DESCRIPTION

1. Description

Date: May 18, 2026

Time: 11:00AM ET

Format: In-Person at 421 North Main Street, Leeds, MA 01053. Building 1 Room 1265 (Learning Center).

Purpose: To understand industry's perspective on the project and implement the feedback from the Industry Day to incorporate into the upcoming solicitation.

Opportunity Overview: Work includes the removal and upgrade of steam distribution system in Buildings 1, 4, 5, 8, 9, 15, 16. Work will be completed in multiple phases within each building as coordinated between the awarded contractor and COR. Work includes the necessary removal of existing structures, new construction, and certain other items in order to upgrade the steam distribution system as indicated in the Specifications and Drawings. Work also includes power distribution to new system components where required and upgrades or connections to the existing campus BMS to control new installations where required and the removal of existing hazardous materials including asbestos and lead paint. The scope of work also includes the construction of fire rated containment and ICRA barriers at all areas of demolition, asbestos abatement, lead removal, new construction, etc.

2. Objectives

Goals for Industry Day Outcome:

- Understand Challenges for construction regarding this project from a contractor's perspective.
- Understand the major cost drivers.
- What can the VA contribute to provide more clarity.
- What are the uncertainties or risk mitigations not considered.
- What if any value engineering ideas should be considered.
- Are there alternative products that should be considered to promote more competition.

3. Preliminary Agenda

- Welcome & Introductions
- Mission/Program Overview
- Discussion of Objectives
- Site Walk
