Planters	Remove all trash and debris. Replenish Mulch/ Bark as necessary. Check and clean area drains as needed Remove weeds 3" or taller, spray herbicide to control weeds less than 3" in height
Trees	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found Apply Fertilizer for shrubs, trees and groundcover
Shrubs	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Irrigation System	Inspect and check weekly Adjust water time as needed Check and clean all Irrigation Filters.

July

Turf	Mow and Edge as needed to maintain 3" height. Check and clean area drains as needed
Planters	Remove all trash and debris. Replenish Mulch/ Bark as necessary. Check and clean area drains as needed Remove weeds 3" or taller, spray herbicide to control weeds less than 3" in height
Trees	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Shrubs	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Irrigation System	Inspect and check weekly Adjust water time as needed Check and clean all Irrigation Filters.

August

Turf	Mow and Edge as needed to maintain 3" height. Check and clean area drains as needed
Planters	Remove all trash and debris. Replenish Mulch/ Bark as necessary. Check and clean area drains as needed Remove weeds 3" or taller, spray herbicide to control weeds less than 3" in height
Trees	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Shrubs	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Irrigation System	Inspect and check weekly Adjust water time as needed Check and clean all Irrigation Filters.

September

Turf	Mow and Edge as needed to maintain 3" height. Check and clean area drains as needed Apply Fertilizer
Planters	Remove all trash and debris. Replenish Mulch/ Bark as necessary. Check and clean area drains as needed Remove weeds 3" or taller, spray herbicide to control weeds less than 3" in height
Trees	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found Apply Fertilizer for shrubs, trees and groundcover
Shrubs	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Irrigation System	Inspect and check weekly Adjust water time as needed Check and clean all Irrigation Filters.

October

Turf	Mow and Edge as needed to maintain 3" height. Check and clean area drains as needed
Planters	Remove all trash and debris. Replenish Mulch/ Bark as necessary. Check and clean area drains as needed Remove weeds 3" or taller, spray herbicide to control weeds less than 3" in height
Trees	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Shrubs	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Irrigation System	Inspect and check weekly Adjust water time as needed Check and clean all Irrigation Filters.

November

Turf	Mow and Edge as needed to maintain 3" height. Check and clean area drains as needed
Planters	Remove all trash and debris. Replenish Mulch/ Bark as necessary. Check and clean area drains as needed Remove weeds 3" or taller, spray herbicide to control weeds less than 3" in height
Trees	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Shrubs	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Irrigation System	Inspect and check monthly Adjust water time as needed Check and clean all Irrigation Filters.

December

Turf	Mow and Edge as needed to maintain 3" height. Check and clean area drains as needed
Planters	Remove all trash and debris. Replenish Mulch/ Bark as necessary. Check and clean area drains as needed Remove weeds 3" or taller, spray herbicide to control weeds less than 3" in height
Trees	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Shrubs	Inspect for pest and disease. Have a PCA recommend corrective measures for problems found
Irrigation System	Inspect and check monthly Adjust water time as needed Check and clean all Irrigation Filters.
