

JOINT PROGRAM OFFICE JOINT LIGHT TACTICAL VEHICLES

Common Tactical Truck (CTT) Industry Communications Forum

20 March 2026

Agenda

JOINT PROGRAM OFFICE JOINT LIGHT TACTICAL VEHICLES

Time (EST)	Agenda Item
0830-0900	Check-in
0900-0915	Purpose, Administration, Rules of Engagement Welcome / Opening Remarks
0915-1000	CTT Program Commercial Solutions Offering (CSO) Areas of Interest (Aol) Summary
1000-1100 1030	BREAK Question Submission Cut-off
1100-1200	Questions and Answers Wrap-up

ACC CSO 101 Training on SAM.gov

<https://sam.gov/workspace/contract/opp/717e57f9f4b04be4bf88a34d6f08fecf/view>

THIS EVENT IS BEING RECORDED ON MS TEAMS

Purpose: Provide an overview of the CTT Commercial Solutions Opening (CSO) & outline the Area of Interest (Aol)

Administrative:

- No video recording or pictures shall be taken during the United States Government (USG) briefings
 - Briefing will be posted on SAM.gov following this industry engagement
- Emergency exits and restrooms
- Cell phones shall be turned to silent mode
- Monitor all personal possessions and sensitive materials at all times
- No classified/secret information allowed

Rules of Engagement

JOINT PROGRAM OFFICE JOINT LIGHT TACTICAL VEHICLES

- This industry engagement is informational, and to be used for planning purposes only
- Information shared during the engagement is not contractually binding, nor will any contracts be awarded from this event
- Participation in the CTT industry communications forum is solely voluntary with no reimbursements made by the USG for costs associated with attendance
- This engagement is not a pre-requisite to future contracts
- Companies may submit questions **until 1030hrs;** however, the USG may defer the answer to public posting

Opening Remarks & Program Overview

CTT Program Path Forward

JOINT PROGRAM OFFICE JOINT LIGHT TACTICAL VEHICLES

- Commercial Solutions Opening (CSO) will be the mechanism used to solicit industry for solutions
 - CSO & Area of Interest (Aoi) was issued 19 March 2026
 - Three phased approach to award
- Award: Estimated 1QFY27
 - Five-year base contract; with the potential for additional ordering years
 - Initial Procurement quantities will be finalized during Phase 2

CSO & AoI

CSO Process

JOINT PROGRAM OFFICE JOINT LIGHT TACTICAL VEHICLES

Solicitation # W912CH-26-S-C001

Phase 1 – *Solution Brief

Initial phase is your opportunity to introduce your solution to the Government.

Instead of a lengthy, formal proposal, vendors will submit a concise white paper

- NTE 10 pages
- Due: 6 April 2026

Phase 2 – Presentation

If a solution brief is deemed to have merit, the vendor **may** be invited to submit a presentation:

- Present a more detailed explanation of your solution
- Allows for a deeper dialogue with the Government
- Includes ROM, notional schedule, and IP considerations

Phase 3 – Proposal & Award

May be invited to submit a formal written proposal:

- Comprehensive document that includes a Technical and Price Volume
- Negotiate appropriate terms and conditions for a potential contract

***Focus Solution Brief content on Areas of Interest → avoid generic vendor material**

AOI Overview

JOINT PROGRAM OFFICE JOINT LIGHT TACTICAL VEHICLES

- The Army is seeking a commercially available or non-developmental item (NDI) solution with minimal modifications from current configurations, with the intent to incorporate future attributes in follow-on increments.
- This approach enables the Army to leverage the proven reliability of commercial systems while modernizing the Heavy Tactical Vehicle Fleet.
- The Common Tactical Truck (CTT) is a Family of Vehicles that will replace all capabilities currently conducted by the Palletized Load System (PLS), the Heavy Expanded Mobility Tactical Truck (HEMTT), and the M915 Line Haul Tractor.
- The Government prioritizes reliability over extensive customization. Offerors should propose solutions that maximize the use of existing commercial platforms and proven technologies.
- The CTT consists of six variants: Load Handling System (LHS), Line Haul Tractor (LHT), Tanker, Wrecker, Off Road Tractor (ORT), and Cargo.
- The CTT will ultimately be sustained organically and must be capable of being operated and maintained by Army soldiers without civilian intervention.
- Each CTT variant performs a unique mission role. May propose to less than all six variants.

