

STATEMENT OF WORK

1. Objective/Requirements

The Research and Engineering Directorate at Glenn Research Center (GRC) requires renewal of maintenance and support for our current IDEAS licensing. The existing license needs to be maintained for another year to ensure access to patches, software support, and upgrades from the vendor. **Any third-party vendor selected shall be an approved reseller. The software, licenses, and support shall be obtained exclusively through an authorized vendor, and all terms and conditions related to the order shall be included in the documentation provided by any bidders.**
