

STATEMENT OF WORK (SOW) (SERVICES)

GENERAL INFORMATION

Title of Project:

Detection of the 14-3-3 protein binding partners in the heart targeted AdCy8 overexpression mouse strain.

Statement of Need and Purpose:

The purpose of this acquisition is to receive service to perform Mass Spectrometry in control, analyze, and compare the data.

Background Information and Objective:

The National Institute on Aging (NIA) Laboratory of Cardiovascular Science (LCS) is studying the detection of the 14-3-3 protein binding partners in the overexpression of adenylyl cyclase in the heart-targeted AdCy8 overexpression mouse strain. The mouse heart produces a strong beating heart with the upregulation of many pathways. The 14-3-3 protein is one of these proteins that emerge as central for the heart survival and regulation of the cell cycle and mitosis check points. The purpose of this project is to study the role of the 14-3-3 protein partners in order to elucidate their pathways and their mechanisms in heart cell survival, cell renewal and cell mitosis, and their regulation.

The plan is to analyze the role of the 14-3-3 protein by detecting its binding partners in the AdCy8 overexpression model. This analysis will be done through the use of mass spectrometry (MS) and comparison of the results with the wild type mouse model.

Period of Performance:

April 13, 2026 to May 4, 2026

SCOPE OF WORK

General Requirements: qualified personnel, material, equipment, technology and facilities.

Independently and not as an agent of the Government, the Contractor shall furnish all the necessary services, qualified personnel, material, equipment, and facilities, not otherwise provided by the Government as needed to perform the Statement of Work below:

Specific Requirements:

The contractor shall provide the following:

- Labor category: Senior researcher.
- The contractor will perform the Mass Spectrometry in control and AC8TG tissues on 28 samples.

- The contractor will analyze and compare the data.
- This type of project typically requires 5 weeks

LEVEL OF EFFORT:

GOVERNMENT RESPONSIBILITIES:

The government will deliver 28 samples to the contractor for analysis.

DELIVERY OR DELIVERABLES: Samples will be delivered to the contractor as described in The requirements above.

The contractor will perform Mass Spectrometry, get the raw data, analyze it and make comparisons between groups (wild type and transgenic tissues).

The contractor should provide the raw data, the analysis and a report explaining the results.

Inspection and Acceptance:

To be done by end user

REPORTING REQUIREMENTS:

The contractor will report on each step of the analysis and send a spreadsheet of results.

The contractor will provide software for analyzing and configuring the data and the results.

Delivery or Performance Location

National Institute on Aging/IRP
National Institutes of Health
BRC Building/ Room 9B135
Baltimore, MD 21224

OTHER CONSIDERATIONS

Travel:

Not required.

Key Personnel:

Senior Researcher: Maria Grazia Perino (NIA)

AND

Richard Jones, Ph.D.

MS Bioworks, LLC

3970 Varsity Drive

Ann Arbor, MI 48108

P: 734-546-3811

Information System Security Plan:

Not required.

Data Rights: All Data produced will be sole property of NIH

The Government requires ownership of data/information delivered under this award as prescribed in FAR 52.227-14 Rights in Data-General (May 2014).

All data and benefits acquired by this work are the property of the US government and the contractor is aware of this requirement.

Section 508—Electronic and Information Technology Standards:

Not required.

Publications and Publicity:

Upon analysis of this work, the laboratory will publish the raw data, the analysis and the conclusions in a scientific journal.

Confidentiality of Information:

Not required.

Invoices

- *Two-Way Invoices: The Contractor shall submit invoices to the Department of Treasury's Invoice Processing Platform (IPP) at: <https://www.ipp.gov>*
- *Three-Way Invoices: The Contractor shall submit invoices to the Department of Treasury's Invoice Processing Platform (IPP) at <https://www.ipp.gov>*
- *Invoices shall be submitted on a monthly basis no later than 10 business days after the billing cycle of the previous month.*
- *Invoices shall include only those services rendered during the billing period.*
- *Invoices shall be billed at the rates, and in accordance with the Contract Line Item Number (CLIN), as listed in the Schedule of Items.*
- *The Contractor shall submit invoices to the Department of Treasury's Invoice Processing Platform (IPP) at <https://www.ipp.gov>*