Aol Variant Descriptions

JOINT PROGRAM OFFICE JOINT LIGHT TACTICAL VEHICLES

Variant	Primary Function	Key Features
LHT	On-Road Trailer Towing	Tows various Army (e.g., M871, M872) and commercial semi-trailers with payloads up to 100,000 lbs.
ORT	Off-Road Trailer Towing	Tows trailers with 40-ton payloads (e.g., M860, M870) and provides auxiliary power to the payload.
LHS	Equipment Transport Towing & Transloading	Transports, loads, and unloads up to 18.5 tons on flatracks or ISO containers. Optional 3,900 lb. capacity crane.
Cargo	Munitions/Cargo Transport	Transports 8 pallets or 4 Multiple Launch Rocket System rocket pods. Includes a 5,500 lb. capacity crane.
Tanker	Fuel Transport & Dispensing	Carries 2,500 gallons of fuel with versatile loading and refueling capabilities for air and ground assets.
Wrecker	Vehicle Recovery	Recovers wheeled vehicles up to 62,000 lbs. Features a 90,000 lb. lift capacity boom and a 60,000 lb. drag winch.

AoI Desired Attributes

JOINT PROGRAM OFFICE JOINT LIGHT TACTICAL VEHICLES

Attribute	Key Details
Powertrain & Power	Mild-hybrid system for fuel efficiency, silent watch, and a minimum of 60kW of exportable power.
Vehicle Architecture	Modern, drive-by-wire system, ready for future autonomy kits, with advanced driver aids and vehicle health monitoring.
Crew & Modularity	Modular, swappable armored/unarmored cabs designed for crew safety and operational flexibility.
Global Mobility	Globally transportable by air, sea, and rail. U.S. highway-legal with terrain-specific mobility profiles.
Military Compliance	Built-in military hardening, including electromagnetic protection, Central Tire Inflation System (CTIS), and C5ISR integration.
Right to Repair	Seeking industry partnership on "Right to Repair" solutions that balance Army maintenance, repair requirements, and supply availability with vendor IP protection.

Phase 1 Expectations

JOINT PROGRAM OFFICE JOINT LIGHT TACTICAL VEHICLES

- Describe your current product line and clearly identify which of the Desired Attributes are included in the baseline offering
 - This is not a developmental effort. The USG is looking for what capabilities are currently available now or available with minor commercial modifications.
- Must be able to perform the legacy Heavy Tactical Vehicle mission
- Further details regarding the Desired Attributes will be provided to vendors selected for Phase 2
- Describe your organic sustainment approach that allows Army soldiers to operate and maintain the vehicles without civilian intervention
- Describe your approach and recommendations on potential Right to Repair provisions, including suggestions regarding Intellectual Property data for field and depot repair
- Further details regarding logistics requirements will be provided to vendors selected for Phase 2
- Describe if your company offers a leasing option

Phase 1 Submission Requirements

JOINT PROGRAM OFFICE JOINT LIGHT TACTICAL VEHICLES

- Interested companies shall submit:
 - A ten-page, single-sided white paper in 12-point font
 - Note: The title page and the Rough Order Magnitude (ROM) do not count toward the page limit
- Submissions shall:
 - Outline proposed commercial solutions to meet the desired attributes outlined in the Aol
 - Be sent via email with the subject line “CTT Increment 1 Aol (Insert Company Name)”, to the following:
usarmy.detroit.cpe-cl.mbx.jtwv-ctt-rfp@army.mil
 - Due: 6 April 2026 @ 1300
