

SOURCES SOUGHT: This is a Sources Sought Synopsis in support of Market Research being conducted by the US Army Corps of Engineers, Engineer Research and Development Center (ERDC) to identify potential sources. This is not a Solicitation Announcement, nor is it a Request for Proposal. This request does not obligate the Government to any contract award. The US Army Corps of Engineers (USACE), Engineer Research and Development Center (ERDC) is issuing this Sources Sought announcement for the supply of a SPARK Plasma Sintering System to determine interest, availability and capability of businesses to supply the item as described below:

ERDC Environmental Laboratory, Environmental Chemistry Branch (EPC) has a need to purchase a Spark Plasma Sintering System for the synthesis and densification of materials in support of their research and mission. The needs for this requirement must meet the following specifications:

Spark Plasma Sintering System					
Main Unit	Max. pressure	kN	30	50	70
	Min. pressure	kN	0.2		
	Stroke	mm	150		
	Open height	mm	200		
	Pressurization system		Servo motor		
	Frame Structure		Tie-bar system		
	Z-axis position display		Digital readout (min. 0.001 mm)		
	Vacuum Chamber		Rectangular-shaped / Front door type with cooling system		
	Max. temperature	°C	2500		
	Exhaust speed		2Pa / within 5 min. From air atmospheric		
DC Pulse Generator	Max. Output *1	A	1000	2000	3000
	Output control		ON/OFF pulse control (PWM)		
	Pulse setting		ON / 1-999 msec. OFF / 1-99 msec.		
Control Unit	Delta acquisition system		8ch Data Acquisition system (DAS / built-in)		
	Safety interlock		Emergency stop, various safety system (built-in)		
Option	High vacuum system		up to 5 x 10 ⁻³ Pa		
	PC for DAS		Windows 10 English version		
	Cooling Water circulation system		Chiller Unit		
	Glove box system		mounted for front door		

*1 Max output of DC pulse generator can be increased in increments of 500A as an option up to 3000A even after the installation.

Delivery Date: Must be delivered no later than six (6) months from order date.

Ship To: Vicksburg, MS 39180

NAICS: 334516 Analytical Laboratory Instrument Manufacturing (Size Standard of 750 employees)

SUBMISSION: All interested companies with 334516 as an approved NAICS code have until April 7, 2026 at 1:00 PM CST to submit the following:

- 1) Name and Address of your Firm
- 2) Point of Contact (name/phone/email)
- 3) UEI/Cage Code
- 4) Business Size, to include designation as HUBZone, 8(a), Service Disabled Veteran Owned Small Business, Small Disadvantaged Business, Woman-Owned Business, and large business. The Government must be able to verify SBA certification of Hubzone, 8(a) and SDB via SAM.
- 5) Capability Statement: Please include a capability statement not to exceed ten pages.

The requested information shall be submitted via email to: Crystal.E.North@usace.army.mil and Sonia.J.Boyd@usace.army.mil with the subject "Spark Plasma Sintering System W912HZ26X1BHQ."
