

JUSTIFICATION RESTRICTING COMPETITION

1. Identification of Agency and Contracting Activity.

The requiring activity is Naval War College (NWC) College of Leadership and Ethics (CLE) located in Newport, RI; the contracting activity is NAVSUP Fleet Logistics Center (FLC) Norfolk, Contracting Dept., Regional Directorate.

2. Description of the Action Being Approved.

This is a sole source action for a firm-fixed-price, indefinite delivery, indefinite quantity (IDIQ) contract with a 5-year ordering period from May 1, 2026, to April 30, 2031, for the provision of Human Performance Workshops for the Intermediate Flag and Executive (IFLEX) and Advanced Flag and Executive (AFLEX) programs that are currently performed under contracts N0018925PG072 (IFLEX) awarded September 22, 2025, and N0018926PR004 (AFLEX) awarded on January 6, 2026. The contracting activity awarded both FFP contracts on a sole source basis to O2X Human Performance, LLC (O2X), a large business. The contracting activity or NWC awarded previous contracts every time a class was scheduled. An IDIQ contract will streamline the contracting process and speed of awarding the workshops.

3. Description of Services.

The contracting activity will acquire IFLEX and AFLEX Human Performance Workshops.

[REDACTED]. The requiring activity will fund orders issued under the contract with appropriate fiscal year Operations & Maintenance, Navy (O&MN) appropriations.

NWC conducts advanced professional military education to prepare naval and joint leaders to think critically, apply strategic judgment, and operate effectively in complex security environments. For this mission, NWC uses assessment and awareness instruments to enhance the readiness, resilience, and leadership effectiveness of Naval Flag Officers and Senior Executive Service leaders.

To meet these objectives, NWC periodically engages commercially available human performance programs grounded in evidence-based approaches to physical, cognitive, and emotional performance. These programs integrate nutrition, physical conditioning, injury risk reduction, sleep optimization, stress management, recovery strategies, and mental performance to sustain executive effectiveness at the highest levels of responsibility.

O2X specifically tailored the IFLEX and AFLEX Human Performance Workshops used by NWC in its curriculum to fit the specific needs as outlined by the faculty of NWC CLE. The workshops contribute to meeting the overall mission, which is guided by the CNO and VCNO, and will support the overall wants and needs of the Navy as a whole, as it pertains to Flag Officer and Senior Executive leadership development.

4. Statutory Authority Permitting Sole Source.

The statutory authority permitting this sole source action is 41 U.S.C. 1901, Simplified acquisition procedures - a sole source acquisition using simplified procedures for the acquisition of commercial products and/or commercial services, as implemented by FAR 12.102(b).

5. Rationale Justifying Use of Cited Statutory Authority.

Market research indicated that O2X is the only entity that can provide the required workshops. There is no other known vendor in the marketplace that can satisfy the government need.

O2X offers the unique ability to furnish multiple subject matter experts in different areas of the desired fields of mental and physical wellness for executive leadership. O2X has coordinated with NWC and built a custom curriculum and course presentation on mental and physical wellness as it pertains to executive level leadership to present to participants at an executive level for leadership development. This custom curriculum and course presentation is completely unique to O2X. O2X also possesses the proprietary ownership of the information and continually manages any developments or revisions to the curriculum in line with NWC's direction. The proposed workshop supports the overall mission tasked to USNWC CLE by the CNO/VCNO to plan and execute curriculum on flag and executive leadership and human development for IFLEX.

Historically, NWC has procured these courses through O2X under the following contracts in which all services were completed in a timely manner:

- N0018924PG004
- N0018924PG014
- N0018925PG004
- N0018925PG015
- N0018925PG072

- N0018926PR004

The contractor conducts on-site, tailored executive human performance workshops focused on executive fitness, wellness, and personal accountability through conditioning, nutrition, sleep optimization, stress mitigation, and resilience that has been tailored to the NWC's needs. The vendor does not have any authorized third-party partners or entities to offer the services required by the government.

This services include:

- A five (5)-day Executive Wellness course of instruction customized for Flag Officers and Senior Executives
- Classroom instruction, experiential exercises, and practical demonstrations delivered by qualified subject matter experts in strength and conditioning, nutrition, sleep science, and mental performance

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable.

Market research was conducted against mandatory sources which yielded negative results. Market research from all prior contracts also indicates that O2X is the only entity that is trained and able to provide the required workshop in accordance to NWC's requirements and the training's curriculum. O2X does not have any other third-party partners who can deliver/provide their workshop. All proprietary data is owned and maintained by O2X.

O2X does currently hold a GSA contract; however, the contract does not cover the services required for the IFLEX/AFLEX workshops.

7. Determination of Fair and Reasonable Cost.

The Contracting Officer has determined that the anticipated cost to the Government of the services covered by this Justification will be fair and reasonable.

8. Actions to Remove Barriers to Future Competition.

For the reasons set forth in Paragraph 5, the contracting activity has no plans at this time to compete future contracts for the types of services covered by this document. If another potential source emerges, the contracting activity will assess whether competition for future requirements is feasible.

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION

I certify that the facts and representations under my cognizance which are included in this Justification and its supporting acquisition planning documents, except as noted herein, are complete and accurate to the best of my knowledge and belief.
