

USS BOXER (LHD-4) Emergency Diesel Generator Assessment

1. Project Overview

Vessel Name: USS BOXER (LHD-4)

Engine Type/ Model: ALCO Model 251C

Engine Location: Decommissioned BHR Asset East Coast

Contractor: Fairbanks Morse Defense LLC

Objective: To perform complete "Out of Frame" assessment of complete Engine Block.

2. Scope of Services

The Contractor shall provide all labor, tools, materials, equipment, and supervision required to accomplish the following tasks:

2.1. Preparation & Preliminary Inspection

Engine Complete Block Assessment: Mechanics for 17 Days to accomplish complete Engine Block assessment.

Cleaning: Steam clean the exterior and engine bay area prior to disassembly to prevent contamination.

2.2. Disassembly & Inspection

Teardown: Systematically disassemble the engine, marking components for reassembly, including cylinder heads, pistons, liners, and oil pan.

Cleaning: Submerge and clean all components (chemical bath or ultrasonic) to remove carbon deposits, sludge, and contaminants.

Non-Destructive Testing (NDT): Perform MPI (Magnetic Particle Inspection) or Dye Penetrant tests on critical components (crankshaft, connecting rods) to identify hidden cracks.

Dimensional Inspection / Crankshaft delivery to Subcontractor for assessment and Balancing: Measure cylinder bores, crankshaft journals, and bearing clearances using precision tools and compare against OEM specifications. Deliver to Subcontractor for Crankshaft Assessment and balancing with quote including round trip Freight.

Conduct inventory of parts on hand and parts that need to be ordered:

Mechanics have 6.25 days to conduct inventory of parts on hand and outstanding material requirement requisitions with Estimated Delivery dates.

3. Deliverables

Assessment Report: A comprehensive document detailing all inspections, measurements, and parts required to overhaul Engine submitted in a CFR upon completion.

4. Schedule & Location

Period of Performance: 20 APRIL 2026 – 20 MAY 2026

Location of Work: 12253 FM 529, Houston, TX 77041

5. Exclusions

[e.g., Replacement of engine blocks or crankshafts, unless authorized by a separate Change Order].
