13. SECURITY GUIDANCE

The security classification guidance for classified information needed for this effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes; to challenge the guidance or the classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended.

(Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any documents/guides/extracts referenced herein. The field will expand as text is added. When removing any expanded text area, use delete key or backspace key, then click out of the text field for it to shrink after the text has been deleted. Also allows for up to 6 internal reviewers to digitally sign. See instructions for additional guidance or use of the fillable PDF.)

The DD 254 will be housed within the NCCS through the life of the contract. The Contractor shall be registered within NCCS at time of award to gain access to the DD 254. It is incumbent upon the Contractor to ensure that the necessary security paperwork is submitted in sufficient time to enable each individual to be cleared prior to beginning work on this contract. In the event that the NCCS is superseded by another System of Record, the same requirements apply.

Block 12 Continuation: Release of COMSEC, SCI, NoN-SCI and NATO (Read-on IAW with the National Intelligence Security Policy Directive 17-008; NATO access is not required on this contract, see phrase 10.g/k(1)) material is not authorized.

Security Classification Guide (SCG): SCG to be provided under separate cover by the COR. classified guides to be reviewed on-site. Specific guides noted in task orders. SCGs for both SHARKCAGE and Navy Cyber Situational Awareness (NCSA) are both in DRAFT format readable. All classified guides will be reviewed at the government site. ???***** IS THIS CORRECT?

(C) SECNAV Manual M-5239.2, Cyberspace Information Technology and Cybersecurity Workforce Management and Qualification Manual, June 2016

Reference (A) requires that a favorable Tier 5 (T5) background investigation or T5 reinvestigation (T5R every 5 years) be conducted on military, civilian and contractor personnel for privileged access IT. Reference (B) outlines the requirements for personnel needing privileged access. Reference (C) defines enhanced user requirements.

**Contractor personnel requiring administrative level access to network devices are required to possess a Secret clearance with a completed T5/T5R investigation to comply with cybersecurity policy.

Contractors shall follow all Host Command security and training requirements.

-All classified documents must be destroyed using a National Security Agency (NSA) approved destruction equipment listed on the NSA/CSS evaluated products list (EPL) or other approved method for destroying classified information.

-All security related issues, incidents, or requests pertaining to this contract shall be presented in writing by the contractor's Facility Security Officer (FSO) to the individual identified in blocks 16, 17 and the COR of this DD254. The contractor shall abide by other reporting requirements outlined in the 32 CFR NISPOM Rule 117.8.

Per DoDD 5138.13 Para 4.1.e. and SECNAVINST 3820.3F, the Intelligence Oversight verbiage needs be included in all SOWs/254s. See below

INTELLIGENCE OVERSIGHT

For any contractor personnel conducting Intelligence or Intelligence-related activities or supporting those efforts under Department of Defense authorities shall report any Questionable Intelligence Activity (QIA), Significant, or Highly Sensitive Matter (S/HSM) to the Naval Information Warfare Systems Command Intelligence Oversight Program Manager or Senior Intelligence Officer.

Questionable Intelligence Activity (QIA): Any Intelligence or Intelligence-related activity when there is reason to believe such activity may be unlawful or contrary to an Executive Order, Presidential Directive, Intelligence Community Directive, or applicable DoD policy governing that activity.

Significant or Highly Sensitive Matter (S/HSM): An Intelligence or Intelligence-related activity (regardless of whether the Intelligence or Intelligence-related activity is unlawful or contrary to an Executive Order, Presidential Directive, Intelligence Community Directive, or DoD policy), or serious criminal activity by Intelligence personnel, that could impugn the reputation or integrity of the Intelligence Community, or otherwise call into question the propriety of Intelligence activities. Such matters might involve actual or potential:

- Congressional inquiries or investigations
- Adverse media coverage
- Impact on foreign relations or foreign partners
- Systemic compromise, loss, or unauthorized disclosure of protected information.

Changes: Solicitation is submitted for SCI access approval/validation.

