Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) The evaluation procedures will be in accordance with FAR 12.203. The Government will award a contract resulting from this solicitation to the responsible quoter whose quote conforming to the solicitation is the most advantageous to the Government, price and non-price factors considered, in compliance with the specifications attached to this solicitation.

A quote that meets and exceeds the Government's minimum needs may represent the best value than a quote that just meets the Government's minimum needs. The Government may consider awarding to the best value quote for a higher price. The Government may also award to the lowest priced quote if all quotes are equal in non-priced factors, where there are no added non-priced advantageous from one quote to the other. The Government will make comparative evaluations, weighing the advantages and disadvantages of each quote in making the award decision.

As such, quoters are encouraged to submit quotes that meet and exceed the Government's minimum need to be considered for award and represent the most advantageous quoter.

Moreover, the Government reserves the right to award no contract at all, depending on the quality of quotes submitted and availability of funds. The Government reserves the right to only evaluate non-price factors of the quoters most likely to receive an award based on price.

Factor 1 - Price

Quotes will be evaluated in accordance with FAR 12.203.

The quoted prices will be analyzed for Completeness and a Reasonableness.

A. Completeness: All information/data required by the solicitation has been submitted. The Government will combine both contract line items to create a total evaluated price (TEP). The Government will evaluate the TEP to determine if it is fair and reasonable. The primary analysis technique will be a comparison of the proposed prices received in response to the solicitation

B. Reasonableness: Prices are fully justified, supported and considered fair and reasonable under current market conditions.

Factor 2 - Technical

The Government will evaluate the technical volume to ensure the quoter's proposed products meet all the mandatory salient characteristics and certification requirements described in the Performance Work Statement (PWS). The Government will assign a rating of "Acceptable" or "Unacceptable"

- **Acceptable**: The quote provides clear evidence that all mandatory PWS requirements are met.

- **Unacceptable**: The quote fails to provide clear evidence that one or more mandatory PWS requirements are met.

Only quotes rated "Acceptable" under the Technical Capability factor will be considered for award.

Factor 3 - Past Performance

The Government will conduct an independent assessment of the quoter's past performance to evaluate the Government's confidence in the quoter's ability to successfully perform the work required. The evaluation will be based on relevant information found in Government-wide databases, including but not limited to, the Supplier Performance Risk System (SPRS) and SAM Responsibility and Qualification to evaluate the quoter's past performance. The Government reserves the right to use other source of information, as deemed necessary. Evaluation may be limited to those quoters who are more likely to receive an award based on Price and Technical

Factors.

(b) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(c) Contractor Responsibility: To be eligible for award of a contract hereunder, a Quoter must be determined by the Contracting Officer to be a responsible prospective contractor in accordance with FAR 9.1 and DFARS 209.105-1.
