Federal Supply Schedule order provided that the original order was placed in accordance with the applicable Federal Supply Schedule ordering procedures (the original order or BPA must not have been previously issued under sole-source or limited-sources procedures).

☐ FAR 8.405-6 (b) Items peculiar to one manufacturer (brand-name item)

ID/IQ Task Order/Delivery Order (e.g. NASA SEWP or ARMY CHES)

☐ FAR 16.505(b)(2)(i)(A) The agency need for the supplies or services is so urgent that providing a fair opportunity would result in unacceptable delays.

- ☐ FAR 16.505(b)(2)(i)(B) Only one awardee is capable of providing the supplies or services required at the level of quality required because the supplies or services ordered are unique or highly specialized
- ☐ FAR 16.505(b)(2)(i)(C) The order must be issued on a sole-source basis in the interest of economy and efficiency because it is a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity to be considered for the original order. [When utilizing this exception, the rationale shall describe why the relationship between the initial order and the follow-on is logical (*e.g.*, in terms of scope, period of performance, or value).]
- ☐ FAR 16.505(b)(2)(i)(D) It is necessary to place an order to satisfy a minimum guarantee.
- ☐ FAR 16.505(b)(2)(i)(E) For orders exceeding the *simplified acquisition threshold*, a statute expressly authorizes or requires that the purchase be made from a specified source.
- ☐ FAR 16.505(b)(2)(i)(F) In accordance with section 1331 of Public Law 111-240 (15 U.S.C. 644(r)), *contracting officers may*, at their discretion, set aside orders for any of the small business concerns identified in 19.000(a)(3). When setting aside orders for small business concerns, the specific small business program eligibility requirements identified in part 19 apply.
- ☐ FAR 16.505(b)(2)(i)(G) For DoD, NASA, and the Coast Guard, the order satisfies one of the exceptions permitting the use of other than *full and open competition* listed in 6.302 (10 U.S.C. 3406(c)(5)). The public interest exception *shall* not be used unless Congress is notified in accordance with 10 U.S.C. 3204(a)(7).

3. Rationale Justifying Use of Cited Regulatory Authority.

a.) ☒ ***The Items Described in Paragraph 1 Must Be Compatible In All Aspects (Form, Fit And Function) With Existing Systems Presently Installed.***

The upgraded system must be functionally compatible with six (6) existing Instrument Calibration Procedures (ICPs) that are validated for Mahr systems. A system from any other source would invalidate these procedures and require a complete re-certification process. Only Brand Name Mahr equipment is compatible with the existing Mahr Gage Block Comparator, ensuring functional compatibility with the upgraded system is maintained.

b.) ☒ ***A Patent, Copyright, or Proprietary Data Limits Competition.***

The service to upgrade a Mahr 130B-38 to 130B-24 specifications is proprietary to the Original Equipment Manufacturer (OEM), Only Mahr and their authorized resellers can provide the Mahr-exclusive firmware, software, and calibration algorithms not sold or licensed to other vendors. Only the OEM and their authorized resellers have the technical data and components to perform and certify this upgrade.

c.) ☒ ***The Items Described in Paragraph 1 are “Direct Replacements” Parts/Components for Existing Equipment.***

This action provides a replacement for the capability of the obsolete Mahr 130B-38. The upgrade utilizes the existing government-owned asset to provide a fully supportable capability, avoiding the cost of procuring a new and duplicative system.

d.) ☐ ***Foreign Military Sales (FMS) Supported By A Case Letter.***

e.) ☒ ***Unusual and Compelling Urgency.***

The existing comparator is obsolete and its maintenance and repair parts are not procurable. A failure of this system will cause a work stoppage at the OHA laboratory, halting calibration support for 780 assets annually and impacting fleet readiness.

f.) ☐ ***Other: If required, discuss any other rationale that supports the use of a brand name/sole source for this effort.***

4. Implication of Procuring Another Brand/Manufacturer.

a.) ☒ ***Unacceptable Delays in Fulfilling the Agency's Requirements.***

If this upgrade is not performed, the existing 130B-38 comparator will remain in a degraded configuration and continue to support only a limited number of ICPs. This will [REDACTED]. The only alternative, procuring a new system from a different manufacturer, would introduce technical evaluation delays, configuration risk, and potential incompatibility with approved ICP procedures. These delays would [REDACTED].

b.) ☒ ***Substantial Duplication Of Cost To The Government That Is Not Expected To Be Recovered Through Competition.***

The financial implication if any other models are procured would produce substantial duplication of work already completed. The delay of modifying ICP's would incur an estimated [REDACTED], totaling [REDACTED] in additional estimated costs. The real-time delay is estimated between [REDACTED] to complete the ICP modifications at each step for the required research, reviews, and approvals throughout the technical, financial, and leadership chain.

c.) ☒ **Other:** *If required, discuss any other implication of procuring another brand/manufacturer.*

This procurement is not for a new comparator system but for modernization and upgrade of an existing Government-owned asset. The upgrade is necessary to maintain calibration capability, expand ICP applicability, and [REDACTED]

5. Actions to Remove Barriers to Competition.

For the reasons set forth in paragraphs 3 and 4 of this Justification, Corona Division has no plans at this time to compete future contracts for the type of supplies/services covered by this document. If another potential source emerges, the Corona Division will assess whether competition for future requirements is feasible.

CERTIFICATION

I certify that the facts and representations under my cognizance, which are included in this justification and its supporting data/documentation, are complete and accurate to the best of my knowledge and belief.

CUSTOMER: [REDACTED]

Name, Title, Code

Phone No.

Date

APPROVALS

I certify that the Customer representations above have been verified, and are complete and correct to the best of my knowledge. I understand that the processing of this brand name/sole-source justification precludes the use of full and open competition.

CONTRACT ADMINISTRATOR/SPECIALIST:

3/18/2026

Phone No.

Date

I certify that this justification is accurate and complete to the best of my knowledge and belief, and that completing this purchase as a brand name/sole source is in the best interest of the Government.
