NOTE 1: A signature block will appear here (replacing these notes) based on the "Dollar Value of this Acquisition" selected above. Since most digital signatures that include date/time-stamps are redacted before they are made publicly available, always insert the date in the "Date" cell when affixing a digital signature to this document.

Department of the Air Force: Justification for Other Than Full and Open Competition

I. Agency and Contracting Activity (RFO 6.104-1(a)(1)):

Agency: PACAF

Contracting Activity: 35th Contracting Squadron, Misaw AB Japan

II. Nature and/or description of the action being approved (RFO 6.104-1(a)(2)):

Sole Source Award: This document approves the award of a Firm Fixed Price (FFP) contract on a sole source basis to Elements Industrial Unlimited.

III. Description of supplies/services required to meet agency needs (RFO 6.104-1(a)(3)):

The requirement is for the procurement of BANAIR 393W-Z4 Tactical Storage Racks System with installation, BACC (20 ct.), BACC.S6 (20 ct.), ROLLINGSTACK crate (24 ct.), WRM Crate – 44" (48 ct.), WRM crate – 66" (18 ct.), WRM crate – 83" (10 ct.). This requirement is a logical follow-on to on going shelving projects in B1334, Misawa Airbase. The contractor selected for installation, Element Industrial Storage Limited, a subsidiary of BANAIR, is on contract for the delivery installation of similar projects in the same warehouse. They are a manufacturer approved for installation of BANAIR shelvings. It is beneficial for the USG to have a BANAIR 393W-Z4 Tactical Storage Racks System for uniformity of storage systems.

IV. Statutory Authority Permitting Other Than Full and Open Competition (RFO 6.104-1(a)(4)):

10 U.S.C. 3204(a)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.

V. Rationale for Use of Authority (RFO 6.104-1(a)(5)):

This requirement will be executed IAW 41 U.S.C 1902 for Sole Source acquisition of commercial supplies using Simplified Acquisition Procedures. Being that Misawa is located in Japan, any repairs or warranty maintenance would require a manufacturer travel to Japan, resulting in significant costs to the Government. Furthermore, having both shelving system be inter-operable by using the same manufacturer, would reduce the user training time required for personnel and provide for standardize training across the systems.

In addition, by doing this project as a sole source, the Government anticipates saving a significant amount in mobilization costs. This is because the installation team is anticipated to already be on site accomplishing the prior requirement and will not need to re-mobilize. BANAIR requires installation from a certified and vetted installer with whom they do business. Going direct to Element Industrial Storage Limited would meet this requirement and avoid administrative burden of having another vendor mobilize for Japan.

VI. Integrated Market Analysis and Efforts to Solicit Competition (RFO 6.104-1(a)(6), (8), and (10)):

The Contracting Officer conducted Internet searches and searches on SAM and FPDS-NG. This Sole-Source J&A will be posted on SAM.GOV under the description of intent to sole source.

VII. Determination of Fair and Reasonable Cost (RFO 6.104-1(a)(7)):

The Contracting Officer is responsible for evaluating, determining, and documenting the anticipated contract cost/price is fair and reasonable in accordance with RFO Subpart 15.4, Contract Pricing.

Department of the Air Force: Justification for Other Than Full and Open Competition

VIII. Any Other Facts Supporting the Justification (RFO 6.104-1(a)(9)):

The USG anticipates a fair and reasonable price based on prior projects from Elements Industrial Storage Limited:

FA520524P0068, Award Date: 30 Sep 24, NAICS 337215, PSC 7125, Elements Industrial Storage Limited, Cage: U16P0, Award Amount: 524,592.00

FA520525P006, Award Date: 12 Dec, 24, NAICS 332999, PSC 7125, Elements Industrial Storage Limited, Cage: U16P0, Award Amount: \$749,450.00

IX. Actions to Overcome Barriers to Competition (RFO 6.104-1(a)(11)):

Future requirements will be reviewed and vetted, and future market research will be conducted.
