STATEMENT OF WORK (SOW)

PR Number 20156930

Tower Climbing Training and Equipment

April 2026

1.0 BACKGROUND

This Statement of Work (SOW) defines the requirements for tower climbing training for the Department of Homeland Security (DHS), U. S. Customs and Border Protection (CBP), Office of Acquisition in support of Border Patrol Agents (BPAs) under the Unattended Ground Sensor (UGS) Program.

2.0 SCOPE

- 2.1 The UGS Program has a requirement to establish a firm fixed price (FFP) contract for Tower Climber Training and Equipment. The BPAs work on Integrated Fixed Towers (IFTs) and other locations, and this work is critical to the performance of the UGS Program. ANSI/ASSE Z359.2 and ANSI/ASSE Z490.1 are both safety-management standards. They are not IT-specific, but they set expectations that directly affect USBP plans and controls IT installation and maintenance work - especially where technicians work at height, in mechanical/electrical spaces, or around telecom infrastructure. BPAs may be assigned tasks that require they ascend and descend significant heights to perform work. Training is essential to be able to safely perform required tasks which meet OSHA, ANSI/ASSE Z359.2, and ANSI/ASSE Z490.1 standards.
- 2.2 This document describes the supplies, ancillary services and execution requirements relating to the procurement of commercially available supplies and services. All property purchased on this requisition will be used in support of requirements for use by U.S. Customs and Border Protection (CBP).

2.3

3.0 APPLICABLE DOCUMENTS

- 3.1 Federal Acquisition Regulations (FAR):
<https://www.acquisition.gov/browse/index/far>
- 3.2 Homeland Security Acquisition Regulation (HSAR):
<https://www.acquisition.gov/hsar>
- 3.3 Code of Federal Regulations (CFR):
<https://www.govinfo.gov/app/collection/cfr/2025>
- 3.4 American National Standards Institute (ANSI), International Electrotechnical Commission (IEC) Standard 529 / English (EN) 60529, Degrees of protection provided by enclosures (IP Code):
- 3.4.1 <https://webstore.iec.ch/publication/2452>
- 3.4.2 <https://www.nema.org/standards/view/american-national-standard-for-degrees-of-protection-provided-by-enclosures6>

4.0 MINIMUM REQUIREMENTS

4.1 The contractor shall meet the following minimum requirements:

- 4.1.1 Training shall comply with ANSI/ASSE Z359.2 and ANSI/ASSE Z490.1 standards.
- 4.1.2 The contractor shall maintain accreditation through the International Association for Continuing Education and Training (IACET). Evidence showing the training to meet the ANSI Z359.2 standard.
- 4.1.3 Provide verifiable qualified instructors with documented experience in fall protection, tower climbing, and rescue operations.
- 4.1.4 The contractor shall demonstrate a minimum of ten (10) years of experience delivering tower climbing and rescue training of similar size, scope, and complexity to U.S. government agencies.
- 4.1.5 The contractor shall provide documented training methodologies aligned with ANSI Z490.1, including written and practical evaluation of student competency.
- 4.1.6 Training shall be conducted at a facility capable of supporting both indoor and outdoor instruction within one hundred (100) miles of a major commercial airport.
- 4.1.7 Maintain access to an indoor training facility capable of supporting year-round training delivery.
- 4.1.8 Provide verifiable qualified instructors with documented experience in fall protection, tower climbing, and rescue operations.
- 4.1.9 Provide all training equipment required for student participation.

4.2 The contractor shall provide the following training programs:

4.2.1 Competent Tower Climber and Rescue Training (minimum duration 40 hours)

- 4.2.1.1 Training shall include classroom instruction and hands-on practical exercises covering:
 - 4.2.1.2 Fall hazard identification and mitigation
 - 4.2.1.3 Fall protection system selection and use
 - 4.2.1.4 Equipment inspection and maintenance
 - 4.2.1.5 Anchorage systems and load considerations
 - 4.2.1.6 Fall clearance estimation
 - 4.2.1.7 Development of written procedures
 - 4.2.1.8 Safe climbing and access methods
 - 4.2.1.9 Rescue techniques (self, assisted, suspended, evacuation)
 - 4.2.1.10 Hands-on practical exercises
 - 4.2.1.11 Regulatory requirements
 - 4.2.1.12 Students shall be evaluated through written and practical assessments

4.2.2 Train the Trainer Program

4.2.2.1 Requirements

4.2.2.1.1 All participants must have successfully completed Competent Tower Climber Rescue course prior to attendance

4.2.2.1.2 The course shall be administered as pass/fail

4.2.2.1.3 Minimum passing score shall be 80%

4.2.2.2 Training shall include

4.2.2.2.1 Adult learning principles

4.2.2.2.2 Instructional delivery methods

4.2.2.2.3 Evaluation techniques

4.2.2.2.4 Training development

4.2.2.2.5 Practical teaching demonstrations

4.2.2.2.6 Participants shall demonstrate instructional competency

4.2.3 Training Materials

4.2.3.1 Manuals

4.2.3.2 Lesson plans

4.2.3.3 Presentations

4.2.3.4 Evaluation tools

4.2.3.5 Certificates

4.2.4 Required Equipment and Services

4.2.4.1 Equipment

Quantity	Part Number	Description
90	GR-TC-3	Tower Climber Kit Expert
90	KA-WVI00018.500	SUPERPLASMA VISOR - CLEAR HALF FACE PLUS
90	KA-WHP00006	SC3 Orange Ear Defenders
90	PT-B17ARA	ASCENSION ascender right-gold
180	PT-M72A TLA	OXAN TRILOCK carabiner
90	PT-D020AA00	I'D descender / belay device, ANSI & NFPA, Size: Small
90	MY-MFAK	My Medic Standard First Aid Kit
20	GR-G4/Rescue	Industrial G4 Rescue Kit
10	PT-R101CA06	"Beam 11mm High-Strength, Low Stretch Kernmantle Rope w/Good Handling for Rescue, NFPA, Blue, 300ft"
10	PT-R101CA07	"Beam 11mm High-Strength, Low Stretch Kernmantle

