Describe in detail why only this source can furnish the requirements to the exclusion of other sources. (what specific characteristics of the supplies or services limit the availability to a sole source (e.g., unique features, function of the item, etc.)?)

The Naval Leadership and Ethics Center (NLEC) aboard Naval Station Newport, RI, requires the procurement of 1,500 Each MBTI® Profile Report Form M/Step I™ in support of their curriculum. MBTI® Profile Report Form M/Step I™ is an introspective self-report questionnaire indicating differing psychological preferences in how people perceive the world and make decisions. The four categories are: introversion or extroversion, sensing or intuition, thinking or feeling, judging or perceiving.

MBTI testing is a curriculum requirement for NLEC's Triad courses. The Triad Course is for prospective Commanding Officers, Executive Officers and Command Master Chiefs in all facets of leadership. MBTI® Profile Report Form M/Step I™ is one of a group of assessments required to determine possible deficiencies so the curriculum can be adapted to eliminate those deficiencies. NLEC uses the assessments to promote self-awareness and self-development in their student population. The feedback from the assessments gives the students a common language and understanding to use in their future leadership roles to develop leadership strategies.

Market research indicated that The Myers-Briggs Company is the original publisher and copyright holder MBTI® Profile Report Form M/Step I™ and they do not sell their assessments through authorized distributors or resellers. All NLEC PCO, PXO and PCMC courses are

taught using the requested MBTI product. No other similar products in the marketplace will satisfy this Government need.

☒ **The supplies or services must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.**

For continuity of ongoing curriculum aboard NLEC and for uniformity of PCO, PXO and PCMC training across the fleet, only the requested MBTI product can meet the customer's needs.

☒ **A patent, copyright or proprietary data limits competition.**

The proprietary data is owned and maintained by The Myers-Briggs Company.

☐ **These are "direct replacement" parts/components for existing equipment.**