Access Requirements:

10.a Further disclosure, to include subcontracting, of COMSEC information by a contractor requires prior approval of the NIWC Pacific COR. Access to any COMSEC information requires special briefings at the contractor facility. Access to classified COMSEC information requires a final U.S. Government clearance at the appropriate level. Use of COMSEC information is governed by the NSA Industrial COMSEC Manual, NSA/CSS Policy Manual 3-16 and 32 CFR Part 117 NISPOM Rule - 117.21. Contractors that will be designated CMS users must attend an initial CMS user training class that is given by the NIWC Pacific CMS office. If you have questions call (619) 553-5065. (Access is for COMSEC equipment/material).

10.e(1) The NAVWAR SIO has exclusive security responsibility for all SCI classified material released or developed under this contract. Defense Counterintelligence Security Agency (DCSA) is relieved of security inspection responsibility for all such material but retains

responsibility for all non-SCI classified material released to or developed under this contract. Further disclosure to include subcontracting of SCI is prohibited until approval is received from the SCI cleared NIWC Pacific COR, NIWC Pacific Code 874 and NAVWAR SIO. Access to SCI information requires a final U.S. Government clearance at the appropriate level and will be performed within U.S. Government facilities only. Approval for SCI access, to enter spaces, attend meetings, and briefings in accordance with the PWS/SOO/SOW. No SCI deliverables can be produced.

Contractor personnel assigned to this effort who require access to SCI data and spaces must possess a current SSB/T5/T5R with ICD 704 eligibility (which replaced DCID 6/4 eligibility) and be enrolled in Continuous Vetting. Personnel who meet this requirement must maintain a current Counterintelligence Polygraph as required to perform their official duties.

Access to sub compartments may be required in order to comply with NISPD 002-22. SSO will provide sub compartment access as required on an individual basis.

Contract performance for SCI is restricted to NIWC Pacific, San Diego, CA. Other designated locations may be required, if so, the locations will be noted in individual task orders on this contract.

10.e(2) Prior approval from the NIWC Pacific COR and NIWC Pacific Code 874 is required for sub-contracting.

10.g/k(1) Effective immediately all contractor personnel with SCI access must be read-on NATO secret with an entry into Defense Information System for Security (DISS) prior to being granted access. This contract requires SCI cleared personnel to access JWICS/NSANet/NGANet/ONE-NET/SIPRnet. In addition, the contractor shall complete the derivative classification training; the special NATO briefing and derivative classification briefing are provided by the contracting company's facility security officer. This requirement is mandated per the national intelligence security policy directive 17-008. This read-on meets the mandated requirement; however, contractor does not require access to NATO on this contract. Contractor is not authorized to have NATO at its contractor's facility. JWICS/NSANet/NGANet/ONE-NET/SIPRnet under the NAVWAR Claimancy is not accredited and/or authorized to receive or process NATO restricted up to NATO secret data. The contractor shall not use JWICS/NSANet/NGANet/ONE-NET/SIPRnet for anything except that which is required for this contract. Questions, contact the GCA NATO Control Office 619-553-3005/3191. Subcontract DD254s require approval from the GCA NCO prior to access being granted. Policies: DOD M-5200.1 Volume 1, enclosure (3), SECNAVINST 5510.36B and USSAN 1-07. Contractor personnel working at USSTRATCOM that require access to SIPRnet, those individuals are required to be NATO read-on prior to USSTRATCOM authorizing access.

10.j Contractors receiving, transmitting or accessing controlled unclassified information (CUI) on or through its contractor information system(s) must safeguard the information to avoid compromise, including but not limited to disclosure of information to unauthorized persons, unauthorized modification, destruction, or loss of an object, or the copying of information to unauthorized media, as required per DFARS subpart 204.73 and clauses 204-7304 and 252.204.7012, as well as NIST SP 800-171 series, which identifies the baseline CUI system security requirements for industry.

DoD contracts must also require contractors to monitor CUI for aggregation and compilation based on the potential to generate classified information pursuant to security classification guidance addressing the accumulation of unclassified data or information. DoD contracts shall require contractors to report the potential classification of aggregated or compiled CUI to a DoD representative.

Contractors shall report to the DOD each cyber incident that affects unclassified controlled technical information residing within or transiting contractor information systems in accordance with DFARS clause 204.7304 and 252.204-7012. Detailed reporting criteria and requirements are set forth in the clause at 252.204-7012, safeguarding of unclassified controlled technical information. For information on handling CUI see DODI 5200.48.

