

SIMPLIFIED ACQUISITION PROCEDURES (SAP)

Determination and Findings for Sole Source Acquisitions Over \$15,000 but not Exceeding \$350,000

SOLICITATIONS MAY BE LIMITED TO ONE SOURCE ONLY IF THE CONTRACTING OFFICER DETERMINES THAT ONLY ONE SOURCE IS REASONABLY AVAILABLE. WHEN THE CUSTOMER DESCRIBES AN ITEM OR SERVICE, WHICH LIMITS THE AVAILABILITY TO ONE SOURCE, THE DETERMINATION MUST EXPLAIN WHY THE ITEM OR SERVICE PROVIDER IS THE ONLY ONE THAT WILL MEET THE GOVERNMENT'S REQUIREMENT. STATEMENTS SUCH AS "ONLY KNOWN SOURCE" OR "ONLY SOURCE WHICH CAN MEET THE REQUIRED DELIVERY DATE" ARE INADEQUATE TO SUPPORT A SOLE SOURCE PURCHASE. THIS FORM MAY BE USED TO SATISFY THE DETERMINATION AND FINDINGS DESCRIBED IN FAR 13.101(b) (REVOLUTIONARY FAR OVERHAUL VERSION). THE CUSTOMER SHALL PROVIDE THE FOLLOWING INFORMATION:

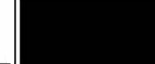

1. PURCHASE REQUEST OR REQUISITION NUMBER:

TBD

2. PROJECT/TASK NUMBER:

TBD

3. ESTIMATED AMOUNT:

4. BRIEF DESCRIPTION OF SUPPLIES OR SERVICES REQUIRED AND THE INTENDED USE:

This is a brand specific purchase, the ITF requires the ability to test and analyze our network connections. This Fluke kit will be used with our currently owned Versiv2 NW in the analysis, testing and certification of our local network connections.

5. UNIQUE CHARACTERISTICS THAT LIMIT AVAILABILITY TO ONLY ONE SOURCE, WITH THE REASON NO OTHER SUPPLIES OR SERVICES CAN BE USED (FINDINGS):

Any source can be used, must remain brand and product specific.

Fluke Versiv2 NW is a proprietary platform and the associated kit for copper and fiber is needed to complete the set for our site needs.

- Compliant with ANSI/TIA-1152-A Level 2G and proposed standard IEC 61935-1 Ed. 5 Level VI field tester accuracy requirements to 2000 MHz
- Supports the complete suite of Resistance Unbalance standards needed for Power over Ethernet (PoE) –IEEE 802.3bt, ANSI/TIA/EIA-568, ISO/IEC 11801 series documents
- TCL and ELTCTL measurements compliant to IEC 61935-1-1 (Published Sep 2019)
- Screen continuity along path of cabling

6. EXPLAIN WHY AN ADEQUATE PURCHASE DESCRIPTION OR OTHER INFORMATION SUITABLE TO SOLICIT MORE THEN ONE SOURCE HAS NOT BEEN DEVELOPED (DETERMINATION):

Any Fluke authorized distributor can be utilized. Must be brand and product specific to maintain interoperability with current systems.

7. PROVIDE A STATEMENT OF ACTIONS, IF ANY, THE GOVERNMENT MAY TAKE TO REMOVE OR OVERCOME ANY BARRIERS TO COMPETITION BEFORE FUTURE ACQUISITIONS ARE REQUIRED:

Source multiple vendors for this Fluke brand test equipment. There is not a kit available at this price point or level of completeness that suites the needs of the ITF.
