

CERTIFIED MATERIAL TEST REPORT

For those material(s) identified below, a certified test report must be provided to the Government with each shipment. The test results contained on the certified test report(s) shall be adequate to determine compliance with all applicable requirements of the material specification(s) listed below. Availability of the certified test reports are in addition to other contract requirements and does not reduce or prejudice the Government's right to inspect supplies under the provisions of this contract. The test report(s) shall contain the following:

- a. Name and address of suppliers.
- b. Purchase order number.
- c. Identification of all materials by specification, revision, amendment and dates, together with type, grade, size etc.
- d. Quantity of each material.
- e. Test results identified by reference to the applicable requirements.
 - 1. Material
 - 2. Hardness
 - 3. Surface Roughness
 - 4. Material Density
 - 5. Part Number
- f. Quantity tested, sample size, and specimen type as applicable.
- g. Date, signature, and title of the authorized representative of the contractor that is attesting to the accuracy of test report content.
