MEMORANDUM FOR: VENDORS UTILIZING NAICS CODE 334516: ANALYTICAL
LABORATORY INSTRUMENT MANUFACTURING

FROM: AFMC/AFTC/PZIA (Arnold)
100 Kindel Drive
Arnold AFB, TN 37389-1332

SUBJECT: Cryovacuum Liner – Market Intelligence Request

The Government is currently in the market intelligence phase of this project, aimed at identifying qualified vendors who can meet the technical and regulatory requirements for a liner in Cryovacuum Chamber. This is not a request for proposal, and an award is not guaranteed to be made. Information received is intended to help the Government determine the final acquisition approach. To help the Government assess your company's suitability, please provide concise responses to the following key questions:

Technical Capabilities (Top 4):

- **Design Liner for Cryovacuum Chamber:** Describe your company's experience in designing liners for cryovacuum chambers. Specifically, address your experience with cryovacuum chambers, liners in an industrial or test environment similar to Arnold Engineering Development Complex (AEDC). Outline your typical process for managing milestones such as Preliminary Design Reviews (PDR), Critical Design Reviews (CDR), and Readiness Reviews (RR).
- **Fabrication and Integration:** Summarize your approach to developing a fully functional liners for cryovacuum chambers, from design and fabrication to installation and testing. Outline your typical process for managing milestones.
- **Test and Integrate:** Summarize your approach to testing and integrating the liner for a cryovacuum chamber to verify operation and performance. Outline your typical process for managing testing and commissioning afocal relay optics.
- **Data Deliverables:** Describe the typical reports and data you provide for a project of this scope, including design documentation, test reports, training, operational and maintenance manuals. Give examples of key deliverables such as Operational Drawings (P&IDs, Schematics), Installation Plans, Manufacturing Plans, Failure Modes and Effects Analysis (FMEA), and System Test Plans.

Budgetary & Timeline Information:

Please provide the following budgetary estimates and acknowledge the required need dates:

- A budgetary price for a business process prototype for this project, which may consist of project management elements, a finalized developed statement of work, etc.
- A budgetary price for the actual execution of the full project, understanding the anticipated delivery no later than FY27Q4.

10 U.S.C. 4022 - Appropriate Use of Authority:

Provide a brief overview of how your company anticipates satisfying the "Appropriate Use of Authority" requirement as defined in 10 U.S.C. 4022(d)(1)(A)-(C). Specifically, indicate which of the following criteria (A, B, or C) your company intends to leverage and provide a brief rationale for your selection:

(A) There is at least one nontraditional defense contractor or nonprofit research institution participating to a significant extent in the prototype project.

(B) All significant participants in the transaction other than the Federal Government are small businesses (including small businesses participating in a program described under section 9 of the Small Business Act (15 U.S.C. 638)) or nontraditional defense contractors.

(C) At least one-third of the total cost of the prototype project is to be paid out of funds provided by sources other than the Federal Government.

NIST SP 800-171, Distro D Information, and Joint Certification Program (JCP):

This project requires adherence to NIST SP 800-171 and JCP. To understand the technical performance parameters necessary to meet this requirement, you may request access to documents marked as Distribution D.

To request these documents, and before you can receive them, your company must undergo a NIST SP 800-171 and JCP compliance vetting process. Please provide your company's CAGE code to the Agreements Officer, who will then validate your organization's NIST SP 800-171 compliance and JCP active status.

Important: Distribution D attachments will be released only after the successful validation of your company's NIST SP 800-171 compliance and JCP active status. Failure to meet this requirement will prevent access to this critical project information.

Market Intelligence Due Dates:

- Distro D Document Request Due: 14 Apr 26, COB
- Market Intelligence Response Due: 28 Apr 26, COB

ERICA A. ANGLIN
