

Brand Name Only/ Single Source Justification
Western Area Power Administration (WAPA)
RFO FAR 12.102(a), Restricting competition, under SAT

PR#: 26WA160544

1. Identification of the agency and the contracting office.

Department of Energy, WAPA, Sierra Nevada Region
114 Parkshore Drive, Folsom, CA 95630.

2. Description of supply or service required to meet the agency's needs.

This is a base plus four Option Year requirement for Computer Based Training proprietary to Western Power Pool (WPP) and specific to WAPA SNR's dispatch training needs. WASN Dispatchers are required to maintain one of 4 levels of NERC Certification. Each certification requires between 140-200 continuing education hours every three years. WPP provides dispatcher-oriented training for the Western Interconnection, North Western Power Pool (NWPP) Reserve Sharing group, Balancing Authority of Northern California (BANC BA), and North American Electric Reliability Corporation (NERC) preparation training (SNR Trainee). This training helps operators maintain their certification over the next five years.

3. The rationale or circumstances for limiting competition.

The specified training provided by Western Power Pool is the only entity that provides Computer Based Training (CBT) that is proprietary and specific to the Western Interconnect, our Reserve Sharing Group and Balancing Authority. There are other entities that provide general CBTs that do not directly address our specific dispatch area and needs.

4. A description of the Market Research (MR) conducted and the results or a statement of the reason MR was not conducted.

Technical experts reviewed other available programs that offer CBT training such as Health and Safety Institute, Southwest Power Pool, and Operator Educational Services North America. Western Power Pool offers WAPA SNR specific content.

5. Price estimate, including all options, if applicable.

■■■■■ annually for 25 trainees. Total contract value ■■■■■.

6. Recommended source.