		Rope w/Good Handling for Rescue, NFPA, Red, 300ft"
10	DS-3590038	Protecta® SRL, Galvanized Cable, Steel Swivel Snap Hook, 50ft., Class 1, ANSI
10	PT-M073CA00	"VULCAN high-strength H-frame asymmetrical carabiner with large capacity, NFPA, ANSI & CSA"
10	GR-ASAPASSEMBLY	ASAP Lock Assembly
20	KN-280A120R0KK	120cm ARO BULL, RED
10	EG-13647	Arsenal® 5517 Topped Tool Pouch with Snap-Hinge Zipper Closure
10	GR-BT50	Gravitec Block & Tackle 50' Kit (Right Handed)
10	GR-PETVLL100	Gravitec ANSI Compliant Vertical Lifeline Bundle (w/100ft of rope)
10	MY-MM-KIT-U-MFK-LG-	MYFAK Large Pro, Red
10	MY-TFAK	My Medic Trauma First Aid Kit

4.2.4.2 Services

Quantity	Description
90	Competent Tower Climber and Rescue 61-90 Students
10	Competent Tower Climber and Rescue Train the Trainer

4.2.5 Training Delivery

- 4.2.5.1 Training shall be hands-on and performance-based
- 4.2.5.2 Meet or exceed OSHA 29 CFR 1910 and 1926 requirements
- 4.2.5.3 Comply with ANSI Z359.2 and ANSI Z490.1 standards
- 4.2.5.4 Maintain safe instructor-to-student ratios
- 4.2.5.5 Delivered by verifiable, experienced instructors
- 4.2.5.6 Require 100% attendance
- 4.2.5.7 Utilize indoor and outdoor environments

4.2.6 Performance Evaluation

- 4.2.6.1 Include written testing and practical demonstrations

5.0 DELIVERABLES AND DELIVERY SCHEDULE

Deliverable	SOW Paragraph Reference	Due
-------------	-------------------------	-----

Provide evidence of compliance with ANSI/ASEE Z359.2 and Z490.1	4.0	With proposal submission
Training Plan based on requirements	4.0	Within ten (10) calendar days after contract award
Equipment list and specifications	4.0	With proposal submission
Training schedule	5.0	At post-award kickoff meeting
Training materials	4.2.3	On day one (1) of each scheduled training course
Certificates	4.2.3	Upon successful completion of required training course(s)
Attendance rosters	4.2.5	Within five (5) calendar days of each course completion
Post-training reports	4.2	Within fifteen (15) calendar days of each completed course

5.1 Equipment Descriptions

- 5.1.1 The contractor shall provide all equipment necessary to support training delivery and operational readiness. All equipment shall comply with applicable OSHA regulations and ANSI Z359 standards. Equipment shall be new, non-refurbished, and compliant with Trade Agreements Act (TAA) requirements. Equipment shall include a minimum one (1) year warranty. Equipment descriptions shall be performance-based and may reference examples (e.g., manufacturer and model) but must allow for “or equal” products that meet or exceed stated specifications.

5.2 Schedules

- 5.2.1 Training schedules shall be developed and finalized during the post-award kickoff meeting. The contractor shall coordinate with CBP to establish course dates, locations, and student capacity based on operational requirements.

5.3 Point of Delivery/Place of Performance

- 5.3.1 Training shall be conducted at the contractor’s facility, located within one hundred (100) miles of a major commercial airport, and shall include both indoor and outdoor training environments. Facilities shall be capable of accommodating up to twenty-five (25) students with appropriate instructor ratios. All fall protection personal protective equipment (PPE) required for student participation in training shall be provided by the contractor.

5.4 Contractor shall coordinate with the COR to conduct within 30 days of contract award a kick-off meeting to cover the following items:

- 5.4.1 Team member roles/responsibilities and contact information,
- 5.4.2 Understanding of the award scope,
- 5.4.3 Inspection and receipt instructions/logistics,

- 5.4.4 Delivery location point of contact,
- 5.4.5 Inspection, shipping and delivery status reporting,
- 5.4.6 Invoice timing, and
- 5.4.7 A written training schedule

5.5 Points of Contact (POC)

Questions and concerns regarding this purchase request shall be first directed to the following parties. The COR is the primary points of contact for inspection, delivery coordination, and invoice matters; the others serve as alternates.

Contracting Officer Representative (COR)
TBD

Contracting Officer/Contract Specialist (CO/CS)
TBD

Technical POC
TBD

6.0 GOVERNMENT FURNISHED EQUIPMENT AND INFORMATION

The Government does not anticipate providing any Government Furnished Equipment (GFE) or Government Furnished Information (GFI).

7.0 TERM OF CONTRACT

The period of performance shall be twelve (12) months from the date of contract award, with up to four (4) additional twelve (12) month option periods.

8.0 SECURITY

This procurement and all related artifacts are controlled unclassified information (CUI). Information is deemed CUI.