Controlled Unclassified Information (CUI) associated with this contract must be safeguarded to prevent unauthorized public disclosure. CUI such as Security Classification Guides (SCG), and other technical information with Distribution Statements B, C, D, E or F are not authorized for public release and cannot be placed on a publicly accessible web site or web server. All emails containing such information or attachments must be appropriately marked and digitally signed and encrypted if being transmitted. All transmissions to personal email accounts (AOL, GMAIL, Yahoo, Hotmail, Comcast, etc.) and posting on social media websites (Facebook, Instagram, Twitter, LinkedIn, etc.) are prohibited. Destroy all CUI associated with this contract by any of the following approved methods: A cross-cut shredder; a certified commercial destruction vendor; a central destruction facility; incineration; chemical decomposition; pulverizing, disintegration; or methods approved for classified destruction.

CUI Courses and Resources Created for Industry:

The Center for Development of Security Excellence (CDSE) has developed an eLearning course titled "DoD Controlled Unclassified Information (CUI) Training For Contractors (IF141.06.FY21.CTR) or the training can be taken on TWMS.

Additionally, CDSE has a CUI Toolkit available at <https://www.cdse.edu/toolkits/cui/current.html>. The Toolkit includes training, policy documents, resources, and an FAQ video.

10.k(2) Some contractor personnel that work on Top Secret and below requirements and do not fall under phrase 10.g/k(1) are only required to receive the NATO Awareness Brief for the sole purpose of accessing ONE-NET/SIPRnet. The special briefing is provided by the contracting company's Facility Security Officer (FSO). Note: do not add this awareness brief to in DISS. The contractor shall complete Derivative Classification training prior to being granted access to ONE-NET/SIPRnet; training is provided by the company's FSO. Evidence of completion, training certificates or equivalent, shall be provided to the NATO Control Officer when requested. The contractor shall not use the SIPRNET for anything except that which is required for this contract. SIPRnet under the NAVWAR Claimancy is not accredited to receive or process NATO restricted up to NATO secret data. Questions, contact the GCA NATO Control Office 619-553-3005/3191. Policies: DOD M-5200.01 Volume 1, enclosure (3) and SECNAVINST 5510.36B.

11.a Contract performance is restricted to NIWC Pacific & IWTG, San Diego, CA; USSTRATCOM Omaha, NE; Pentagon Washington, D.C.; FLEETCYBERCOM & C10F, Fort Meade, MD; NCTAMS & NIOC, Pearl Harbor, Hawaii; and NIOC, San Antonio, TX. NIWC Pacific-COR will provide security classification guidance for performance of this contract.

11.f Access to classified U.S. government information may be required at the following overseas locations: Stuttgart Germany, AFRICOM, Kell Barracks Molesworth, UK, and RAF Molesworth, Seoul Korea. Antiterrorism/Force Protection briefing within one year of departure and a country specific briefing within 90 days of departure. Anti-Terrorism/Force Protection (AT/FP) briefings are required for all personnel (Military, DOD Civilian, and contractor) per DoDI O-2000.16 Volume 1. Contractor employees must receive the AT/FP briefing annually. The briefing is available at Joint Knowledge Online (JKO): <https://jkodirect.jten.mil> (prefix: JS; course number: US007; title: Level 1 Anti-terrorism awareness training, if experiencing problems accessing this website contact the JKO Help Desk (24 hours a day/7 days a week, <https://js.jko.helpdesk@mail.mil>, 757-203-5654). This training can also be found on the Total Workforce Management Services (TWMS) site: <https://twms.navy.mil/selfservice>. Sere 100.2 Level A code of conduct training is also required prior to Oconus travel for all personnel. Sere 100.2 Level A training can be accessed <https://jkodirect.jten.mil/Atlas2/page/desktop/DesktopHome.jsf>, recommend course: prefix: J3T: course #: A-US1329, for civilian, military, and contractors. Personnel utilizing the JKO site must have a CAC or contractor shall request a sponsored account to access the training. NOTE: Please email or fax the certificate to Foreign Travel Group (NIWC_PAC_FORTRAV@us.navy.mil) copies of the certificates. Other specialized training for specific locations may also be required contact the NIWC Pacific foreign travel team at (NIWC_PAC_FORTRAV@us.navy.mil) copies. Additional information can be found in NIWC PACINST 4650.3B-Ch-1, dtd 20 February 2019. If you have questions about the process contact your NIWC Pacific COR. Finally, EUCOM has mandated that all personnel going on official travel to the EUCOM AOR must now register with the Smart Traveler Enrollment Program (STEP). When you sign up, you will automatically receive the most current information the State Department compiles about your destination country. You will also receive updates, including Travel Warnings and Travel Alerts. Sign up is one-time only, after you have established your STEP account, you can easily add official or personal travel to anywhere in the world, not just EUCOM. <http://travel.state.gov/content/passports/en/go/step.html>.

