

Special Notice: N0016426SNB54

Agency: Department of the Navy

Office: Naval Sea Systems Command

Location: NSWC Crane Division

Classification Code: AC13 – National Defense R&D Services; Department of Defense – military; Experimental Development

NAICS Code: 541512 - Computer Systems Design Services

Response Due Date: Task Area 1 PRIM2E Whitepaper Deadline: April 7, 2026  
Task Area 2 mDICE Response Deadline: April 20, 2026

Request for Solutions:

**Microelectronics Operations, Sustainment, Acquisition, and Infrastructure Capabilities  
Modernization (MOSAIC)**

1. PURPOSE

This Special Notice is issued to provide awareness of the release of a Request for Solutions (RFS) for an other transaction project in accordance with 10 U.S.C. 4022. The RFS title **Microelectronics Operations, Sustainment, Acquisition, and Infrastructure Capabilities Modernization** has been issued as part of the Strategic & Spectrum Missions Advanced Resilient Trust Systems (S<sup>2</sup>MARTS) consortium managed by National Security Technology Accelerator (NSTXL) and administered by the Naval Surface Warfare Center, Crane Division.

2. BACKGROUND AND SUMMARY

2.1 Other Transaction Consortium

Vendors interested in responding to this RFS must be members of the Strategic & Spectrum Missions Advanced Resilient Trusted Systems (S2MARTS) Consortium. Interested parties may visit [S2MARTS.org](https://S2MARTS.org) for membership information.

2.2 PROJECT OVERVIEW

The Department of War (DoW) released a new prototype project opportunity focused on modernizing microelectronics of fielded weapon systems through the digitalization of acquisition and sustainment. The effort, Microelectronics Operations, Sustainment, Acquisition, and Infrastructure Capabilities Modernization (MOSAIC), will leverage

digital engineering tools, commercial best practices, and a scalable, cloud-based environment to enable co-design, data reuse, and lifecycle collaboration across programs. MOSAIC aims to accelerate the delivery of faster and affordable replacements for critical systems while strengthening long-term sustainment infrastructure.

**Please visit the S<sup>2</sup>MARTS website at (<https://s2marts.org/>) to review additional information.**

**Contracting Office Address:**

300 Hwy 361  
Crane, IN 47522  
United States

**Point of Contact.:**
