

PERFORMANCE WORK STATEMENT (PWS)

FOR

Repair of Flameholders for F100 Engine

1.0 General:

1.1 Scope: The contractor shall provide all personnel, equipment, tools, materials, supervision, and quality control necessary to perform flameholder Repair Services, as defined in this PWS.

1.2 Background: The 144th Maintenance Group is requesting the approved vendor facility to provide quality repairs of F-15 Aircraft parts with processes managed in accordance with (IAW) ISO 9001 or higher. flameholders, NSN: 2840-01-326-4066.

1.3 General Information:

1.3.1 Quality Control (QC): The contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services. The contractor's QC Plan (QCP) is the means by which it assures itself that its work complies with the requirements of the contract.

1.3.2 Recognized Holidays: The following are recognized as federal holidays. The contractor **shall not** perform services on these recognized federal holidays:

Holiday	Observance
New Year's Day	1 January
Martin Luther King Jr. Day	Third Monday in January
Presidents' Day	Third Monday in February
Memorial Day	Last Monday in May
Juneteenth	19 June
Independence Day	4 July
Labor Day	First Monday in September
Columbus Day	Second Monday in October
Veterans Day	11 November
Thanksgiving Day	Fourth Thursday in November
Christmas Day	25 December

1.3.3 Operational Security (OPSEC). The contractor shall not disclose any critical information pertaining to the scope of work of this contract.

1.3.4 Physical Security. The contractor shall safeguard and secure all Government property within its control.

1.3.5 Special Qualifications: The contractor must ensure labor is performed only by sources approved from the Air Force Life Cycle Management Center (AFLCMC) F100 Engineering Office. Approval may be requested by submitting a Source Approval Request (SAR) Package. Contact AFLCMC/LPEA2 F100 Engineering Office at AFLCMC.LPEA2.Engineers@us.af.mil for more information.

1.3.6 Base Access. Base security personnel require that all personnel entering the installation are cleared for access. The contractor will provide first name, last name, driver's license number and applicable

vehicle data for all personnel accessing the base. The contractor shall submit this information to the base Contracting Office no later than 10 calendar days prior to the date of required access. The contractor must pre-enroll in the Defense Biometric Identification System (DBIS), at <https://dbids-global.dmdc.mil/home/>. Personnel must have identification on their person at all times, one of which must be REAL ID-compliant.

1.3.6.1 ACCESS AND GENERAL PROTECTION/SECURITY POLICY/PROCEDURES - The contractor shall comply with all applicable installation/facility access and local security policies and procedures, which may be obtained from the Contracting Officer's Representative (COR). The contractor shall ensure compliance with all personal identity verification requirements as directed by DoD, HAF and/or local policy.

1.3.7 Contract Manager (CM): The contractor shall designate a CM who shall ensure performance under this contract. The name of this person, and an alternate who shall act for the contractor when the CM is absent, shall be designated in writing to the Contracting Officer (KO). The CM or alternate shall have full authority to act for the contractor on all contract matters relating to daily operation of this contract. The CM shall work through the COR, to resolve issues, request and receive applicable Technical Orders, (TOs), and ensure satisfactory performance of services. The CM shall ensure that contractor employees do not perform any services outside the scope of the contract without an official modification issued by the KO. The CM shall ensure contractor employees understand that services performed outside the scope of the contract are performed wholly at the expense of the contractor.

2.0 Requirements:

2.1 Basic Services. The contractor shall provide services for the flameholder repairs, to include shipping between Fresno ANGB and the contractor's facility. The contractor shall coordinate each pickup and delivery with the COR of flameholders to be repaired from Fresno ANGB and delivery of repaired flameholders back to Fresno ANGB.

2.1.1. The contractor must be familiar with and understand applicable USAF Technical Orders (TOs), which may be made available to the contractor upon request. Questions, or requests for TOs must be directed to the 144th Maintenance Group (144 MXG) Quality Assurance (QA) office at (559) 454-5295. Alternatively, the contractor may request an account

2.2 The contractor shall inspect and repair flameholders in accordance technical orders and manuals (publications); manufacturer specifications and recommendations; and guidance from the F100 Engineering Office. Where any ambiguity exists, the technical order shall govern. The contractor must use the latest version of the technical publication listed below:

Publication (Chapter/Page)	Website
T.O. 2-1-111	https://etims.cce.af.mil/ETIMS/index
T.O. 2J-F100-36-1	https://etims.cce.af.mil/ETIMS/index
T.O. 2J-F100-46-1	https://etims.cce.af.mil/ETIMS/index
T.O. 2J-F100-36-5 (SWP 517 02)	https://etims.cce.af.mil/ETIMS/index
T.O. 2J-F100-46-5 (SWP 523 02)	https://etims.cce.af.mil/ETIMS/index

2.2.1 No deviation from technical guidance is authorized without written approval from the USAF F100 Engineering Office.

2.3 The contractor shall document all repairs and inspections made to the flameholder(s), and document an assessment of serviceability. Provide a copy of these items with the returning flameholder(s). If a flameholder is determined to be unrepairable, then a detailed, written explanation must be provided.

2.4 Target lead time, from contractor receipt of item(s), to their return to the COR; must not exceed 60 calendar days. If the repair time is expected to extend beyond 60 days due to extenuating circumstances, the contractor shall notify COR as soon as this becomes known and no later than the 60th day.

Definitions:

Contracting Officer (KO): A person with authority to enter into, administer, and/or terminate contracts, and make related determinations and findings on behalf of the government.

Contracting Officer's Representative (COR): An employee of the U.S. Government designated by the KO to monitor contractor performance. Such appointment will be in writing and will state the scope of authority and limitations. This individual has authority to provide technical direction to the Contractor as long as that direction is within the scope of the contract, does not constitute a change, and has no funding implications. This individual does NOT have authority to change the terms and conditions of the contract.

Defective Service: A service output that does not meet the standard of performance associated with the PWS.

Deliverable: Anything that can be physically delivered and includes non-manufactured things such as meeting minutes or reports.

Physical Security: Actions that prevent the loss or damage of Government property.

Quality Assurance: The government procedures to verify that services being performed by the Contractor are performed according to acceptable standards.

Quality Control: All necessary measures taken by the Contractor to ensure that the quality of an end product or service shall meet contract requirements.