Invited Contractor (IC) and Technical Representative (TR) status shall be governed by the U.S.-ROK Status of Forces Agreement (SOFA); information can be found by visiting the US Forces Korea homepage <http://www.usfk.mil>.

11.j Contractors are required to take Operation Security training. SECNAVINST 3070.2A, Operations Security, released May 9th, 2019, directs that all personnel requesting access to any DON networks (an account on NMCI, RDTE, etc.) must receive formal OPSEC training prior to approval for access to any DON networks, and at least annually thereafter. This requirement applies to all Government Civilian, Military and Contractor personnel who require access to DON networks. For contractors, this requirement applies whether or not OPSEC is currently listed as specific contract requirement.

Contractor Personnel with access to NMCI or Local RDT&E network and are registered in TWMS: Requirement is met when you complete yearly OPSEC COI in TWMS. This training must be completely yearly.

- Total Workforce Management Services (TWMS): <https://twms.dc3n.navy.mil/selfservice/login.asp>; must have a CAC to access this site.

Contractor Personnel access to NMCI or Local RDT&E network who are NOT registered in TWMS: Complete the training at one of the below sites and submit your certificate of completion to the RDT&E Operations Center (ROC). This training must be completely yearly.

- CDSE OPSEC Course: <https://securityawareness.dcsa.mil/opsec/index.htm>.

The RDT&E Operations Center will verify OPSEC training is within the last year and a certificate is attached to the Hub request form.

Also see OPSEC attached for additional information.

11.l Contractors receiving, transmitting or accessing controlled unclassified information (CUI) on or through its contractor information system(s) must safeguard the information to avoid compromise, including but not limited to disclosure of information to unauthorized persons, unauthorized modification, destruction, or loss of an object, or the copying of information to unauthorized media, as required per DFARS subpart 204.73 and clauses 204-7304 and 252.204.7012, as well as NIST SP 800-171 series, which identifies the baseline CUI system security requirements for industry.

DoD contracts must also require contractors to monitor CUI for aggregation and compilation based on the potential to generate classified information pursuant to security classification guidance addressing the accumulation of unclassified data or information. DoD contracts shall require contractors to report the potential classification of aggregated or compiled CUI to a DoD representative.

Contractors shall report to the DOD each cyber incident that affects unclassified controlled technical information residing within or transiting contractor information systems in accordance with DFARS clause 204.7304 and 252.204-7012. Detailed reporting criteria and requirements are set forth in the clause at 252.204-7012, safeguarding of unclassified controlled technical information. For information on handling CUI see DODI 5200.48.

Controlled Unclassified Information (CUI) associated with this contract must be safeguarded to prevent unauthorized public disclosure. CUI such as Security Classification Guides (SCG), and other technical information with Distribution Statements B, C, D, E or F are not authorized for public release and cannot be placed on a publicly accessible web site or web server. All emails containing such information or attachments must be appropriately marked and digitally signed and encrypted if being transmitted. All transmissions to personal email accounts (AOL, GMAIL, Yahoo, Hotmail, Comcast, etc.) and posting on social media websites (Facebook, Instagram, Twitter, LinkedIn, etc.) are prohibited. Destroy all CUI associated with this contract by any of the following approved methods: A cross-cut shredder; a certified commercial destruction vendor; a central destruction facility; incineration; chemical decomposition; pulverizing, disintegration; or methods approved for classified destruction.
