(Signature of person authorized to sign)			

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES**Section A - Solicitation/Contract Form**

The following changes have been made:

Miscellaneous text in this section has been modified to:

***The purpose of Amendment N6833526R10520001 is to respond to questions from interested vendor(s). All other terms and conditions remain unchanged. Question: Solicitation instructions don't mention margins - are offerors to use whatever they deem appropriate, or would the government prefer 1 inch? Government Response: Proposals shall be formatted using letter-sized (8-1/2 X 11") pages, single-spaced with one inch (1") margins all around. Question: Does each volume's cover page count towards the overall page count? Government Response: No page limits are included within the solicitation; however, the Government recommends a page limit of 10 pages for Technical which does not include the cover page. Question: Does the cover page and table of contents count towards page limits? Government Response: The cover page and table of contents does not count towards page limits. Question: Section L states offerors shall use Microsoft Word 2016. Microsoft 365 is continually updated; Our team is currently operating on Version 16.107.3. Is this acceptable? Government Response: The Government can accept proposal information using Microsoft Office 2025. Offerors shall submit letters and other signed documents as a fully searchable Portable Document Format (.pdf) file. Question: Solicitation instructions outline a Level 2 Self-Assessment as a requirement for receiving technical data, but then references CMMC Level 2 (no specification) as a pre award requirement. Can the gov please confirm that they are referring to a Level 2 Self-Assessment as the pre award requirement? Government Response: CMMC Level 2 Self-Assessment is the pre award requirement. Question: Can the government please confirm whether they plan to order the FMS and Domestic CLIN quantities together/at the same time? Or will the gov be exercising the CLIN quantities at different time periods? Government Response: The option quantities would be exercised in accordance with the option clauses contained in the solicitation/resultant contract if/when the need for the option unit(s) is identified. Question: Section L states that the proposal 'shall be subdivided into three separate volumes' but outlines a 4th volume (Annex A) in the G-1 Proposal Structure table. Can you confirm that offerors are able to submit 4 volumes, not 3? Government Response: Offerors should follow the instructions in Section L, G-1 "Proposal Structure". Question: Can the gov please confirm that offerors are allowed to reference work where they performed as a subcontractor in the Past Performance volume? Government Response: In accordance with Section L, Volume II, the Offeror shall identify all relevant contracts (where for the purpose of these instructions the term contract also refers to delivery order or task order), or those portions of a relevant contract, whose performance is within five years of the proposal due date for the principal entities. The relevant contracts provided for each principal entity shall be relative to its proposed role and responsibilities. Commercial contracts may be included. Offerors shall also identify relevant contracts within the past five years of the proposal due date that had any show-cause notices, cure notices, or termination of default. Question: For PPQs where the offeror acted as a subcontractor, can the gov please confirm that the questionnaires should be sent to the prime contractor who subbed the work out to the offeror, and not the government end user who awarded the prime contract? Government Response: The end user (Government) should receive the PPQ request. Question: Do offerors need to submit Authorization Letters if they are the sole entity proposing (ie no team members)? Government Response: If there are no team members, this request would be not applicable. Question: Will the government consider adding 19.1307 Price evaluation preference for HUBZone small business concerns to the solicitation? Government Response: Price evaluation preference for HUBZone small business concerns is applicable under a full and open competition. This requirement is a small business set aside. Question: For offerors submitting proposals across multiple Group Bags and utilizing the same past performance references, it is our understanding that a single Past Performance Questionnaire (Attachment L-1) per reference would be submitted, even where those references are cited across multiple proposals. Given the instruction prohibiting inclusion of the solicitation number on the PPQ: Please confirm that a single PPQ per reference is sufficient, regardless of the number of proposals submitted in which that reference is cited. Please confirm that the

Government will associate completed PPQs to the contracts identified in Attachment L-2 and will consider those PPQs for each proposal in which the same contract reference is cited. Will the Government rely on the contracts identified in Attachment L-2 to associate received PPQs with each proposal submission? Government Response: Each individual solicitation stands on its own. Please follow the requirements in Section L, Volume II Past Performance. The Government will evaluate Past Performance in accordance with Section M.***This marks the end of Amendment N6833526R10520001 of Section A text.***Points of Contact Contract Specialist: Name: Christopher Brake Phone: (240) 587-9458 Email: Christopher.d.brake5.civ@us.navy.mil This is a Request for Proposal for a Firm-Fixed Price type contract. This solicitation is for the production and delivery of the Peculiar Support Equipment (PSE), (listed in Attachment 1) for the CH-53K Aircraft Domestic and FMS platforms. The Government owns the Build-to-Print Technical Drawing Package and the drawings are considered Export Controlled. All Offerors must be able to provide a certified DD Form 2345. All requesting Offerors must have a current certified DD2345 to obtain the drawings. Drawings will be provided to your designated data custodian on your certified DD2345 via the DoD Safe website. All Offerors, other than the successful Offeror, are required to destroy all export control data, regardless of form or the media on which it may be recorded, including CDs, data stored on other computer storage devices and paper documents. Offerors shall provide proof of such destruction via signed letter on corporate letterhead to the PCO via email at christopher.d.brake5.civ@us.navy.mil This solicitation is being issued as a 100% Small Businesses set aside. The full text of the reference FAR clauses may be accessed electronically at <https://www.acquisition.gov/content/regulations> Please note that the FMS CLINs within this Solicitation have an assigned Transportation Account Code (TAC) which can be found in Section G of this Solicitation. Due to the limitations of the contract writing system, a value of \$0.00 was inputted as the TAC Amount. Please note that the \$0.00 assigned to this amount does not reflect a defined value and was only inputted so that the TAC could be generated with its associated CLINs. Contractor Responsibility - Cybersecurity Maturity Model Certification (CMMC) Access to Controlled Unclassified Information a) The technical data package contains CUI. b) This solicitation includes DFARS 252.204-7025, Notice Cybersecurity Maturity Model Certification Requirements. c) Offerors must obtain access to the CUI drawing package in order to prepare a proposal and must possess a current and valid CMMC Level [2] certification at the time of contract award. d) Access will be granted only to entities that demonstrate: 1) Current and valid CMMC Level [2(Self)]; and 2) Compliance with applicable safeguarding requirements; and 3) Valid DD Form 2345. e) The Government will verify CMMC status in the Supplier Performance Risk System (SPRS) prior to releasing the CUI materials. f) Failure to maintain the required CMMC Level [2] prior to award will render the Offeror ineligible for award. g) By submission of a proposal, the Offeror represents that, if selected for award, it will possess the required CMMC Level [2] certification at the time of award. h) If the Offeror intends to utilize subcontractors that will process, store, or transmit FCI or CUI, the Offeror shall ensure such subcontractors possess the required CMMC level prior to award of subcontracts, in accordance with DFARS clause requirements. i) The Government will verify that the apparently successful offeror possesses the required CMMC Level [2] prior to award. j) An Offeror that does not possess the required CMMC Level [2] at the time of award will be ineligible for award. k) In order to be eligible for award the offeror must obtain access to the CUI drawing package by submitting a valid DD Form 2345 and a Current and valid CMMC Level 2 (Self). l) Failure to obtain the CUI drawing package will render the Offeror ineligible for award. m) Compliance with the above is a material condition of award.
