Department of the Air Force: Justification for Other Than Full and Open Competition

I. Agency and Contracting Activity (RFO 6.104-1(a)(1)):

CFC

Kade Allen, 50th Contracting Squadron, 210 Falcon Parkway, Suite 2116, Schriever Space Force Base, Colorado 80912

II. Nature and/or description of the action being approved (RFO 6.104-1(a)(2)):

This document approves the award of a contract on a limited source basis of a procurement of a Universal Switching Corporation two (2) Digital Matrix Switch part number S24530BX-664-D2 and one (1) spare kit part number SPK-S24530BFX-1 in support of the the Delta 8/10 SOPS (10 SOPS) operation and maintenance of the Fleet Satellite Communications (FLTSATCOM), Ultra-High Frequency (UHF) Follow-On (UFO) and the Multi User Objective System (MUOS) satellite constellations. This justification is made on an Individual basis.

III. Description of supplies/services required to meet agency needs (RFO 6.104-1(a)(3)):

DELTA 8/10SOPS has a requirement for two S24530BX-661-D2 and one SPK-S24530BFX-1 Spares kit for use with the ground system antennas. Universal Switching Corporation is the Original Equipment Manufacturer (OEM) for the Digital Matrix Switch and holds proprietary rights to its product. The specs are as follows.

Item	Model	Description
1	S24530BX-664-D2	System-Switching-Programmable RS-232/530: 5RU rack mount unit for interconnecting eighteen RS-232/530 digital DTE devices to eighteen DCE devices, routing 16 signals (8 from DTE and 8 from DCE) up to 20Mbps (200kbps RS232), DB-25S I/O connectors, enhanced 10" front panel touchscreen control and display, hot-swap redundant power supplies, hot-swap redundant CPU modules with 10/100/1G Ethernet and serial (232/422/485) control ports, and dual AC power inputs.

2	SPK-S24530BFX-1	Spares kit for model S24530FX (includes the following) 1ea VS24530B-001 - 3-channel interface module. 1ea VSM64530-D12864 - Switch-stage module. 1ea PS64530-002 - Power supply module. 1ea C3-001 - Ethernet/Serial port remote control module. 3ea CAPP-001 - DB25 gender changer. 1ea XTSDIS-006 - 10.1 inch touchscreen display. 1ea 17002-10003 - Chassis fan.

Estimated Value: [REDACTED]

This will be a firm-fixed-price contract.

IV. Statutory Authority Permitting Other Than Full and Open Competition (RFO 6.104-1(a)(4)):

10 U.S.C. 3204(a)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.

V. Rationale for Use of Authority (RFO 6.104-1(a)(5)):

Universal Switching Corporation is the Original Equipment Manufacturer (OEM) for the Digital Matrix Switch and holds proprietary rights to its product. [REDACTED]

Purchasing the Digital Matrix Switch from another manufacturer would be prohibitively expensive to ensure ground system and security and would require the development of new software codes, new hardware interface, revised drawings and procedures, and acceptance testing. This would result in the ground system antennas being inoperative and mission

Department of the Air Force: Justification for Other Than Full and Open Competition

degradation during the programming, installation, change, and testing process (before the ground system and security can be confirmed), which is an unacceptable mission risk for 10 SOPS and not in the best interest of the Government.

The Government scoped out the effort that it would take to reasonably test and install an alternate matrix switch that is not a completely one-for-one replacement. Based on a few assumptions the Government made about the alternate models, it was estimated to take approximately 12 weeks of dedicated software engineering time to configure, test, and install an alternate switch at a cost of roughly [REDACTED]. But since there is still a mission ongoing, "dedictaed" time is not realistic, so the 12 weeks of effort would instead be estimated at around 6 months, which in turns increases the estimated cost. This timeline based on assumptions and the fact it would not be a one-for-one replacement drives the need for this to be a sole source requirement.

The need for a Digital Matrix Switch and spare is considered by the CO to be an adequate supply limit to mitigate mission degradation risk. The 4-month time required to secure the Digital Matrix Switch is determined by the CO to be a lead-time exception to the Bona Fide Need rule at 31 USC § 1502(a).

VI. Integrated Market Analysis and Efforts to Solicit Competition (RFO 6.104-1(a)(6), (8), and (10)):

A sources sought will be posted to SAM.gov, Announcement #XXXX, to determine whether a part number with equal salient characteristics to the requested part is available.

VII. Determination of Fair and Reasonable Cost (RFO 6.104-1(a)(7)):

The Contracting Officer is responsible for evaluating, determining, and documenting the anticipated contract cost/price is fair and reasonable in accordance with RFO Subpart 15.4, Contract Pricing.

VIII. Any Other Facts Supporting the Justification (RFO 6.104-1(a)(9)):

N/A

IX. Actions to Overcome Barriers to Competition (RFO 6.104-1(a)(11)):
