

M67004-26-R-0003

THIS IS A SOURCES SOUGHT SYNOPSIS.

There is no solicitation available at this time. This Sources Sought Synopsis is published for information, planning and Market Research purposes only. The Government is anticipating using one of the following NAICS codes for this effort: 541330 (Engineering Services-\$25.5M. The Government will neither award a contract solely on the basis of this Sources Sought Notice nor will the Government reimburse the respondents for any costs associated with preparing or submitting a response to this Sources Sought Notice.

The United States Marine Corps Logistics Command (MARCORLOGCOM) is seeking qualified business sources to acquire services of logistics operational requirements to include the receipt, store and issuance of combat ready capability sets in order to sustain the expeditionary force in readiness, implementing standardized procedures, deployment, implementation, support, and ongoing process improvement. The requirements also include but are not limited to a full spectrum Business Process Management for a range of operations, to include project planning, process analysis and data gathering, demand forecasting, design/development of processes, implementation and monitoring and control of logistical and business processes for the Marine Forces Sustainment Command.

This planned procurement is intended to provide routine and surge capabilities with expertise necessary for all activities with the development, production, fielding, sustainment, and disposal of logistical services across the lifecycle for Department of the Navy, U.S. Marine Corp (USMC), Department of War (DoW), and other expeditionary customers at various locations worldwide (continental U.S., CONUS, and outside continental U.S., OCONUS). This announcement's purpose is to obtain qualification statements from interested small businesses for performing the work described in the Sources Sought Notice.

This Multiple Award Contract (MAC) contract is a follow-on to the following contracts:

- Storage Consolidation II Solution (SC2), Task Order Number M67004-25-F-3001
- Storage Consolidation Solutions VII (SC7), Task Order Number M67004-23-F-3001
- Storage Command Business Solution (SCS), Task Order Number M67004-23-F-3002
- Distribution Management Support Service (DMSS), Task Order Number M67004-23-F-3000
- Coordinated Secondary Reparable (SECREP) Management (CSM) Task Order Number M67004-22-F-3000
- Marine Force Storage Command Class II Program Optimization and Technology Contract Number M67004-25-P-4005

This specification establishes the Marines Logistical Support for the MAC Indefinite Delivery Indefinite Quantity (IDIQ) contract including but not limited to the following:

- Personnel Administration
- Program Management

- Supply Management for Classes
 - Class II
 - Class VII
 - Class VIII
 - Class IX
- Logistical Support and Services (Receipt, Storage and Issue) (CONUS and OCONUS)
 - Class II
 - Class VII
 - Class VIII
 - Class IX
- Technical Research and Position Papers
 - Demand Forecasting
- Subject Matter Support
 - Integrated Logistical Support
 - Metrics and Analysis Support
 - Distribution Management Support
 - Technical Assistance to Supported Commands (repair, maintenance, administrative)
 - Financial Management Support
 - Programmatic Support
 - Preparation for transportation of Marine Corps Military Equipment (ME) and other supplies and material.
 - Integrated Product Support Management
 - Risk Management Support Program
 - Audit Support
 - Supply Chain Advocacy
 - Reliability, Availability, Maintainability and Cost and Supportability
 - Life Cycle Cost Analysis
 - Business Case Analysis
 - Maintenance Planning and Management

- Organization Level Maintenance
 - Level 1
 - Level 2
 - Care of Supply in Storage (COSIS)
- Intermediate and Depot Level Maintenance Management
 - Level 3
- Manpower and Personnel
- Data Right Analysis
- Interim Supply Support
- Training and Training Support
- Non-Destructive Test Equipment (NDTE)
- Quality Control Plan
 - Technical Data Services
 - Data Management
 - Data Analytics
- Budget and Financial Analysis Support
- Risk Management Plan
- Information Technology Support Services
 - Operations and Maintenance
 - Operations and System Support
 - Application Maintenance
 - Help Desk Support
 - IT Documentation Support
 - New Systems Development
 - Technical Support Services
- Administrative Support Services
 - Office Administration
 - Procurement Support

The Performance Work Statement (PWS) will provide more detail on the requirements for each of the aforementioned scope. The required services are to be accomplished under a hybrid cost-reimbursable and firm-fixed-price basis. The Government has established a small business set-aside.

The duration of the MAC will be 10-year ordering period with task orders limited to 60-month period of performance, plus an option to extend for six months from the date of the initial task order award. The aggregate value of the contract award resulting from the synopsis shall result in approximate total value of \$2.5B. A minimum guarantee of \$10,000 for the entire contract term will be satisfied by the award of an initial Task Order. Multiple Task Orders may be awarded with similar delivery schedules requiring the firm to provide services with overlapping work/delivery dates.

Individual Task Orders are expected to range, on average, between \$5,000,000.00 and \$250,000,000.00

The purpose of this source sought synopsis is to obtain additional information from interested/qualified sources. The applicable North American Industry Classification (NAICS) Code is 541330 (Engineering Services-\$25.5M). Offerors shall have no less than five (5) years' experience in providing these types of services. At a minimum, provide the following information in your submittal:

All interested sources are requested to submit questions, comments, suggestions, and capability statements. The specific information MARCORLOGCOM seeks at this time are as follows:

1. Name, brief description of company, and company's technical capability. The capability statement shall succinctly describe the company's ability to fulfill the requirements described.
2. Provide a minimum of two (2) projects describing the company's relevant experience. Information on relevant experience shall not exceed two (2) pages. Discuss the company's experience including the type of services described, whether as a prime or subcontractor, and include the contracting agency and brief description of the contract scope of work.
3. Current security clearance level held or company's eligibility status for obtaining a security clearance.
4. Name and address of company and contact information/point of contact.
5. CAGE code and Unique Entity ID (UEI).
6. Statement as to small business program size status relative to the above NAICS Code and identification of any existing contract vehicles currently in place which may be used and fit the proposed contract scope. Indicate all small business designations for which your company is currently certified.
7. Possible teaming arrangements: If you are responding as a prime contractor, provide anticipated subcontractors and their business size under the identified NAICS code. If you are responding as any other business or teaming entity, please identify the entity and the business size under the NAICS code, if known (e.g.: Partnership, Joint Venture, LLC).
8. Confirm your company intends to submit a formal response to the Government's solicitation within 30 calendar days of RFP release.
9. Confirm your company maintains a Defense Contract Audit Agency (DCAA) approved accounting system and describe your experience in executing cost-reimbursable contracts.

It is anticipated that the primary North American Industry Classification Systems (NAICS) Code for this requirement is NAICS 541330 (Engineering Services-\$25.5M). All interested sources shall specify their business size standard. In addition, small business concerns shall also specify their small business socio-economic category/categories.

This sources sought synopsis does not constitute a Request for Quotation (RFQ), Request for Proposal (RFP), or an Invitation for Bid (IFB), and is not to be considered as a commitment by the Government for any purpose other than market research, nor does this issuance restrict the Governments acquisition approach. Respondents will not be notified of the results of the evaluation.

The Government recognizes that proprietary data may be a part of your submittal. If so, clearly mark such restricted or proprietary data and present it as an addendum to the non-restricted/non-proprietary information. All submittals received will be reviewed for informational purposes. The Government reserves the right to independently verify all information submitted. Submit required information electronically to the following Government personnel:

Pre-submission inquiries must be submitted no later than 1700 ET, Monday 15 June 2026 to:
